	U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (7505C) 1200 Pennsylvania Ave., N.W. Washington, D.C. 20460	EPA Reg. Number: 72642-3	Date of Issuance: SEP 19 2005
		Term of Issuance: Conditional	
		Name of Pesticide Product: Gamma Premise Spray	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> Registration <input type="checkbox"/> Reregistration (under FIFRA, as amended)			
Name and Address of Registrant (include ZIP Code): Elanco Animal Health A Division of Eli Lilly and Company 2001 West Main Street Greenfield, IN 46140			
Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.			
On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.			
<p>This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:</p> <ol style="list-style-type: none">1. Submit and/or cite all data required for registration/ reregistration of your product when the Agency requires all registrants of similar products to submit data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.2. Make the labeling changes listed below before you release the product for shipment:<ol style="list-style-type: none">a. Add the phrase "EPA Registration No. 72642-3".b. In the Precautionary Statements, delete "inhaled or absorbed through the skin" and "Avoid breathing spray mist" since the acute toxicity data for the cited product do not support such precautions. Also delete the "If inhaled" and "If on skin or clothing" First Aid statements.			
Signature of Approving Official:		Date: SEP 19 2005	

2/9

- c. Delete the precaution "Care should be taken when making applications to avoid household pets, particularly fish and reptile pets." This product is not for use in or around residential sites.
 - d. Under Directions For Use, revise the first paragraph to be consistent with the use sites on the front panel, i.e., "For use as a general surface (non-food/non-feed areas), crack and crevice, or spot treatment in and around livestock/poultry housing, kennels, rail cars....etc."
 - e. Based on use in outdoor areas, add the following bee precaution under Environmental Hazards: "This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area".
 - f. In the Warranty statement, replace "In no case shall [name of company] be liable..." with "To the extent permitted by law, [name of company] shall not be liable....".
3. Submit two (2) copies of your final printed labeling before you release the product for shipment

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Draft Label Front Panel

Elanco Animal Health

GAMMA PREMISE SPRAY

PREMISE INSECTICIDE
[For Agricultural Use Only]

A controlled release premise insecticide for use in and around livestock/poultry housing, pet kennels, railcars, trucks and trailers for control of flies, fleas, mosquitoes, ants, bees, wasps, crickets, pillbugs, scorpions, sowbugs, spiders, ticks and litter beetles.

Active Ingredient

Gamma-cyhalothrin: Cyclopropanecarboxylic acid, 3-(2-chloro-3,3,3-trifluoro-1-propenyl)-2,2-dimethyl, cyano(3-phenoxyphenyl) methyl ester 5.9%

Other Ingredients.....94.1%

Total.....100.0%

Contains 0.5 pound of active ingredient per gallon
Contains petroleum distillates

**ACCEPTED
with COMMENTS
In EPA Letter Dated:**

SEP 19 2005

**Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under EPA Reg. No.
72642-3**

Keep Out of Reach of Children

CAUTION

See booklet on back panel for Precautionary Statements, First Aid
and Directions for Use including Storage and Disposal

Notice: Shake well before use. Avoid freezing. Read entire label. Use only according to label directions. Before using this product, read Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies at the end of the label booklet. If terms are unacceptable, return at once unopened.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes moderate eye irritation. Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with eyes, skin or clothing. Avoid breathing a spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse. Wear safety glasses or goggles. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals.

Skin exposure may also result in a sensation described as a tingling, itching, burning or prickly feeling. Onset may occur immediately to 4 hours after exposure and may last 2 to 30 hours, without damage. Wash exposed areas thoroughly with soap and water. Relief from skin sensation may be obtained by applying an oil-based cream.

5/9

FIRST AID

- If swallowed:** Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person.
- If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible. Call a poison control center or doctor for further treatment advice.
- If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 -20 minutes. Call a poison control center or doctor for treatment advice.
- If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after five minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
- Note to Physician:** Induced vomiting as a first aid for this product may result in increased risk of chemical pneumonia or pulmonary edema caused by aspiration of the hydrocarbon solvent. Vomiting should only be induced under professional supervision.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-428-4441 for emergency medical treatment information.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish and aquatic organisms, and toxic to wildlife. Do not apply directly to water, or areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters. Apply this product only as specified on the label. Care should be used when making applications to avoid household pets particularly fish and reptile pets.

PHYSICAL AND CHEMICAL HAZARDS

Do not use or store near heat or an open flame.

6/9

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

For use as a general surface (nonfood/nonfeed areas), crack and crevice or spot treatment in, on and around buildings and structures and their immediate surroundings. Permitted areas of use include, but are not limited to livestock/poultry housing structures and pet kennels. GAMMA PREMISE SPRAY insecticide can be reapplied at 21-day intervals if necessary.

GAMMA PREMISE SPRAY insecticide is intended for dilution with water for application using hand held or power operated application equipment as a coarse spray for crack and crevice or spot and general surface treatments. Application equipment that delivers low volume treatments may also be used to make crack and crevice or spot and general surface treatments. Fill the applicator tank with the desired volume of water and add GAMMA PREMISE SPRAY insecticide. Close and shake before use to ensure proper mixing. Shake or re-agitate applicator tank before use if application is interrupted. Make up only amount of treatment volume as required.

Pests	Active Ingredient concentration	Dilution rate
Flies (including House flies, stable flies, little house flies) Ants Bees Fleas* Wasps	0.0075% - 0.015%	0.0075% 0.16 fl oz (5 mL) / gal water 0.5 fl oz (15 mL) / 3 gal water 0.015% 0.33 fl oz (10 mL) / gal water 2.0 fl oz (30 mL) / 3 gal
Litter beetles** (including adults/immature stages of Darkling Hide and Carrion beetles). Crickets Mosquitoes Pillbugs Sowbugs Scorpions Spiders Ticks	0.03%	0.03% 0.65 fl oz (20 mL) / gal water 2.0 fl oz (60 mL) / 3 gal water
Note: Typical premise spray rates are 1 gal of diluted spray to treat 500 – 1000 sq. ft. * For outdoor use only and use at 0.015% rate only. ** For control of light infestations of beetles, use 0.015% rate.		

- 1. FLIES, FLEAS, MOSQUITOES, BEES AND WASPS:** Apply directly to walls, ceilings, window screens, and other insect resting areas as a residual surface treatment. May be used in and around equipment storage sheds; also see **OUTDOOR SURFACE USE**.
- 2. ANTS:** Apply to ant trails around doors and windows and other places where ants are found. Apply barrier treatments to prevent infestation as directed below; also see **OUTDOOR SURFACE USE**.
- 3. SPIDERS AND CRICKETS:** Apply as a coarse, low pressure spray to areas where these pests hide such as corners, storage areas, around water pipes, doors and windows, attics and eaves and baseboards. Pay particular attention to cracks and crevices; also see under **OUTDOOR SURFACE USE**.
- 4. SOWBUGS AND PILLBUGS:** Apply around doors and windows and other places where these pests may be found or where they may enter the premises. Treat storage areas and other locations. Apply barrier treatments to prevent infestation as described below; also see **OUTDOOR SURFACE USE**.
- 5. LITTER BEETLES (Darkling, Hide and Carrion Beetles) in Animal Housing (such as Poultry Housing):** To control adult litter beetles, apply GAMMA PREMISE SPRAY insecticide to walls and floors, at each grow-out or sanitation procedure, before reintroduction of poultry or other animals. This will

7/9

suppress beetles that escaped earlier treatment and will also help to delay the onset of further infestations. Pay attention to areas where beetles frequently occur, such as walls, supports, cages, stalls and around feeders; also see Livestock/Poultry Housing Structures.

LIVESTOCK/POULTRY HOUSING STRUCTURES AND PET KENNELS

Apply as a general surface and/or crack and crevice treatment. Control is enhanced when interior and exterior perimeter applications are made in and around livestock, poultry and pet housing structures. Normal cleaning practices of the structure must also be followed along with applications of GAMMA PREMISE SPRAY insecticide to effectively control the crawling and flying insects listed in the table.

For poultry houses, apply to floor area (birds grown on litter) or to walls, posts and cage framing (birds grown in cages). Application should be made into cracks and crevices around insulation. Re-apply after each grow-out or sanitation procedure. Indoor control can be enhanced by making perimeter treatments around the outside of the building foundations to prevent immigrating beetles. Maintaining a year round treatment program will prevent background populations from reaching problem levels.

DO NOT make applications of GAMMA PREMISE SPRAY insecticide in areas where animals are present in the facility. Allow treated surfaces to dry completely before restocking the facility. **DO NOT** make applications to any animal feedstuffs, water or watering equipment. **DO NOT** contaminate any animal food, feed or water in and around livestock, poultry or pet housing when making applications.

OUTDOOR SURFACE USE

For control of flies, fleas, mosquitoes, ants, bees, wasps, crickets, pillbugs, scorpions, sowbugs, spiders, ticks and other similar perimeter insect pests. Apply with either hand or power application equipment as a residual treatment to surface of buildings, screens, window frames, eaves and other similar areas. Also may be applied to lawn areas around non-residential buildings, refuse dumps and similar areas where these insect pests are active.

BARRIER TREATMENTS

To help prevent infestation of a building, apply a band 6 to 10 feet wide around and adjacent to the building. Also, treat the building foundation to a height of 2 to 3 feet where pests are active and may find an entry into the building. Apply as a coarse spray to thoroughly and uniformly wet the foundation and/or band area using 1 - 5 gallons of treatment solution applied to 800 - 1600 square feet.

NOTE: Do not use water-based sprays of GAMMA PREMISE SPRAY insecticide in conduits, motor housings, junction boxes, switch boxes, or other electrical equipment because of possible shock hazard. For best results thoroughly wash out sprayer and screen with water and detergent before using GAMMA PREMISE SPRAY insecticide.

- Let treated surfaces dry before allowing humans and pets to contact these surfaces.
- Do not use this product with oil.
- Do not allow applications to contact water inhabited by fish, such as aquariums and ornamental fish ponds that are located in and around structures being treated.

8/9

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

- Pesticide Storage:** Store in original container only. Keep container closed when not in use. Do not store near food or feed. In case of spill or leak on floor or paved surface, soak up with sand, earth or synthetic absorbent. Remove to chemical waste storage area until proper disposal can be made. **Do not allow product to freeze.**
- Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or Hazardous Waste representative of the nearest EPA Regional Office for guidance.
- Container Disposal:** Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed, by State and local authorities, by burning. If burned stay out of smoke.

INTEGRATED PEST AND RESISTANCE MANAGEMENT

Flies, beetles and other insects have demonstrated the ability to develop resistance to insect control products. Continual exposure of flies and other insects to a single class of insecticide may lead to the development of resistance to that class of insecticide. The following resistance management strategy will help ensure the prolonged usefulness of GAMMA PREMISE SPRAY insecticide, as well as other conventional insecticides.

- Apply GAMMA PREMISE SPRAY insecticide and other insect control agents only according to label directions.
- Do not use less than the labeled rate of any insect control product.
- Include multiple control tactics (cultural and/or biological controls) within an Integrated Pest Management Program.
- Rotate GAMMA PREMISE SPRAY insecticide with other classes of insecticide (naturalytes, phenyl pyrazoles, chloronicotinyls, and organophosphates, etc.) during an insect pest season.

For advice concerning integrated pest management practices in relation to local conditions, consult resources in resistance management programs, your Cooperative Agricultural Extension Service or your Elanco Animal Health representative (1-800-428-4441).

TERMS AND CONDITIONS OF USE

If terms of the following Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies are not acceptable, return unopened package at once to the seller for a full refund of purchase price paid. Otherwise, use by the buyer or any other user constitutes acceptance of the terms under Warranty Disclaimer, Inherent Risks of Use and Limitations of Remedies.

WARRANTY DISCLAIMER

Elanco warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. Elanco MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

9/9

INHERENT RISKS OF USE

It is impossible to eliminate all risks associated with the use of this product. Lack of performance or other unintended consequences may result because of such factors as use of the product contrary to label instructions, abnormal conditions, presence of other materials, the manner of application, or other factors which are beyond the control of Elanco Animal Health or the seller. All such risks are assumed by the buyer.

LIMITATION OF REMEDIES

The exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability, or other legal theories), shall be limited to, at Elanco Animal Health's election, one of the following:

- (1) Refund of purchase price paid by buyer or user for product bought, or
- (2) Replacement of amount of product used

Elanco Animal Health shall not be liable for losses or damages resulting from the handling or use of this product unless Elanco Animal Health is promptly notified of such loss or damage in writing. In no case shall Elanco Animal Health be liable for consequential or incidental damages or losses.

The terms of the Warranty Disclaimer above and this Limitation of Remedies cannot be varied by any written or verbal statements or agreements. No employee or sales agent of Elanco Animal Health or the seller is authorized to vary or exceed the terms of Warranty Disclaimer of this Limitation of Remedies in any manner.
