DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read this Label:

Read this entire label and follow all use directions and use precautions.

IMPORTANT: Do not expose children, pets or other non-target animals to rodenticides. To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in location out of reach of children, pets, domestic animals and non-target wildlife, OR in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hooved livestock, raccoons, bears, other potentially destructive animals or in areas prone to vandalism.
3. Dispose of product container, unused, spoiled and unconsumed bait as specified on this label.

USE RESTRICTIONS: This product may be used to control Norway Rats, Roof Rats, and House Mice. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come into contact with food.

4/11

URBAN AREAS: This product may be used in and around homes, and industrial, commercial and public buildings. This product may also be used in transport vehicles (ships, trains, aircraft) and in and around related port or terminal buildings. Applications "around" buildings must be made in tamper-resistant bait stations placed along walls or other external parts of buildings (e.g. doorways, ramps, loading docks) where rats or mice might seek to gain entrance.

NON-URBAN AREAS: In non-urban areas, this product may be used in and around homes and agricultural buildings.

SELECTION OF TREATMENT AREAS: Determine areas where rats or mice will most likely find and consume bait. Generally, these are along walls, by gnawed openings, in corners and concealed places, between floors or walls, or in locations where rodents or their signs have been seen. Remove as much alternative food as possible.

APPLICATION DIRECTIONS:

{4 oz. size:}

Rats: Place at least 2 packs per placement. This package contains enough bait to kill 1 or 2 rats. Space placements at 15-30 foot intervals. Maintain an uninterrupted supply of fresh bait for 10 days or until signs of rat activity cease.

{12 oz. size:}

Rats: Place at least 2-6 packs per placement. This package contains enough bait to kill 3 or 4 rats. Space placements at 15-30 foot intervals. Maintain an uninterrupted supply of fresh bait for 10 days or until signs of rat activity cease.

{12.5 and 25 pounds sizes:}

Rats: Place at least 2-8 packs per placement. Space placements at 15-30 foot intervals. Maintain an uninterrupted supply of fresh bait for 10 days or until signs of rat activity cease.

Mice: Place one pack per placement. Space placements at 8-12 foot intervals. Maintain an uninterrupted supply of fresh bait for 15 days or until signs of mouse activity cease.

Rats and Mice: Replace contaminated or spoiled bait immediately. Collect and dispose of all visible dead animals and leftover bait properly. To discourage reinfestation, limit sources of rodent food, water and harborage as much as possible. If reinfestation occurs, repeat treatment. For a continuous infestation, set up permanent bait stations and replenish bait as needed.

{Back Panel}

{The following will be used for the 4 and 12 oz. sizes:}

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in original container in a cool, dry place inaccessible to children and pets. **Disposal: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency of 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

{The following will be used for the 12.5 and 25 lbs. sizes:}

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in original container in a cool, dry place inaccessible to children and pets. **Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: {Plastic:} Triple rinse (or equivalent) then offer for recycling or reconditioning; or puncture and dispose of in a sanitary landfill; or incineration; or if allowed by state and local authorities, by burning; if burned, stay out of smoke. **{Paper:}** Dispose of empty paper box in a sanitary landfill or by incineration; or if allowed by state and local authorities, by burning; if burned stay out of smoke.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
CAUTION

Keep away from humans, domestic animals and pets. Harmful if swallowed or absorbed through the skin because this material may reduce the clotting ability of blood and cause bleeding. Do not get in eyes, on skin or clothing. Wash arms, hands and face with soap and water after applying and before eating or smoking.

First Aid

Have the product container or label with you when calling a poison control center or doctor or going for treatment. **If swallowed,** call a poison control center, doctor or 1-800-858-7378 for immediate treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

5/11

Notice to Physician or Veterinarian

This material may reduce the clotting ability of blood and cause bleeding. If ingested, administer Vitamin K-1 intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.

Environmental Hazards

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds.

Warranty: Manufacturer and Seller make no warranty of merchantability, fitness for any purpose or otherwise express or implied, concerning this product or its use which extend beyond the statements on this label.

Dear Mr. Peacock:

Subject: Scimetrics Ltd. Corp.
Kaput Rat and Mouse Bait
EPA Reg. No. 72500-6

On behalf of its client **Scimetrics Ltd. Corp.**, RegWest Company, LLC is submitting the attached materials as notification of an additional product size and label revision for subject product. RegWest Company will act as sole agent in this endeavor.

Attached are the following:

- 1. Application for Pesticide: Other
- 2. One **Reference Label** (illustrating the changes)
- 3. Two market labels (incorporating the changes)

Please note the attached market labeling does **NOT** bear all EPA-approved language.

We're adding the new product size of 22.5 lbs. (180, 2 oz. packs). We're also adding the phrase *New Solutions to Old Problems* to our company logo which appears on our labeling.

Please contact me at (970) 353-0611 or kim@regwest.com if you require additional information or have any questions.

Regards,
RegWest Company, LLC
