

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Antimicrobials Division (7510C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:
72897-2

Date of Issuance:
June 10, 2003

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Term of Issuance: Conditional

Name of Pesticide Product:
Triosyn T50 Powder

Name and Address of Registrant (include ZIP Code):

Triosyn Corporation
1191 South Brownell Road
Williston, VT. 05495

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to the use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/re-registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Revise the EPA File symbol 72897-E to EPA Registration Number 72897-2.
3. Obtain and list your EPA Establishment number.
4. At bottom right panel add the following statement: Not for use in products that may come into contact with food.
5. Submit product chemistry data requirements when in progress studies are available as final reports.
6. Submit two copies of the revised final printed label for our records.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage. Do not get in eyes, on skin or clothing. Wear protective eyewear (goggles, face shield, or safety glasses). Wash hands thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing separately before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or other waters, unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Keep container closed when not in use. For extended periods, store in cool, dry location. Keep tightly closed during storage. Do not expose to direct sunlight. Open dumping is prohibited.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration or if allowed by state and local authorities by burning. If burned stay out of smoke.

* A microbiostatic agent is an agent that inhibits the growth of odor causing bacteria, bacteria which cause staining & discoloration, fungi (mold & mildew), and algae. This product does not protect users or others against food-borne or disease-causing bacteria.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Use only under agreement with Triosyn Corp. Specific manufacturing directions for a given application will be provided by consultation with Triosyn Corp.

When incorporated into the manufacturing process, Triosyn® T50 powder provides built-in antimicrobial and antifungal activity in the types of manufactured materials and finished products listed below. Triosyn® T50 Powder inhibits the growth of microorganisms such as bacteria, mold, mildew, and fungus that may cause odor, stain, discoloration, unsightly texture, decay, or deterioration of physical properties of the materials and finished products. This product is intended for use as an additive during the manufacturing process for the following materials/applications:

Paints, stains, and other coating systems, including enamel urethanes, wood stains, and alkyde epoxy enamels, for use on exterior surfaces only. Triosyn® T50 Powder will normally impart protection when added at levels between 20% and 30% (wt/wt). More may be required in hot, humid areas, where mildew is particularly severe.

Synthetic and non-woven textile materials for use in outdoor equipment such as awnings, tarpaulins, and portable outdoor shelters. Triosyn® T50 Powder will normally impart protection when added at levels between 12.5% and 45% (wt/wt) of the laminate.

Finished products containing Triosyn® T50 Powder may not make public health claims relating to antimicrobial activity without first obtaining the necessary regulatory approvals.

Not for use in products that come into contact with food,
