

OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

WASHINGTON, D.C. 20460

March 11, 2024

Georgia Anastasiou
Agent for Chrystal International B.V.
c/o Lewis & Harrison
Electronic Transmittal: georgia@lewisharrison.com

Subject: Notification per PRN 98-10 – Addition of Graphic Illustrations and Minor Label Statements.
Product Name: “Chrystal T720”
EPA Registration Number: 72992-12
Received Date: October 16, 2023
Action Case Number: 00488857

Dear Ms. Anastasiou:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Assurance.

PRECAUTIONARY STATEMENTS
Hazards To Humans And Domestic Animals

DANGER: Corrosive. Causes irreversible eye damage. Harmful if swallowed or absorbed through skin. -Do not get in eyes, on skin, or on clothing. Wear gloves, goggles, face shield, or safety glasses. -Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

FIRST AID	
If in eyes:	<ul style="list-style-type: none">- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.- Call a poison control center or doctor for treatment advice.
If on skin or clothing:	<ul style="list-style-type: none">- Take off contaminated clothing.- Rinse skin immediately with plenty of water for 15-20 minutes.- Call a poison control center or doctor for treatment advice.
If swallowed:	<ul style="list-style-type: none">- Call a poison control center or doctor immediately for treatment advice.- Have person sip a glass of water if able to swallow.- Do not induce vomiting unless told to by a poison control center or doctor.- Do not give anything to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor or going for treatment.	
NOTE TO PHYSICIAN	
Probably mucosal damage may contraindicate the use of gastric lavage.	

PHYSICAL AND CHEMICAL HAZARDS

Strong oxidizing agent. Mix this product only with water. Contamination of this product with moisture, organic matter, or other chemicals may start a chemical reaction that generates heat, liberates hazardous gases, and generates fire and explosion.

Note to Reviewer: Bracketed ("[xxx]") Information is Optional or Alternative Text.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[Use this product as a water conditioner for use in floriculture.]

[Use this product for sanitizing water for use in floriculture.]

[Use this product to control microbial contamination of water for use in floriculture.]

[Use this product to prevent odor-causing bacteria in water for use in floriculture.]

This product enhances vase life performance of [a range of summer flowers,] [Gerbera,] [and] [Germini,] [and other cut flowers] when used as a water conditioner.

This product is also effective in conditioning the water of spring bouquets containing daffodils since it will neutralize the negative effects of daffodil slime.

Application: -Chrysal T720 [is a chlorine pretreatment, which] can be used by the floriculture industry as a water conditioner. -Place flowers into solution immediately after re-cutting.

Dosage:

Use (one 120 mg tablet for every 1 liter [(1 quart)] to 4 liters [(1 gallon)] of water) (one 1400 mg tablet for every 12 liters [(3 gallons)] to 48 liters [(12 gallons)] of water) depending on the expected contamination level. -This solution will remain active for several days. -Residual solutions should not be added to newly made mixtures.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Keep product dry in a tightly closed container when it is not in use. Store in a cool, dry, well-ventilated area away from heat or open flame.

Pesticide Disposal: -Wastes resulting from this product may be disposed of on-site or at an approved waste disposal facility.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Triple rinse empty container thoroughly with water to dissolve all material before discarding. -Offer for recycling if available or place in trash collection or dispose of in an approved landfill area.
