Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes and clothing. Wash thoroughly with soap and water before eating, drinking, chewing gum, using tobacco, or using the toilet.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Excessive levels of copper increases the possibility of stains (from copper salts) on liner and accessory surfaces; this **should not** occur when using ECLIPSE3 if instructions are followed. Pre-treating pool water with a heavy metal sequestering product will reduce the risk of stains.

Pesticide Storage: Store unused product in original container only in a cool, dry area out of reach of children and animals.
Container Disposal: Non-refillable container. Do not reuse or refill this container. Wrap container and put in trash or offer for recycling if available.

DIRECTIONS FOR USE

Add 2 oz. of ECLIPSE3 per 1,000 gallons of water; use measuring cup provided in pail.

After treatment, run filtration system continuously for 48 hours; backwash at 12-hour intervals. Vacuum after 24 hours to remove any sediment collected by ECLIPSE3.

One week after spring start-up treatment, begin weekly applications of ECLIPSE3 using the directions below.

WEEKLY APPLICATION
