ROCKWELL LABS LTD

Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 - Minor label revisions/additions
Product Name: INVICT AB BAIT STATION
Admin Number: 73079-13
EPA Receipt Date: 03/03/2025
Action Case Number: 00655194

Dear Lucas Blevins:

The U.S. Environmental Protection Agency is in receipt of your application for notification under Pesticide Registration Notice 98-10 for the above referenced product. The EPA has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have questions, please contact Loren Lapointe via email at lapointe.loren@epa.gov.

Sincerely,

Loren LaPointe, PhD, Risk Manager
IVB3, RD
Office of Pesticide Programs

DO NOT ALLOW CHILDREN OR PETS TO PLAY WITH BAITS
CAUTION

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: CAUTION: Causes moderate eye irritation.

Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after use and before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS

To protect the environment, do not allow bait to enter or run off into storm drains, drainage ditches, gutters or surface waters.

First Aid

If in Eyes: -Hold eye open and rinse slowly and gently with water for 15-20 minutes.

-Remove contact lenses, if present, after the first five minutes, then continue rinsing.

-Call a poison control center or doctor for treatment advice.

Have the product or label with you when calling a Poison Control Center or doctor or going for treatment. In case of emergency, for additional information call

800 858 7378 / 800-799-7302.

[See First Aid and Precautionary Statements on Front/Back/Left/Right/Side/Top/Bottom Panel]

NOTE:

Bold italicized text is information for the reader and not part of the label.

[Bracketed information is optional text.] Text separated by / denotes and / or options.

[NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.]

[Pictograms: Ant/Roach/Silverfish/Bait Station/Suggested Placement]

[How It Works:]

- [Bait attracts foraging worker ants.]
- [Ants enter bait station and take food back to the colony.]
- [Ants share the bait with other ants, killing the queen and the colony.]
- [A reduction in ant activity should occur within 3-7 days after bait placement.]
- [Roaches / silverfish eat the bait and return to the nest and die.]

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Kills roaches, silverfish, and ants, including acrobat, allegheny, argentine, big-headed, cornfield, crazy, ghost, little black, odorous house, pavement, pharaoh, pyramid, thief and white-footed ants (excludes fire, carpenter and harvester ants).

For use in and around homes, apartments, commercial, industrial, municipal, institutional, research, recreational, health care, educational, daycare, hospitality and agricultural buildings and other man-made structures, garages, transport vehicles, sewers, animal research facilities, and food service, storage, handling and processing establishments.

1. Remove bait from package and break bait stations apart.
2. [Peel label off of adhesive sticker on the back of the station.]
3. Place / stick stations label side down where pests are seen or pest activity is suspected to occur.
4. Do not place on food preparation surfaces when food is being handled or on utensils that are used for food preparation.

Remove other sources of food, like crumbs, sugar and grease spots. Common areas to place baits include: along baseboards, in corners of rooms and cabinets, on countertops, under and behind appliances, under sinks, around pipes and water sources, in pantry, on window sills and around doorways, near garbage cans, and along pest trails.

[Helpful Tips:]

- [Do not place bait stations where insecticide has recently been sprayed, as pests may avoid the bait stations]
- [For best results, all X bait stations should be used at once.]
- [For large areas or heavy infestations, additional bait stations are recommended.]
- [Replace bait stations once most of the bait has been eaten, or at least every three months to keep pests from coming back.]

NOTE:

Bold italicized text is information for the reader and not part of the label.

[Bracketed information is optional text.] Text separated by / denotes and / or options.

Food Processing and Handling Establishments: Food areas include serving areas while the establishment is in operation, areas for receiving, storing, packing, and preparation, and edible waste storage and enclosed processing systems. Do not contaminate food and feedstuffs. Use as instructed above.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a dry place, below 130 °F. Do not store where children or animals may gain access.

Container Handling and Disposal: **If empty:** Non-refillable container. Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

[Warranty Limitations and Disclaimer

To the extent consistent with applicable law, seller makes no warranty expressed or implied, concerning the use of this product other than as indicated on the label. Buyer accepts this material subject to these terms, and assumes all risk of usage and handling except when used or handled in accordance with this label. To the extent consistent with applicable law, there are no expressed or implied warranties of merchantability or fitness for any particular purpose, except as specifically stated herein. To the extent consistent with applicable law, manufacturer shall not be liable for any consequential damages based on the use of the product.]

[Bracketed information is optional text.] Text separated by / denotes and / or options.

First Aid:

If in Eyes: -Hold eye open and rinse slowly and gently with water for 15-20 minutes.

-Remove contact lenses, if present, after the first five minutes, then continue rinsing.

-Call a poison control center or doctor for treatment advice.

Have the product or label with you when calling a Poison Control Center or doctor or going for treatment. In case of emergency, for additional information call **800 858 7378 / 800-799-7302**.

[NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.]

[How It Works:]

-[Bait attracts foraging worker ants.]

-[Ants enter bait station and take food back to the colony.]

-[Ants share the bait with other ants, killing the queen and the colony.]

-[A reduction in ant activity should occur within 3-7 days after bait placement.]

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Kills ants, including acrobat, allegheny, argentine, big-headed, cornfield, crazy, ghost, little black, odorous house, pavement, pharaoh, pyramid, thief and white-footed ants (excludes fire, carpenter and harvester ants).

Directions for Standalone Metal Can Bait Station

For use in and around homes, apartments, commercial, industrial, municipal, institutional, research, recreational, health care, educational, daycare, hospitality and agricultural buildings and other man-made structures, garages, transport vehicles, sewers, animal research facilities, and food service, storage, handling and processing establishments.

1. Remove bait from package.
2. Punch in semi-perforated holes.
3. Place stations where ants are seen or ant activity is suspected to occur.
4. Do not place on food preparation surfaces when food is being handled or on utensils that are used for food preparation.

Remove other sources of food, like crumbs, sugar and grease spots. Common areas to place baits include: along baseboards, in corners of rooms and cabinets, on countertops, under and behind appliances, under sinks, around pipes and water sources, in pantry, on window sills and around doorways, near garbage cans, and along ant trails. For lawn and garden, place along trails and near nests. Space stations 10-20 feet apart.

NOTE:

Bold italicized text is information for the reader and not part of the label.

[Bracketed information is optional text.] Text separated by / denotes and / or options.

Food Processing and Handling Establishments: Food areas include serving areas while the establishment is in operation, areas for receiving, storing, packing, and preparation, and edible waste storage and enclosed processing systems. Do not contaminate food and feedstuffs. Use as instructed above.

Directions for Metal Can Bait Station with Stake

For [outdoor][exterior] use around homes, apartments, commercial, industrial, municipal, institutional, research, recreational, health care, educational, daycare, hospitality and agricultural buildings and other man-made structures, garages, sewers, and animal research facilities.

1. Remove [pre-filled] [bait] stakes from package.
2. Punch in semi-perforated holes.
3. Place [bait station] [station] [bait stake] outdoors into soft ground by pushing firmly into ground with your hands until bottom of bait station contacts the ground. Do not use foot or tool.
4. Place stations where ants are seen or ant activity is suspected to occur outdoors [such as [around [the outside of your home] / [home perimeter] / [ornamentals] / [flower gardens] / [patios] / [porches] / [decks] / [landscape beds] / [trash areas] / [garages]] / [in [and near] potted plants]].
5. Place [bait] stakes in [soft] ground every 10-20 feet [in areas such as [around [the outside of your home] / [home perimeter] / [ornamentals] / [flower gardens] / [patios] / [porches] / [decks] / [landscape beds] / [trash areas] / [garages]] / [in [and near] potted plants]].
6. [For best results, do not place stations/stakes directly on ant trails. Place 1-2 inches away from visible trails of listed ants.]
7. Monitor for ant activity but do not interfere with ants or [bait] stakes.

End Specific Directions for Metal Can Bait Station with Stake.

[Helpful Tips:]

- [Do not place bait stations where insecticide has recently been sprayed, as pests may avoid the bait stations]
- [For best results, all X bait stations should be used at once.]
- [For large areas or heavy infestations, additional bait stations are recommended.]
- [Replace bait stations once most of the bait has been eaten, or at least every 30 days to keep ants from coming back.]
