

T344

A powder that makes processing solution for flowers.

The powder when mixed with water makes a clear solution for processing of all fresh flowers during shipping and sales. Activates water uptake, gives proper control over microbial growth and supplies flowers with food to survive the distribution period without developing prematurely.

ACTIVE INGREDIENTS:

Bronopol	0.260%
Poly(Iminoimidocarbonyliminoimidocarbonyliminohexamethylene)		
Hydrochloride	0.250%

INERT INGREDIENTS:	<u>99.490%</u>
Total	100.00%

KEEP OUT OF REACH OF CHILDREN

CAUTION

FIRST AID	
If swallowed	-Call a poison control center or doctor immediately for treatment advice. -Have a person sip a glass of water if able to swallow. -Do not induce vomiting unless told to do so by a poison control center or doctor. -Do not give anything by mouth to an unconscious person.
If on skin or clothing	-Take off contaminated clothing. -Rinse skin immediately with plenty of water for 15-20 minutes. -Call a poison control center or doctor for treatment advice.
If inhaled	-Move person to fresh air. -If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. -Call a poison control center for further treatment advice.
HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-247-9725 for emergency medical treatment information.

**PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals**

CAUTION: Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Keep away from food, drink and animal feeding stuffs. Keep in a dry place (max. 60% relative humidity) between 0 and 30°C. The product has a shelf life of 1.5 years and the expiration date is indicated on the product packaging.

Container Disposal: Securely wrap original container in several layers of newspaper and discard in trash.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Dosage: 10 g per 2.6 quart (2.5 liter) of water.

Directions:

- **Hygiene:** Use only clean buckets, containers and other materials.
- **Buckets and containers:** Do not use buckets and containers of unprotected ferrous metal (zinc, copper, iron). The acidic solution can cause rust building which reduce vase life.
- **Type of water:** Preferably use tap water. When using spring or rain water, a filter must be installed previous to the dosing unit.
- **Active life of the solution:** Reusable for 3 – 7 days, depending on the number of flowers treated and the temperature. The solution will remain effective for a longer period of time when used at lower temperatures. Do not add residual solutions to fresh ones.
- **Dispensing equipment:** Check the dispenser unit frequently to ensure proper functioning.

Dosing and Dissolving process: In order to enhance the dissolving process, dispense the product in a bucket or vase before filling with water. Use the correct water volume (10 g per 2.6 quarts of water). Once the bucket or vase is handled, the powder dissolves quickly from the water turbulence.

IMPORTANT: WARRANTY AND DISCLAIMER INFORMATION

Pokon & Chrysal B.V. warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated in the label when used in accordance with directions under normal conditions of use; but this warranty of fitness for a particular purpose does not extend to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
