<p> John Hebert, Team Leader Insecticide-Rodenticide Branch Registration Division (7505P)</p>		<p>Date: AUG 2 2010</p>

EPA Reg. No. 72500-19

1. Revise the registration number to "EPA Reg. No. 72500-19".
2. Follow the enclosed "Minimum Type Size Requirements for Final Printed Label".

B. within 15 months of registration, submit the following data for this product:

1. Storage Stability (830.6317)
2. Corrosion Characteristics (830.6320)

The Confidential Statement of Formula (CSF) dated January 8, 2010, is acceptable. All other versions are obsolete.

With the above revisions, this product is in full compliance with the Agency's revised May 28, 2008 "*Risk Mitigation Decision for Ten Rodenticides*" and is consistent with the 1998 Rodenticide Cluster Reregistration Eligibility Decision (RED) document.

Note: Should you wish to add a reference to the company's website on your label, please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, **regardless of whether a website is referenced on your product's label**, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Terms and Conditions of Registration

The registrant must not sell or distribute the product in a manner that results in sale in stores oriented towards residential consumers (e.g., grocery, drug, hardware, home improvement stores). The registrant may sell or distribute the product in a manner that results in sale in stores oriented towards agricultural consumers (i.e., farm, agricultural, tractor stores) and pest control operators.

This product may not be sold in packaging that holds less than 16 pounds of bait.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed. If you have any questions, please contact Dan Peacock by phone (703-305-5407) or E-Mail (peacock.dan@epa.gov).

Enclosures: 1. Stamped Label
2. Minimum Type Sizes for Final Printed Label

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This label must be in the user's possession at the time of product application.

Apply this product only for the sites, pests and application methods specified on this label.

If sufficient quantities of this bait are ingested, the use of this product may aid in the reduction of fleas, including but not necessarily limited to *Xenopsylla cheopis*, that commonly infest listed rodent hosts.

Read this Label:

Read this entire label and follow all use directions and use precautions.

Important: Do not expose children, pets or other non-target animals to rodenticides. To help prevent accidents:

1. Store product not in use in locations out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and non-target wildlife in tamper-resistant bait stations. These stations must be resistant to destruction by children under six years of age and dogs, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hooved livestock, raccoons, bears or other potentially destructive animals or in areas prone to vandalism.
3. Dispose of product container, as well as unused, spoiled and unconsumed bait, as specified on this label.

072500-000RO.20100730

Note: Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used if children, pets, non-target mammals, or birds may access the bait.

Use Restrictions: Use this product to control only Norway Rats [*Rattus norvegicus*], Roof Rats [*Rattus rattus*] and House Mice [*Mus musculus*], and their infested fleas in and around residential buildings, industrial/agricultural buildings and similar man-made structures, and inside transport vehicles. Do not apply farther than 50 feet from buildings. Do not contaminate food/feed or food/feed-handling equipment or place near or inside ventilation duct openings. Do not use this product to control *Peromyscus* spp. mice.

Do not sell this product in individual containers holding less than 16 pounds of bait.

Selection of Treatment Areas: Determine areas where rodents will most likely find and consume bait. Generally, these areas will be along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors or walls, beside burrow openings and other locations where signs of rodents have been seen. Remove as much alternative food as possible.

Application Directions:

Norway Rats and Roof Rats: Apply 4 to 16 one-ounce bait blocks per bait placement. Space placements at intervals of 15 to 30 feet in infested area. Maintain an uninterrupted supply of fresh bait for at least 10 days or until there no longer are signs of new feeding by rats.

House Mice: Apply 1 one-ounce bait block per placement. Space placements at intervals of 8 to 12 feet in infested area. At points of extremely high mouse activity use 2 bait blocks. Maintain an uninterrupted supply of fresh bait for at least 15 days or until fresh signs of feeding by house mice cease to appear.

Follow-up (Rats & House Mice): Immediately replace contaminated or spoiled bait. While wearing gloves, properly collect and dispose of all dead animals and leftover bait. To discourage re-infestation, limit sources of rodent food; water and harborage as much as possible. If reinfestation occurs, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations. Regularly check the stations and replace bait as needed.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in original container in a cool, dry place inaccessible to children and pets. **Pesticide**

Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Disposal:** Non-refillable container; do not reuse or refill this container. Offer for recycling, if available, or reconditioning, if appropriate; otherwise dispose of empty container in a sanitary landfill; or by incineration; or if allowed by state and local authorities, by burning (if burned, stay out of smoke).

Lot Number: {Description of where the lot number is found}

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed. Keep away from children, domestic animals and pets.

All handlers (including applicators) must wear shoes, socks, and gloves. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

4/7

User Safety Requirements

Follow manufacturer's instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

First Aid

Have label with you when obtaining treatment advice.

If swallowed

- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.

TREATMENT FOR PET POISONING

If animal eats bait, call veterinarian at once.

NOTE TO PHYSICIAN OR VETERINARIAN

Contains the anticoagulant Bromadiolone. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. For humans or animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K₁, intramuscularly or orally. Also for pets, if needed, check prothrombin time every 3 days until values return to normal (up to 30 days). In severe cases, blood transfusions may be needed.

Environmental Hazards

This product is extremely toxic to mammals and birds. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash water or rinsate.

Notice of Warranty

1. Warranty Disclaimer

The directions for use of this product must be followed carefully. The goods delivered to you are furnished "as is" by Manufacturer or Seller. To the extent permitted by applicable law, Manufacturer and Seller make no warranties, guarantees or representations of any kind to Buyer or User, either express or implied, or by usage of trade, statutory or otherwise, with regard to the product sold, including, but not limited to, merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade usage. To the extent permitted by applicable law, unintended consequences, including, but not limited to ineffectiveness, may result because of such factors as the presence or absence of other materials used in combination with the goods, the manner of use or application, including weather, all of which are beyond the control of Manufacturer or Seller and assumed by Buyer or User. This writing contains all of the representations and agreements between Buyer, User, Seller and Manufacturer, and no person or agent of Manufacturer or Seller has any authority to make any representation, warranty or agreement relating in any way to these goods.

2. Limitation of Liability

To the extent permitted by applicable law, in no event shall Manufacturer or Seller be liable for special, incidental or consequential damages, or for damages in their nature of penalties relating to the goods sold, including use, application, handling and disposal. Manufacturer or Seller shall not be liable to Buyer or User by way of indemnification to Buyer or to customers of Buyer, if any, or for any damages or sums of money, claims or

7/7

demands whatsoever, resulting from or by reason of, or arising out of the misuse, or failure to follow label warnings or instructions for use, of the goods sold by Manufacturer or Seller to Buyer. Buyer's or User's exclusive remedy, and Manufacturer's or Seller's total liability, shall be for damages not exceeding the cost of the product purchased. The Buyer, its customers or User assume all such risks.

3. If you do not agree with or do not accept any of the directions for use, warranty disclaimers or limitations of liability, do not use this product; return it unopened to the Seller and the purchase price will be refunded.
