 The Netherlands**

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the labeling changes listed below before you release the product for shipment:
  - a. Add the phrase "EPA Registration Number 72992-4."

**Labeling Comments:**

- Note the correct spelling of "Out" in the "Keep Out of Reach of Children" text.
- In case of emergency a US telephone number (toll-free is preferable) should be listed on the label near or below the first aid statement.
- Remove the phrase "Keep out of Reach of Children" from the Storage and Disposal section.
- The Storage and Disposal statement must be revised as follows:

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal

**PESTICIDE STORAGE:** Store in a cool place away from direct sunlight. Do not store below 41°F.

**PESTICIDE DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash.

**PESTICIDE CONTAINER:** Do not reuse container. Rinse thoroughly before discarding in trash.

3. Submit three copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

Adam Heyward  
Product Manager 34  
Regulatory Branch II  
Antimicrobials Division (7510C)

# T535

## Conditioner for bacterial sensitive flowers

T535 checks the processes in the flower stem that cause vascular plugging. It gives proper control over microbial growth. As a result water uptake is activated, thus preventing premature wilting and considerably improving the inner quality of flowers.

### ACTIVE INGREDIENTS:

Bronopol .....	0.440%
Poly(Iminoimidocarbonyliminoimidocarbonyliminohexamethylene) Hydrochloride.....	0.468%
<b>INERT INGREDIENTS:</b> .....	<u>99.092%</u>
Total .....	100.00%

KEEP OUR OF REACH OF CHILDREN

## DANGER

<b>FIRST AID</b>	
<b>If swallowed</b>	-Call a poison control center or doctor immediately for treatment advice. -Have a person sip a glass of water if able to swallow. -Do not induce vomiting unless told to do so by a poison control center or doctor. -Do not give anything by mouth to an unconscious person.
<b>If in eyes</b>	- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. -Call a poison control center or doctor for treatment advice.
<b>If on skin or clothing</b>	-Take off contaminated clothing. -Rinse skin immediately with plenty of water for 15-20 minutes. -Call a poison control center or doctor for treatment advice.
<b>If inhaled</b>	-Move person to fresh air. -If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. -Call a poison control center for further treatment advice.
<b>NOTE TO PHYSICIAN</b>	
Probable mucosal damage may contraindicate the use of gastric lavage.

**Precautionary Statements**  
**Hazards to Humans and Domestic Animals**

**DANGER:** Corrosive. Causes irreversible eye damage. Causes skin burns. Do not get in eyes, skin or clothing. Harmful if inhaled. Avoid breathing vapor. Wear protective eyewear (goggles, face shield, or safety glasses). Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

**Environmental Hazards**

Do not contaminate water when disposing of equipment washwaters and rinsate.

**Storage and Disposal**

Do not contaminate water, food, or feed by storage and disposal.

**Pesticide Storage:** Keep out of the reach of children. Keep away from food, drink and animal feedingstuffs. Store in a cool place away from direct sunlight. Do not store below 41°F.

**Disposal:** Securely wrap original container in several layers of newspaper and discard in trash.

**Directions for Use**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

T535 is for use on all non-Ethylene sensitive flowers. T535 checks the processes in the flower stem that cause vascular plugging. It gives proper control over microbial growth. As a result water uptake is activated, thus preventing premature wilting and considerably improving the inner quality of flowers.

**Dosage:** 2 ml per quart (1 liter) of water. The screw-cap is 60 ml, good for 12 liters (3.2 gallons) of ready-to-use solution. The pH of the solution should drop between 4 and 5. If this is not the case, increase the dosage to a maximum of 10 ml per quart (1 liter).

**Directions:**

- **Treatment time:** Put the flowers in the solution right after cutting. Do not hydrate with water first. Treatment time is 4 to 24 hours.
- **Active life of the solution:** The maximum active life of the solution is one week. Residual solutions, if any, should not be added to newly made solutions.
- **Notice:** Cleanliness during the treatment contributes to a maximum action of the product. Clean buckets thoroughly before use.
