Subject: Label Amendment – Changes Required by the Copper Compounds Amended Interim Registration Review Decision
Registration Review Interim Decision Label Mitigation
Product Name: ECLIPSE-3
EPA Registration Number: 73123-1
Received Date: 6/30/22
Decision Number: 595266

Dear Maryanne Geisbush:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the Copper Compounds Amended Interim Decision, and has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised

labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Megan Snyderman by phone at 202-566-0639, or via email at snyderman.megan@epa.gov.

Sincerely,

A handwritten signature in cursive script that reads "Kimberly Wilson".

FIRST AID

If swallowed	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance; then give artificial respiration, preferably mouth-to-mouth, if possible. • Call a poison control center or doctor for treatment advice.
<p>Have the product container or label with you when calling a poison control center or doctor, or going for treatment. HOTLINE NUMBER: For medical emergencies, call the poison control center at 1-800-222-1222.</p>	

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes and clothing. Wash thoroughly with soap and water before eating, drinking, chewing gum, using tobacco, or using the toilet.

ENVIRONMENTAL HAZARDS

This product is toxic to fish.

PHYSICAL OR CHEMICAL HAZARDS

Excessive levels of copper increases the possibility of stains (from copper salts) on liner and accessory surfaces; this *should not* occur when using ECLIPSE3 if instructions are followed. Pre-treating pool water with a heavy metal sequestering product will reduce the risk of stains.

STORAGE AND DISPOSAL

Prohibitions: Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store unused product in original container only in a cool, dry area out of reach of children and animals.

Container Disposal: Non-refillable container. Do not reuse or refill this container. Wrap container and put in trash or offer for recycling if available.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

ECLIPSE3 has been designed and proven to be an efficient chlorine reducer, pH stabilizer, algaecide and water clarifier for use in Swimming Pools, Hot Tubs and Spas.

Water must be analyzed and corrected as per directions prior to ECLIPSE3 treatment.

Before draining a treated pool, hot tub or spa, contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated pool or spa water to any location that flows to a gutter, storm drain or natural water body unless discharge is allowed by state and local authorities.

FIRST: DETERMINE YOUR POOL/SPA/HOT TUB VOLUME

Circular	Diameter X Diameter X Avg. Depth X 5.9
Oval	Max. Length X Max. Width X Avg. Depth X 5.9
Rectangle or Square	Length X Width X Avg. Depth X 7.5
Free Form	Surface Sq. Ft. X Avg. Depth X 7.5

Results are in US gallons.

FOR SPRING START-UP

Shock treat water with chlorine or bromine following supplier's recommended label rate. Balance water alkalinity in the range of 80-150 ppm. Maintain pH between 7.2 and 7.6.

Add 2 oz. of ECLIPSE3 per 1,000 gallons of water; use measuring cup provided in pail.

After treatment, run filtration system continuously for 48 hours; backwash at 12-hour intervals. Vacuum after 24 hours to remove any sediment collected by ECLIPSE3.

One week after spring start-up treatment, begin weekly applications of ECLIPSE3 using the directions below.

WEEKLY APPLICATION

Add 1/8th oz. of ECLIPSE3 per 1,000 gallons weekly; use measuring cup provided in pail. After starting weekly applications, run filtration system 8 hours daily.

Maintain proper chlorine or bromine level. Check alkalinity every 2 months. Maintain a pH of approximately 7.4.

NOTES

1. Only use measuring cup provided with ECLIPSE3.
2. Distribute ECLIPSE3 close to surface near discharge jets to reduce the risk of staining accessory surfaces.
3. Daily monitoring of chlorine/bromine may be needed during periods of heavy traffic and high temperatures.
4. When having water tested, a copper reading of 1 – 3 ppm should be obtained.
5. This product *does not* contain any bleaching agents to remove stains.

NOTICE TO BUYER

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
