NET CONTENTS:

PRECAUTIONARY STATEMENTS

Hazards To Humans & Domestic Animals

CAUTION

Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse.

Environmental Hazards

This product is toxic to fish and aquatic invertebrates. Do not apply directly to water.

Physical and Chemical Hazards

Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. [Because this] [product contains water] [is a water-based product,] Do not spray in or around electrical equipment to safeguard against possible shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

NOTE: This product is non-staining to most building siding depending on age and condition. Before using in areas where this product may contact siding, test in an inconspicuous area, then check back in a few hours.

SHAKE WELL BEFORE USING

Read Entire Label.

HELPFUL TIPS:

For best results, use this product early in the morning or at dusk when insects are less active.

Spray at a safe distance from the nest and do not stand directly underneath it.

Aim the can away from you while spraying.

If it is breezy, spray with the wind at your back to avoid the spray drifting in your direction.

To kill the entire nest, spray until it is soaked. Wait at least 24 hours before removing the nest.

TO KILL *Wasps, Hornets, Mud Daubers, Yellow Jackets and Bees* under eaves, screens, window frames, doors, patios, cracks, holes or crevices wherever insects are noticed, directly spray insects for about 1 - 2 seconds.

This product may also be used indoors, in areas such as attics or crawl spaces where insects build nests. Whenever used indoors, follow directions for use carefully. Once nest is treated, leave the area quickly and close door behind you. Do not re-enter area for at least 24 hours to ensure all insects are killed.

Specific Instructions:

TO KILL *Wasps*: Treatments should be made at dusk or early morning when insects are least active. Shake can and hold upright, pointing valve toward nest with wind at back.

TO KILL *Hornets*: Hornets make their nests in trees and shrubs and under eaves. Do not treat hornet's nests unless you can clearly see the entrance hole at the base. Wait until dusk or early morning when wasps are at rest. Direct spray into entrance hole and continue to spray into nest as wasps fall out until can is empty or no more wasps are seen. Quickly leave the area.

TO KILL *Yellow Jackets*: Yellow jackets make their nests in tree stumps, walls, railroad ties or similar structures. Watch for wasp activity during the day to locate nest location. Treat at dusk or early morning when insects are at rest [in nest]. Empty entire contents of can into nest hole from close range to ensure product enters entrance hole and leave area immediately.

TO KILL *Mud Daubers*: Treatments should be made at dusk or early morning when insects are least active. Shake can and hold upright, pointing valve toward nest with wind at back. Spray directly on insects and their nests.

TO KILL *Tent Caterpillars*: Make applications when caterpillars are young and tents are first noticed (usually late spring). For best results, apply in the late afternoon or evening when caterpillars have returned to their tents. Aim spray directly at tents, and totally saturate on all sides.

TO KILL *Gypsy Moth Caterpillars*: Make applications when caterpillars are young and first noticed (usually late spring). Spray plants evenly to the point of run-off, applying to both sides of leaves and other areas of plants where insects are suspected. For dense evergreens and shrubs, be sure spray reaches interior leaves and branches.

Do not apply to pets or contaminate feed, foodstuffs, dishes or utensils. Avoid spraying vegetation directly.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Do not store near heat or open flame. Store in cool dry area away from children.

Disposal: Do Not Puncture or Incinerate! *If empty:* Place in trash or offer for recycling if available. *If partly filled:* Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

[NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.]

IMPORTANT: READ BEFORE USE

Read the entire Directions for Use, Conditions of Sale and Limitation of Warranty and Liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or buyer accepts the following Conditions of Sale and Limitation of Warranty and Liability.

CONDITIONS: The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product.
