DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SILGARD Technical RS-System Activator is a manufacturing use product. Formulators are responsible for obtaining EPA registration of their formulated products. For repackaging as an end-use product intended for use as a flower preservatives.

STORAGE AND DISPOSAL

Do not contaminate water, food, feed by storage and disposal.

Storage: Store in a cool, dark, frost-free place in the original tightly closed container away from children and pets.

Pesticide Disposal: This pesticide (product) is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product in to sewer systems without previously notifying the local sewage treatment plant authorities. For guidance, contact your State water Board or regional Office of EPA.

Neutralization is necessary because residual solution contains tiny traces of silver that may not be drained off into the surface water. Neutralization can be accomplished by using hydrogen peroxide. Use the following procedure:

- 1. Obtain a 55 gallon open top drum and insert a drain spigot about 12 inches up from the bottom of the upright drum. Use this container exclusively for neutralization of unwanted SILGARD Technical RS-System Activator solution.**
- 2. Put the unwanted SILGARD Technical RS-System Activator solution into the drum. When the drum is approximately two thirds full of spent solution, slowly pour in 2 quarts of hydrogen peroxide solution. Stir the drum contents and let stand for 24 hours. A gray-black deposit will form at the bottom of the drum.**

3. Drain off water above the drain level. Contact federal, state or local authorities to obtain license for disposal of this water.

4. Do not drain off the remainder of the water and silt. It must be sent to an industrial waste facility.

Container Disposal: Completely empty container. Then dispose of empty container in a sanitary landfill.

NOTICE TO BUYER

Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. This warranty does not extend to the use of this product contrary to label instructions or under abnormal use conditions, or under conditions not reasonably foreseeable to the Seller, and Buyer assumes the risk of any such use. Seller disclaims all other warranties, implied or expressed, including any warranty of FITNESS or MERCHANTABILITY.
