This product is unique because its triple action kills insects by contact, temporarily reduces odor-causing bacteria, and leaves the room smelling clean and fresh. And with its dry concentrated formula, there's also no need to worry about staining or discoloring your [fine] furniture.

When fogging to kill insects, this product simultaneously sanitizes the air. This product contains an active ingredient, which temporarily reduces the number of airborne bacteria which causes odors. This product leaves no lasting odor after airing out a room. Because of the dual nature of this product (i.e. killing insects and temporarily reducing airborne bacteria) be sure to follow the label directions explicitly. Do not use solely as an air freshener or sanitizer. For Insecticide Use Only.
