Applications Dated October 25, 2006

Dear Dr. Assaf:

The Agency is in receipt of your Applications for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above products. The Registration Division (RD) has conducted a review of these requests for their applicability under PRN 98-10 and finds that the actions requested fall within the scope of PRN 98-10. The labels submitted with the application has been stamped "Notification" and will be placed in our records.

Because of the lateness of this review, we have accepted the labels submitted with the applications. However, at the next printing of these labels, please revise the first statement after "CONDITIONS:" to read "The directions for use of this product are believed to be adequate and must be followed carefully." (replaces "should" with "must") under the section heading "**IMPORTANT: READ BEFORE USE**". Please be advised that PRNs are provided as guidance; they are not considered regulation by the Agency. Therefore, the RD reserves the right to make the above determination and concludes that this action must be submitted by you at the next printing of the above labels.

If you have any questions, please me directly at 703-305-6249 or Terri Stowe of my staff at 703-305-6117.

Sincerely,

Linda Arrington

READ ENTIRE LABEL, USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS, AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

GENERAL INFORMATION

HOW DINOTEFURAN 0.5% ROACH BAIT STATIONS WORK

- Dinotefuran roach bait stations contain a powerful food based attractant.
- The attractant draws roaches to the bait station.
- Roaches eat the bait, then crawl away to die.

DIRECTIONS

1. Open bag and separate bait stations apart from plastic frame. Do not remove the label from the station.
2. Place bait stations where you have seen roaches or roach droppings. Use the sticky tabs provided to fix stations to vertical surfaces. To apply to vertical surfaces, peel the protective strip to expose the adhesive. Use at least 10 bait stations in the kitchen and 2 in each bathroom placing them near walls, in cabinets, under sinks and refrigerators and in closets. Heavy infestations may require additional bait stations, especially in kitchen and bathroom areas.
3. Replace all bait stations if infestation is heavy or if roaches appear.
4. When inspecting, replace bait stations if found not to have bait inside.

PLACEMENT OF BAIT STATIONS

For normal infestations, use a minimum of 12 bait stations in the following locations:

Kitchen:

Under stove	Under refrigerator	Under sink	Under counters
On floor	In cupboards	In drawers	Near garbage cans

Bathroom:

Next to shower/bath	In cabinets	By toilet	Under basin/sink
---------------------	-------------	-----------	------------------

Baits can also be placed in the laundry room, garage, basement, bedrooms, attic, etc., especially if food is present in these areas.

USE RESTRICTIONS

Do not apply bait to surfaces which may reach excessive temperatures. Examples include, but are not limited to, portions of stoves, ovens, grills, fume hoods, steam tables, toasters, fryers, dishwashers and hot water pipes.

Keep out of sunlight or excess heat.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Storage: Store in a cool dry place away from heat or open flame and inaccessible to children.

Disposal: *If empty:* Do not reuse this container. Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

Never place unused product down any indoor or outdoor drain.
