Subject: Label Amendment – Add me-too use to the label; make revisions to label format
Product Name: Kaput-D Pocket Gopher Bait
EPA Registration Number: 72500-9
Application Date: October 30, 2015
Decision Number: 510782

Dear Ms. Valentine:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Page 2 of 2
EPA Reg. No. 72500-9
Decision No. 510782

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Gene Benbow by phone at 703-347-0235, or via email at Benbow.Gene@epa.gov.

Sincerely,

A handwritten signature in black ink that reads "Marianne Lewis". The signature is written in a cursive style with a large, prominent "L" at the end.

Marianne Lewis,
Acting Product Manager 07

Read This Label: Read this entire label and follow all use directions and use precautions.

FIRST AID	
Have product container or label with you when calling a poison control center or doctor, or when going for treatment.	
If swallowed	<ul style="list-style-type: none"> •Call a poison control center or doctor immediately for treatment advice. •Have person sip a glass of water if able to swallow. •Do not induce vomiting unless told to do so by the poison control center or doctor.
If on skin or clothing	<ul style="list-style-type: none"> •Take off contaminated clothing. •Rinse skin immediately with plenty of water for 15-20 minutes. •Call a poison control center or doctor immediately for treatment advice.
If in eyes	<ul style="list-style-type: none"> •Hold eye open and rinse slowly and gently with water for 15-20 minutes. •Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. •Call a poison control center or doctor immediately for treatment advice.
NOTE TO PHYSICIAN	
Contains the anticoagulant Diphacinone. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. For humans ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K1, intramuscularly or orally.	

TREATMENT FOR PET POISONING

If animal eats bait, call veterinarian or 1-800-222-1222 at once.

NOTE TO VETERINARIAN

Contains the anticoagulant Diphacinone. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K₁, intramuscularly or orally.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Keep away from children, domestic animals and pets.

Personal Protective Equipment (PPE)

All handlers (including applicators) must wear long-sleeved shirt, long pants, shoes, socks, and waterproof gloves, for example, nitrile rubber gloves \geq 14 mils. Any person who retrieves carcasses or unused bait following application of this product must wear waterproof gloves.

User Safety Requirements

Follow manufacturer's instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing.

Environmental Hazards

{Products greater than 1 lb}

This product is extremely toxic to mammals and birds. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash water or rinsate.

{Products 1 lb or less}

This product is extremely toxic to mammals and birds. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water. Do not contaminate water when disposing of equipment wash water or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its label.

Use only for the sites, pests, and application directions described on this label.

Important: Do not expose children, pets or other non-target animals to rodenticides. To help prevent accidents:

1. Store product not in use in locations out of reach of children and pets.
2. Apply bait in locations out of the reach of children, pets, domestic animals and non-target wildlife.
3. Dispose of product container, unused, spoiled and unconsumed bait as specified on this label.

Use Restrictions: For control only of Pocket Gophers (*Geomys* sp. and *Thomomys* sp.) in and bordering crops (alfalfa, forage, hay, vegetables and grains); rangeland; orchards; crop areas; and non-crop areas (forestry, plantations, golf courses, lawns and other turf areas, levee/ditch banks, nurseries, parks and around agricultural buildings). This product may only be applied at the use sites and by the application methods indicated on this label. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food. Do not apply bait above ground; bait must be applied directly into pocket gophers' burrow systems. Remove or bury any bait spilled on the ground during application.

Selection of Treatment Areas: Pocket gophers throw out low, fan-shaped mounds of earth from their underground tunnels. The tunnel entrance is plugged with soil and is found near one edge of the mound. The mounds are usually at the end of short lateral tunnels which connect with the main burrow system. The main burrow is typically about 18 inches from the mound and within 10 inches of the surface. A single gopher burrow system will be about 50 feet in diameter.

Application Directions:

Method 1: Use a pointed metal rod to probe for the main burrow. The probe will "give" when the burrow is penetrated. Remove the probe. Insert a funnel into the hole. Apply 1/2 cup Kaput bait into the burrow. Carefully plug the hole with leaves, grass or similar material to prevent light from entering and soil from covering the bait. Make 2-3 applications per burrow system. Repeat treatment if fresh mounds appear after 2-3 weeks. {The following graphic is required:}

Method 2: Using a long-handled teaspoon, remove the plug from the mound. Carefully deposit 1/2 cup of Kaput bait as far as possible into the burrow. Close the opening with soil, being careful not to cover the bait. Treat again if fresh mounds appear after 2-3 weeks.

Method 3: If using the Sub-Station (underground bait station) place 1 lb. of Kaput bait in the station. Align the openings of the station with the tunnel system, then cover the station with dirt. Add bait to the station as necessary. {The following graphic is required:}

Method 4: When using a hand probe applicator, insert the tip into the burrow system, making certain to penetrate the tunnel. Follow the directions on the applicator and dispense 1/2 cup of bait into the gopher burrow. Remove the probe and close the remaining hole by placing a sod plug over it or kicking the opening closed. Treat again if fresh mounds appear after 2-3 weeks.

Follow-up: Wearing waterproof gloves, collect and dispose of all dead animals and leftover bait properly. Clean all application equipment thoroughly with hot water and detergent. Do not use to handle or transfer human food.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals. Sweep up spillage carefully and dispose of as indicated below.

Pesticide Disposal: Wastes resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill this container. **[Plastic Buckets]** Offer for recycling or reconditioning; or puncture and dispose of in a sanitary landfill or by incineration.

[Plastic Bags] Completely empty bag and then offer for recycling, if available. Otherwise, dispose of bags in a sanitary landfill or by incineration.

Lot Number: *{Description of where lot number is located}*

ENDANGERED SPECIES CONSIDERATIONS

Notice: It is a Federal offense to use any pesticide in a manner that results in the death of a member of an endangered species. The use of this product may pose a hazard to Federally designated endangered/threatened species.

WARRANTY

To the extent consistent with applicable law, Manufacturer and Seller make no warranty, express or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use/handling is contrary to label instructions.
