Washington, D.C. 20460

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

EPA Reg. Number:

Date of Issuance:

73079-8

OCT 24 2007

Term of Issuance:

Conditional

Name of Pesticide Product:

InTice™ Gelanimo Ant Bait

Name and Address of Registrant (include ZIP Code):

Rockwell Labs Ltd
1512 Taney Street
North Kansas City, MO 64116

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is Conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3c(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Revise the EPA Registration Number to read. EPA Reg. No. 73079-8.

Page 1:

a. Remove the following claims from your product labeling

- Attracts Ants Fast
- Kills the Ants you See and the Ants in the Nest
- Unique Rigid Gel formula
- High Moisture Bait
- Ants Wont's Down in Bait

Revise the following claims to read:

- For Outdoor Use

b. Revise the Ingredient Statement as follows:

Active Ingredient:

Sodium Tetraborate Decahydrate.....	3.0%
Other.....	97.0%
Total.....	100.0%

c. Revise the following paragraph to read as follows:

InTice Gelanimo "rigid gel" formulation (similar to gelatin). The rigid gel that remains rigid at temperatures up to 130°F. Since ants can walk on top of the bait, more ants can feed at one time.

Page 2:

d. Revise the following to read:

Kills: Ants, (Except Pharaoh Ants, Carpenter Ants, Fire Ants, Harvester Ants).

e. Revise the following paragraph to read:

For Use Outside: Homes, Hospitals, restaurants, apartments, grocery stores, institutional buildings, schools, cafeterias, warehouses, storage areas, food processing plants, mobile homes, boats, military bases, theaters, nursing homes, and on military, commercial, and cruise ships.

f. Under the sub-heading "**Controlling and Eliminating Ants**", remove the last sentence, "**Complete control may take up to two weeks**". This claims requires efficacy data.

- g. You must submit and/or cite efficacy data for Indoor Uses. Therefore, the following must be removed from your product labeling.

"Indoor Use

Apply the product to small pieces of cardboard, paper or foil, or in purpose built bait stations such as Rockwell's BaitPlate Station (sold separately) and place product in inaccessible areas where ants are seen, such as the edges of sinks, tubs, window sills, under food cabinets, along floors and base boards and in corners. Use plenty of bait placements, the more bait placements the better. Since invading ants usually have outdoor nesting sites, it often helps to put the product outside, close to where ants are founding entering the structure. Ants typically follow defined trails from the nest to food or water. Placing Intice Gelanimo close to these trails will improve control."

"Using Intice Gelanimo Ant Bait Pre-Filled Bait Stations:

Remove the colored tab to expose the small opening where the ants will enter and exit the station. Place stations in inaccessible areas where ants are seen, such as the edges of sinks, tubs, window sills, under food cabinets, along floors and base boards and in corners. Use plenty of bait stations, the more bait stations the better. Since invading ants usually have outdoor nesting sites, it often helps to put the product outside, close to where ants are founding entering the structure. Ants typically follow defined trails from the nest to food or water. Placing Intice Gelanimo Stations close to these trails will improve control."

- h. Under the sub-heading, **"Using Intice Gelanimo Ant Bait as a Perimeter Ant Defense System"**, remove "for control" from the end of the fifth sentence.
- i. In accordance with PR Notice 2001-6, revise the storage and disposal statement instructions to read:

IF EMPTY: Do not reuse this container. Place in trash or offer for recycling if available.

IF Partly Filled: Call you local solid waste agency or (toll free number which meets the criteria in paragraph II.E.) for disposal instructions. Never place Unused product down any indoor or outdoor drain.

EPA REG. NO: 73079-8

3. You are required to submit for this product a one year Storage Stability (830.6317) and Corrosion Characteristics, (830-6320) studies for this product. It is recommended that the observations must be made at 0, 3, 6, 9, & 12 month intervals. These studies must be provided to the Agency within 18 months from the date on initial registration for this product.

3. Revise the Warranty and Disclaimer, statement in accordance with the Agency's policy on Warranties and Disclaimers, which can be found at the following site:

<http://www.epa.gov/pesticides/regulating/labeled/warranty.pdf>
Your resubmission should include one of the samples provided at this Website.

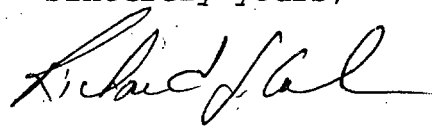

Submit two copies of the final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

If you have any questions, please contact Melody Banks of my staff on (703) 305-5413.

A stamped copy of the label "with comments" is enclosed for your records.

Sincerely yours,

Richard J. Gebken

KEEP OUT OF REACH OF CHILDREN
CAUTION

InTice™ Gelanimo™ is a unique, patent pending, "rigid gel" formulation (similar to gelatin). The rigid gel contains the high moisture content attractive to ants yet remains rigid at temperatures up to 130 °F. Unlike liquid baits, with InTice Gelanimo there is no risk of ants drowning in the bait which can cause an alarm signal and may stop them from further feeding. Since ants can walk on top of the bait, more ants can feed at one time. Also, unlike some sticky gels or syrups, ants won't "get stuck" in InTice Gelanimo. Getting stuck in the bait can also cause an alarm signal which can stop ants from further feeding.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions: DO NOT USE in edible product areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas where food is exposed. Do not contaminate feed and food stuffs. Place bait in areas inaccessible to children and pets.

***Controls:** Argentine ants, ghost ants, cornfield ants, pavement ants, acrobat ants, white footed ants, little black ants, odorous house ants, crazy ants, big headed ants, rover ants, pyramid ants, velvety tree ants, field ants, larger yellow ants, thief ants and small honey ants.

For Use in and Around: Homes, hospitals, restaurants, apartments, grocery stores, institutional buildings, schools, cafeterias, warehouses, storage areas, food processing plants, mobile homes, boats, military bases, theaters, nursing homes, and on military, commercial, and cruise ships.

Controlling and Eliminating Ants: First ants will come in large numbers, but soon disappear. This product is formulated to allow worker ants to consume the product and survive long enough to carry the bait back to the nest and deliver a dose to the rest of the colony. Monitor the placements and ensure there is always a fresh supply of InTice Gelanimo Ant Bait at each placement. Complete control may take up to two weeks.

Indoor Use

Apply the product to small pieces of cardboard, paper or foil, or in purpose built bait stations such as Rockwell's BaitPlate Station (sold separately) and place product in inaccessible areas where ants are seen, such as the edges of sinks, tubs, window sills, under food cabinets, along floors and base boards and in corners. Use plenty of bait placements, the more bait placements the better. Since invading ants usually have outdoor nesting sites, it often helps to put the product outside, close to where ants are found entering the structure. Ants typically follow defined trails from the nest to food or water. Placing InTice Gelanimo close to these trails will improve control.

Using InTice Gelanimo Ant Bait Pre-Filled Bait Stations: Remove the colored tab to expose the small opening where the ants will enter and exit the station. Place stations in inaccessible areas where ants are seen, such as the edges of sinks, tubs,

window sills, under food cabinets, along floors and base boards and in corners. Use plenty of bait stations, the more bait stations the better. Since invading ants usually have outdoor nesting sites, it often helps to put the product outside, close to where ants are found entering the structure. Ants typically follow defined trails from the nest to food or water. Placing InTice Gelanimo Stations close to these trails will improve control.

Outdoor Use

Environmental Hazards: Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high-water mark. Do not contaminate water when disposing of equipment washwaters or rinsate.

Using InTice Gelanimo Ant Bait as a Perimeter Ant Defense System: Locate areas around the building where ants are seen trailing. Place the bait stations against the foundation where the trails are found. Spacing the bait stations every 5 to 10 feet will provide the best results. Check the bait stations regularly for activity. Remember ants will feed on InTice Gelanimo Ant Bait and carry the bait back to the rest of the colony. Heavy infestations may require several bait placement refills and up to two weeks for control.

Storage and Disposal

Storage: Store in a cool dry place. Do not store where children or animals may gain access.

Disposal: If Empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call you local solid waste agency for disposal instructions. Never place unused product down on any indoor or outdoor drain.

Warranty Limitations and Disclaimer

Seller makes no warranty expressed or implied, concerning the use of this product other than as indicated on the label. Buyer accepts this material subject to these terms, and assumes all risk of usage and handling except when used or handled in accordance with this label. There are no expressed or implied warranties of merchantability or fitness for any particular purpose, except as specifically stated herein. To the extent consistent with applicable law, the manufacturer shall not be liable for any consequential damages based on the use of the product.
