Re: InVict™ AB Bait Station, 73079-13, 0.05% Abamectin
NOTIFICATION of Minor Changes

Dear Sir/Madam:

Attached please find our Notification of minor changes in pack size and labeling for the subject product.

For the metal can version of the bait station, we have added the option of 3 g, 4 g, and 5 g fill, in addition to the 6 g fill currently registered (0.11, 0.14, 0.18 and 0.21 oz).

All instances of "Baits/Stations/Bait Stations" have been replaced by "Stations/Bait Stations". California DPR developed a problem with the term "Baits" (although it has been widely used by other California-registered products for years).

A "/" has been added to the label as follows: Call _____/Web _____ in all instances of that term on the label.

There are no other product or label changes. ~~Two~~^{Two} copies of the label are attached.

Many thanks for your kind attention. Please feel free to contact us at 816 283 3167 or cspragins@rockwelllabs.com with any questions or concerns.

Sincerely,

Rockwell Labs Ltd

[Pictograms: Ant/Roach/Silverfish/Bait Station/Suggested Placement]

[How It Works:]

- [Bait attracts foraging worker ants.]
- [Ants enter bait station and take food back to the colony.]
- [Ants share the bait with other ants, killing the queen and the colony.]
- [A reduction in ant activity should occur within 3-7 days after bait placement.]

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Kills roaches, silverfish, and ants, including acrobat, allegheny, argentine, big-headed, cornfield, crazy, ghost, little black, odorous house, pavement, pharaoh, pyramid, thief and white-footed ants (excludes fire, carpenter and harvester ants)

For use in and around homes, apartments, commercial, industrial, municipal, institutional, research, recreational, health care, educational, daycare, hospitality and agricultural buildings and other man-made structures, garages, transport vehicles, sewers, animal research facilities, and food service, storage, handling and processing establishments.

1. Remove bait from package and break bait stations apart.
2. [Peel label off of adhesive sticker on the back of the station.]
3. Place / stick stations label side down where pests are seen or pest activity is suspected to occur.
4. Do not place on food preparation surfaces when food is being handled or on utensils that are used for food preparation.

Remove other sources of food, like crumbs, sugar and grease spots. Common areas to place baits include: along baseboards, in corners of rooms and cabinets, on countertops, under and behind appliances, under sinks, around pipes and water sources, in pantry, on window sills and around doorways, near garbage cans, and along pest trails.

[Helpful Tips:]

- [Do not place bait stations where insecticide has recently been sprayed, as pests may avoid the bait stations]
- [For best results, all X bait stations should be used at once.]
- [For large areas or heavy infestations, additional bait stations are recommended.]
- [Replace bait stations once most of the bait has been eaten, or at least every three months to keep pests from coming back.]

Food Processing and Handling Establishments: Food areas include serving areas while the establishment is in operation, areas for receiving, storing, packing, and preparation, and edible waste storage and enclosed processing systems. Do not contaminate food and feedstuffs. Use as instructed above.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.
Pesticide Storage: Store in a dry place, below 130 °F. Do not store where children or animals may gain access.

Container Handling and Disposal: If empty: Non-refillable container. Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.
