# Re: Label Revision Notification to Delete "or 1-800-CLEANUP" from the Disposal Directions EPA Registration No.: 72500-10 Submission Dated: January 11, 2007

Dear Ms. Davis:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated January 11, 2007, for the product Kuput® -D Wax Blocks with Diphacinone. The Registration Division (RD) has conducted a preliminary screen of this request for its applicability under PRN 98-10 and finds that the action(s) requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please me directly at 703-305-6249 or Joyce Edwards, of my staff at 703-308-5479.

Sincerely,

n

Linda Arrington Notifications & Minor Formulations Team Leader Registration Division (7505P) Office of Pesticide Programs 10Please read instructions on reverse before completing form. 0060.

January 11, 2007

Mr. John Hebert, Product Manager 7 Document Processing Desk – *NOTIF* Office of Pesticide Programs – *7504P* **U.S. Environmental Protection Agency** 2777 South Crystal Drive One Potomac Yard (South Building), Room S-4900 Arlington, VA 22202

Dear Mr. Hebert:

Subject: Scimetrics Ltd. Corp. Kaput<sup>®</sup>-D Wax Blocks with Diphacinone EPA Reg. No. 72500-10

On behalf of **Scimetrics Ltd. Corporation**, RegWest Company, LLC is submitting the attached documents as notification of a label revision for subject product. RegWest will act as sole agent in this endeavor.

Attached are the following:

- 1. Application for Pesticide: Other (Notification)
- 2. One Reference Label (illustrating the revision)
- 3. Five New Labels (incorporating the revision)

As illustrated on the *Reference Label*, we are deleting "or 1-800-CLEANUP" from the disposal directions because inclusion of this number on pesticide labels is no longer free to the pesticide registrant.

Please contact me at (970) 353-0611 or kim@regwest.com if you require additional information or have any questions.

Regards, RegWest Company, LLC

Kim Davis, CC, APC, Manager Consultant/Agent

# **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

## READ THIS LABEL:

Read this entire label and follow all use directions and use precautions.

**IMPORTANT:** Do not expose children, pets or other non-target animals to rodenticides. To help prevent accidents:

- 1. Store product not in use in a location out of reach of children and pets.
- 2. Apply bait in locations out of reach of children, pets, domestic animals and non-target wildlife, OR in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and children under six year of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears or other potentially destructive animals or in areas prone to vandalism.
- 3. Dispose of product container, unused, spoiled and unconsumed bait as specified on this label.

**USE RESTRICTIONS:** This product may be used to control Norway Rats, Roof Rats and House Mice in and around homes, industrial and agricultural buildings and similar man-made structures. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come into direct contact with food. Do not broadcast bait.

SELECTION OF TREATMENT AREAS: Determine areas where rats or mice will most likely find and consume bait. Generally, these are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors or walls, or in locations where signs of rats or mice have been seen. Remove as much alternative food as possible. Protect bait from rain or snow.

72500-10 New Label: Page 2 of 3

01/11/07 Notification

#### **APPLICATION DIRECTIONS:**

**Rats:** Apply 3 to 15 blocks (3-15 oz.) per bait placement. Space placements at intervals of 15 to 30 feet in infested area. Maintain an uninterrupted supply of fresh bait for at least 10 days or until there no longer are signs of new feeding by rats.

**House Mice:** Apply one bait block per placement. Space placements at intervals of 8 to 12 feet in infested area. At points of extremely high mouse activity use two bait blocks (up to 2 oz.). Maintain an uninterrupted supply of fresh bait for at least 15 days or until fresh signs of feeding by house mice cease to appear.

Follow-up (for Rats and Mice): Immediately replace contaminated or spoiled bait. Properly collect and dispose of all dead animals and leftover bait. To discourage re-infestation, limit sources of rodent food, water and harborage as much as possible. Where a continuous source of infestation is present, establish permanent bait stations. Regularly check the stations and replace bait as needed.

{For product packaged in 1 pound containers:}

#### Storage and Disposal

**Storage:** Store only in original container in a cool, dry (preferably locked) place inaccessible to children and pets. **Disposal: If empty:** Do not reuse this container; place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

{For product packaged in containers greater than 1 pound:}

## Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store only in original container in a cool, dry place inaccessible to children and pets. Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Disposal: {Plastic Containers:} Triple rinse, or equivalent, then offer for recycling or reconditioning; or puncture and dispose of in a sanitary landfill; or incineration; or if allowed by state and local authorities, by burning (if burned, stay out of smoke). {Plastic Bags:} Completely empty bag into application equipment, then dispose of empty bag in a sanitary landfill; or by incineration; or if allowed by state and local authorities, by burning (if burned, stay out of smoke).

# PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals

CAUTION

Harmful if swallowed or absorbed through the skin. Keep away from children, domestic animals and pets. Avoid contamination of feed and foodstuffs. Do not get in eyes, on skin or on clothing. Wear waterproof gloves when handling this product and when retrieving dead rats or mice. Wash arms, hands and face with soap and water after applying and before eating or smoking.

#### First Aid

Have the product container or label with you when calling a poison control center or doctor or going for treatment. **If swallowed,** immediately call a poison control center, doctor or 1-800-858-7378 for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

If on Skin or Clothing: Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes. Immediately call a poison control center, doctor or 1-800-858-7378 for treatment advice.

#### Note to Physician or Veterinarian

Contains diphacinone, an anticoagulant. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. For humans, dogs or other animals that have ingested this product or have obvious poisoning symptoms (bleeding) or lowered prothrombin times, give Vitamin K-1 intramuscularly or orally. Check prothrombin times every 3 days until values return to normal.

{For product packaged in 1 pound containers:}

## Environmental Hazards

This product is toxic to wildlife and fish. Wildlife feeding on toxic bait may be killed. Scavenging/predatory wildlife may be poisoned if they feed upon animals that have eaten this bait. Do not apply this product directly to water.

{For product packaged in containers greater than 1 pound:}

#### **Environmental Hazards**

This product is toxic to wildlife and fish. Wildlife feeding on toxic bait may be killed. Scavenging/predatory wildlife may be poisoned if they feed upon animals that have eaten this bait. Do not apply this product directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark.

**Warranty:** Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on this label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
