Subject Kaput Rat and Mouse Bait
EPA Reg. No. 72500-6
Your submission dated March 14, 2005, adding voles as a use site to the Kaput Rat and Mouse Bait label and to update the CSF.

CSF Comments The revised Confidential Statement of Formula (CSF) dated March 14, 2005, is acceptable and replaces all previous CSFs.

Label Review The vole efficacy study does not need to be reviewed at this time. Use of voles on the new label is acceptable. Please make the following label changes:

- Sub-label A: Box/Pail Outer Label in Use Restrictions has a typographical error in the third sentence after "... may be used in pars, woodlots..." should be parks.
- For the Non-Urban Areas, include "voles" in the first sentence and delete the "... in beds..." in the second sentence.

Submit one (1) copy of the revised final printed label for the record before you release the product for shipment.

EPA Contact If you have questions about this letter, please contact me at 703-605-0716 (by phone), 703-305-6596 (by fax), or mccann.geri@epa.gov (by E-Mail).

Sincerely yours,

A handwritten signature in black ink, appearing to read "G. McCann".

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read this Label:

Read this entire label and follow all use directions and use precautions.

IMPORTANT: Do not expose children, pets or other non-target animals to rodenticides. To help prevent accidents:

1. Store product no in use in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and non-target wildlife, OR in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and children under six year of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hooved livestock, raccoons, bears, other potentially destructive animals or in areas prone to vandalism.
3. Dispose of product container, unused, spoiled and unconsumed bait as specified on this label.

USE RESTRICTIONS: This product may be used to control Norway Rats, Roof Rats, House Mice and Voles. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come into contact with food. If applied for voles in secured, tamper-resistant bait stations, this product may also be used in pars, woodlots, yards and lots surrounding residential building, and non-crop areas near agricultural buildings. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in contact with food. Do not use this product within the occupied habitats of threatened or endangered *Peromyscus* spp. Mice.

4/7

URBAN AREAS: This product may be used in and around homes, and industrial, commercial and public buildings. This product may also be used in transport vehicles (ships, trains, aircraft) and in and around related port or terminal buildings. Applications "around" buildings must be made in tamper-resistant bait stations placed along walls or other external parts of buildings (e.g. doorways, ramps, loading docks) where rats, mice or voles might seek to gain entrance.

NON-URBAN AREAS: In non-urban areas, this product may be used only in and around homes and agricultural buildings for rats and mice. If applied in secured, tamper-resistant bait stations, this product may also be used in beds in parks, woodlots, yards and lots surrounding residential buildings, and non-crop areas near agricultural buildings.

SELECTION OF TREATMENT AREAS: Determine areas where rats, mice or voles will most likely find and consume bait. Generally, these are along walls, by gnawed openings, in corners and concealed places, between floors or walls, or in locations where rodents or their signs have been seen. Remove as much alternative food as possible. For voles, look for runways in lawns, flowerbeds or near shrubs and bushes.

APPLICATION DIRECTIONS:

{4 oz. size:}

Rats: Place at least 2 packs per placement. This package contains enough bait to kill 1 or 2 rats. Space placements at 15-30 foot intervals. Maintain an uninterrupted supply of fresh bait for 10 days or until signs of rat activity cease.

{12 oz. size:}

Rats: Place at least 2-6 packs per placement. This package contains enough bait to kill 3 or 4 rats. Space placements at 15-30 foot intervals. Maintain an uninterrupted supply of fresh bait for 10 days or until signs of rat activity cease.

{2.5 and 25 pounds sizes:}

Rats: Place at least 2-8 packs per placement. Space placements at 15-30 foot intervals. Maintain an uninterrupted supply of fresh bait for 10 days or until signs of rat activity cease.

Mice: Place one pack per placement. Space placements at 8-12 foot intervals. Maintain an uninterrupted supply of fresh bait for 15 days or until signs of mouse activity cease.

Rats and Mice: Immediately replace contaminated or spoiled bait. Properly collect and dispose of all visible dead animals and leftover bait. To discourage reinfestation, limit sources of rodent food, water and harborage as much as possible. If reinfestation occurs, repeat treatment. For a continuous infestation, set up permanent bait stations and replenish bait as needed.

Voles: Place 2-4 placepacks in tamper-resistant bait stations. Maintain an uninterrupted supply of fresh bait for 15 days or until signs of vole activity cease.

(The following will be used for the 4 and 12 oz. sizes:)

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in original container in a cool, dry place inaccessible to children and pets. **Disposal: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency : 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

(The following will be used for the 12.5 and 25 lbs. sizes:)

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in original container in a cool, dry place inaccessible to children and pets. **Pesticide Disposal:** wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: {Plastic:} Triple rinse (or equivalent) then offer for recycling or reconditioning; or puncture and dispose of in a sanitary landfill; or incineration; or if allowed by state and local authorities, by burning; if burned, stay out of smoke. **{Paper:}** Dispose of empty paper box in a sanitary landfill or by incineration; or if allowed by state and local authorities, by burning; if burned stay out of smoke.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION

Keep away from humans, domestic animals and pets. Harmful if swallowed or absorbed through the skin because this material may reduce the clotting ability of blood and cause bleeding. Do not get in eyes, on skin or clothing. Wash arms, hands and face with soap and water after applying and before eating or smoking.

5/7

First Aid

Have the product container or label with you when calling a poison control center or doctor or going for treatment. **If swallowed**, call a poison control center, doctor or 1-800-858-7378 for immediate treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

Notice to Physician or Veterinarian

This material may reduce the clotting ability of blood and cause bleeding. If ingested, administer Vitamin K-1 intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.

Environmental Hazards

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds.

Warranty: Manufacturer and Seller make no warranty of merchantability, fitness for any purpose, or otherwise express or implied, concerning this product or its use which extend beyond the statements on this label.
