NOTIFICATION OF LABEL CHANGE PER PR NOTICE 2007-4

This notification is consistent with the guidance in PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156. No other changes have been made to the labeling or the Confidential Statement of Formula for this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if the amended label is not consistent with the requirements of 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Signature: Christina M. Swick Date: 7/29/11

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC
ANIMALS**

WARNING: Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear protective eyewear (goggles or face shield or safety glasses). Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the restroom. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or other waters, unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Keep container closed when not in use. For extended periods, store in cool, dry location. Keep tightly closed during storage. Do not expose to direct sunlight. Open dumping is prohibited.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling, if available, or puncture and dispose of in a sanitary landfill, or incineration or if allowed by state and local authorities by burning. If burned, stay out of smoke.

** A microbiostatic agent is an agent that inhibits the growth of odor causing bacteria, which cause staining & discoloration, fungi (mold & mildew), and algae. This product does not protect users or others against food-borne or disease-causing bacteria.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Use only under agreement with Triosyn Corp. Triosyn technical experts

are available to determine optimum manufacturing conditions for specific application purposes.

When incorporated into the materials/products listed below, Triosyn® T50 powder provides built-in antimicrobial and antifungal activity at levels between 0.25% and 45% (wt/wt). Triosyn® T50 Powder inhibits the growth of microorganisms such as bacteria, mold, mildew, and fungus that may cause odor, stain, discoloration, unsightly texture, decay, or deterioration of physical properties of the materials and finished products. This product is intended for use as an additive during the manufacturing process for the following materials/applications:

Paints, Stains, Coating Systems

(Powder, water, and/ or solvent based)

For use in enamel urethanes, wood stains, and alkyd epoxy enamels, and for use on exterior surfaces only. Triosyn® T50 Powder will normally impart protection when added at levels between 0.25% and 45% (wt/wt). More may be required in hot, humid areas, where mildew is particularly severe.

Textiles and Fabrics

Manufactured materials comprised of synthetic fibers and blends with natural fibers such that the finished product contains between 0.25% and 45% (wt/wt) of Triosyn® T50 Powder, which may be incorporated directly into the fiber or as a finish for the fabric/product. For use in aquarium filters, vacuum bags and filters, air filters/ materials (ex. filter media of masks and respirators), HVAC&R and other air filters and filter materials, mats, combative sports equipment, outdoor equipment such as awnings, tarpaulins, portable outdoor shelters, gowns, drapes, wipes, gloves (non-medical), mops, sorbents (ex. cat litter, absorptive materials), and shoe components.

Films (For non-skin contact use only)

Triosyn® T50 Powder can be incorporated into film materials which may be used in construction materials, disposable diapers and hygiene pads, wraps, and dressings. This antimicrobial will normally impart protection when added at levels between 0.25% and 45% (wt/wt).

Not for use in products that come into contact with food. Do not use in or on air ducts, duct fittings, duct liners, fans, supply ducts, return ducts, exhaust ducts, intakes, outlets, louvers, dampers, diffusers, plenums, outdoor air intakes, air handling units, or any other duct work of heating, ventilation, air conditioning, or refrigeration (HVAC&R) systems. Finished products containing Triosyn® T50 Powder may not make public health claims relating to antimicrobial activity without first obtaining the necessary regulatory approvals.
