**CAUTION**

Harmful if swallowed. Avoid contact with skin and eyes. Wash thoroughly with soap and water after handling.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water board or Regional Office of the EPA.

**PHYSICAL OR CHEMICAL HAZARDS**

Excessive levels of copper increases the possibility of stains (from copper salts) on liner and accessory surfaces; this *should not* occur when using ECLIPSE3 if instructions are followed. Pre-treating pool water with a heavy metal sequestering product will reduce the risk of stains.

**Prohibitions:** Do not contaminate water, food, or feed by storage or disposal.

**Storage:** Store unused product in original container only in a cool, dry area out of reach of children and animals.

**Disposal:** Do not reuse empty container. Wrap container and put in trash.
