PRECAUTIONARY STATEMENTS
Hazards To Humans And Domestic Animals

CAUTION

Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

Environmental Hazards

This pesticide is toxic to shrimp. Do not apply directly to water, areas where surface water is present or to intertidal areas below the mean high water mark. Drift or run off from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwaters.

This product is highly toxic to bees exposed to direct treatment. Do not apply this product if bees are actively foraging in the treatment areas.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL, USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS, AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

GENERAL USE RESTRICTIONS

[Dinotefuran Fly Bait] [Brand Name] fly bait should not be use inside homes, or any place where children or animals might be present. [Do not spread granules or use bait stations within reach of children or animals.] Do not apply this product in a way that will contact workers or other persons.

Do not apply where poultry or animals, especially dogs and young calves, can pick it up or lick it. Do not use on edible product areas of food processing plants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Do not use as a scatter bait indoors. Do not use as a scatter bait in food/feed areas of food/feed handling establishments. Do not use around commercial dumpsters, which are not enclosed.

GENERAL INFORMATION

[Dinotefuran Fly Bait] [Brand Name] is an effective fly bait formula that contains Muscamone fly attractant.

Baits can be an important tool in the overall management of housefly populations. An integrated approach is recommended which includes: sanitation, manure management, physical barriers, sprays, mechanical traps and periodic rotation of baits with different modes of action.

APPLICATION PROCEDURES

SCATTER BAIT

Where to Apply

[Dinotefuran Fly Bait] [Brand Name] may be used around the outside of milking parlors, broiler houses, kennels, canneries, beverage processing plants, meat and poultry processing plants, food processing plants and refuse dumpsters associated with these establishments and the walkways of caged layer houses. Do not use around commercial dumpsters, which are not enclosed. May also be used in fenced or otherwise enclosed areas inaccessible to children and around the outside of restaurants, supermarkets, commissaries and bakeries.

Methods of Application

Scatter [Dinotefuran Fly Bait] [Brand Name] fly bait granules [directly from container] onto desired locations. Scatter granules evenly on [dry, level] surfaces, avoid placing bait in piles. Apply at a rate of 1/4 pound per 500 square feet of area. Re-apply as bait is consumed to maintain control. Start applications at the beginning of the season to help keep fly populations manageable. Avoid application to windy areas as flies will avoid these areas; apply bait in several locations, concentrating on areas where flies are a problem.

BAIT STATIONS

Where to Apply

[Dinotefuran Fly Bait] [Brand Name] stations may be used in housefly infested areas such as in and around milking parlors and broiler houses, caged layer houses, canneries, beverage processing plants, food processing plants, meat and poultry processing plants, kennels, stables, refuse dumpsters, warehouses, loafing sheds, swine facilities, broiler houses, and feed lots. May also be used in and outside the non-food/feed areas of restaurants, barns, taverns, supermarkets, commissaries and bakeries.

Methods of Application

Use [Dinotefuran Fly Bait] [Brand Name] fly bait in any commercial fly bait station secured at least 4 feet above the ground. One bait station should be positioned in each 250 square feet of area with up to 2.0 ounces of bait per station. Place Bait stations in areas inaccessible to food-producing animals, pets and children. Concentrate bait station placements in areas where houseflies are a problem including dumpsters, stables, trash piles or other areas that attract flies. Avoid placing bait stations in windy areas as houseflies will avoid bait stations that move. Re-apply as bait is consumed to maintain control.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Storage: Store in a cool dry place away from heat or open flame and inaccessible to children.

Disposal: If empty: Do not reuse this container. Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency [or 1-877-315-9819] for disposal instructions.

Never place unused product down any indoor or outdoor drain.

IMPORTANT: READ BEFORE USE

Read the entire Directions for Use, Conditions of Sale and Limitation of Warranty and Liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or buyer accepts the following, Conditions of Sale and Limitation of Warranty and Liability.

CONDITIONS: The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Valent BioSciences Corporation. All such risks shall be assumed by the user or buyer.
