ENVIRONMENTAL HAZARDS

This product is toxic to aquatic organisms, including fish and invertebrates. Rinsing application equipment over the treated area will help avoid runoff to water bodies or drainage systems. Do not apply directly to or near water. Drift and water may be hazardous to fish in water adjacent to treated areas. See Directions for Use for additional precautions and requirements.

This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.
