Subject: Notification per PR Notice 98-10
Swiss Farms St. Augustine Weed & Feed
EPA Reg. No. 73327-3
Application dated November 18, 2010

Dear Ms. McLaughlin:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated November 18, 2010 for the product 73327-3. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

Please note that the alternate brand names Scotts Classic Southern Weed & Feed, Scotts Southern Weed & Feed, Scotts Lawn Pro Southern Weed and Feed Weed Control Plus Lawn Fertilizer, Scotts Classic Southern Weed and Feed Weed Control Plus Lawn Fertilizer, and Scotts Southern Weed and Feed Weed Control Plus Lawn Fertilizer have been added to our records.

If you have any questions, please contact Hope Johnson at 703-305-5410.

Sincerely,

A handwritten signature in black ink, appearing to read "Jim Tompkins", written over a circular stamp or mark.

Subject: Notification of General Label Revisions per PR Notice 98-10
EPA Reg. No. 73327-3 – Swiss Farms St. Augustine Weed & Feed

Dear Mr. Tompkins,

Swiss Farms Products, Inc. (Swiss Farms, EPA Company Number 73327) is submitting a revised label for Swiss Farms St. Augustine Weed & Feed EPA Reg. No. 73327-3. The enclosed product label has been updated as follows:

- Addition of Alternate Brand Names:
 - ✓ • Scotts Classic Southern Weed & Feed
 - ✓ • Scotts Southern Weed & Feed
 - ✓ • Scotts Lawn Pro Southern Weed and Feed Weed Control Plus Lawn Fertilizer
 - ✓ • Scotts Classic Southern Weed and Feed Weed Control Plus Lawn Fertilizer
 - Scotts ~~Classic~~ Southern Weed and Feed Weed Control Plus Lawn Fertilizer
- Addition of optional marketing claims including claims regarding Scotts Lawn Pro Retailer program

On October 27, 2010 a notification for this label was denied. In the denial letter it stated the Agency needed further information regarding the "[name/logo] Garden Club" claim including the logo picture and description of the Garden Club. The logo that will precede this claim will be the Home Depot logo:

The Garden Club mentioned in the claim is not a national endorsement from a specific Garden Club; rather it is a website developed by Scott's and Home Depot that gives consumers information and tips on lawn and garden care.

Enclosed please find the following documents to support this request:

- One (1) copy of Application form (EPA Form No. 8570-1)
- Two (2) copies of the updated Master Label: one (1) with changes highlighted in yellow and one (1) clean copy.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR §152.46 and §156.10, 156.140, 156.144, 156.146, and 156.156. No other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and CFR §152.46 and §156.10, 156.140, 156.144,

NOTIFICATION

DEC 13 2010

EPA Reg. No. 73327-3
TREATS/FEEDS/COVERS 5,000/10,000 Sq. Ft.

ACTIVE INGREDIENT:

Atrazine.....	1.380%
Related Compounds.....	0.028%

OTHER INGREDIENTS.....	98.592%
TOTAL.....	100.000%

KEEP OUT OF REACH OF CHILDREN
CAUTION

See back / side / top / bottom [panel / label] for additional Precautionary Statements.

NET WT. 16 lbs. [7.26 kg] / 32 lbs. [14.51 kg] / XX lbs. [XX kg]

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

Do not apply granular lawn products by hand. Avoid contact with hands and skin. Broadcast applications must NOT be made using hand-held devices, such as a belly grinder or handheld rotary applicator. Such equipment may only be used for spot treatments.

FIRST AID

If in Eyes	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.• Call a Poison Control Center or doctor for treatment advice.
-------------------	---

NOTE: Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

ENVIRONMENTAL HAZARDS

Atrazine can travel (seep or leach) through soil and enter ground water which may be used as drinking water. Atrazine has been found in ground water. Users are advised not to apply Atrazine to well drained soils where the water table (groundwater) is close to the surface and where these soils are very permeable. Your local agricultural agencies can provide further information on the type of soil in your area and the location of ground water. This product is toxic to aquatic invertebrates. Runoff and drift from treated areas may be hazardous to aquatic organisms in neighboring areas.

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Where To Use

Use on St Augustinegrass (including 'Floratam'), zoysia, centipede and carpetgrass lawns ONLY. Do not use on Bluegrass, Fescue, Bentgrass, Bahiagrass, Rye, Bermudagrass, or Dichondra lawns.

Application Restrictions

- DO NOT APPLY THIS PRODUCT IN A WAY THAT WILL CONTACT ANY PERSON OR PET, EITHER DIRECTLY OR THROUGH DRIFT.
- KEEP PEOPLE AND PETS OUT OF AREA DURING APPLICATION.
- DO NOT ENTER OR ALLOW OTHERS (INCLUDING CHILDREN AND PETS) TO ENTER THE TREATMENT AREAS (EXCEPT THOSE INVOLVED IN THE WATERING) UNTIL WATERING-IN IS COMPLETE AND THE SURFACE IS DRY.
- This product must be WATERED IN IMMEDIATELY after application.
- Do not apply by hand or hand-held device such as hand-held rotary applicator.
- Do not apply more than 3.2 lbs. of product per 1,000 sq. ft. (139 lbs. of product per acre), which is equivalent to 2 pounds of active ingredient per acre, per application.
- Do not make more than 2 applications per year.

Use Precautions

- Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.
- Not for use on or under trees, shrubs, bedding plants, flowers or garden plants. Do not apply under the branches (root zone area) of shrubs, trees, flowers, etc.
- Do not apply to newly seeded zoysia, centipede, or carpetgrass lawns. Wait until they have required at least 2 mowings.

- Do not apply to flowers, bedding plants, ornamental trees or shrubs.

[Before You Apply]

- Read and follow these guidelines when you use this product:
- Apply with a fertilizer spreader — **Never apply by hand**
- Do not use on or under trees, shrubs, bedding plants, flowers or garden plants.
- Do not apply to newly seeded zoysia, centipede, or carpetgrass lawns- Wait until they have required at least 2 mowings.

When To Apply

- For post emergence control apply anytime broadleaf weeds are [actively] growing. If complete control is not obtained, a second application may be necessary 2 months after the first.
- To prevent germination of crabgrass, spurge, lespedeza, oxalis and sedges (from seed) apply in January, February or early March.
- Apply in the fall to control henbit, chickweed, annual bluegrass (Poa), cudweed, parsley piert, rescuegrass and other listed winter weeds.
- Apply to newly sprigged St. Augustine and zoysia lawns to help prevent competition from newly emerging weeds.
- Water the new sprigs, allow the grass blades to dry, then make the application of Swiss Farms St. Augustine Weed & Feed.
- Do not apply to centipede or carpetgrass lawns during the period of winter dormancy — approximately October 15- to March 15 (okay to apply in Florida however). Do not apply to newly seeded centipede or carpetgrass lawns until after the new grass has been mowed at least twice.

[General Use Directions] [How to Apply]

- Determine size of area to be treated — measure length and width in feet, then multiply to determine coverage area in sq. ft. (length x width). **Next, subtract non-lawn areas.**
- Use the spreader setting chart to determine the appropriate setting.
- Apply evenly over dry grass, avoiding streaking, skips and overlaps — thorough coverage is important. On hot days (above 80° F) water the lawn to rinse particles off the grass.

SPREADER SETTINGS

[Spreaders and Calibrations]

[Determine size of area to be treated]

[Measuring/Measure your lawn]

[How to Measure Your Lawn] – [ICON]

BROADCAST/ROTARY SPREADERS [ICON]		DROP SPREADERS [ICON]	
Republic EZ	X	Republic EZ	X
Earthway EV-N SPRED	X	Ortho	X
Quaker	X	Precision	X
Scotts Easy Green	X	Scotts (PF)	X
Scotts Deluxe Edgeguard	X	Scotts AccuGreen	X
Scotts Speedy Green	X	Scotts Even Green	X

Calibrate your spreader with each application. Adjust to apply at the rate of 3.2 lbs. of product per 1000 sq. ft. (2 lb. active ingredient per acre). This [16 lb.] [32 lb.] bag covers [5,000] [10,000] sq. ft. of lawn area. Do not make more than 2 applications per year.

Note: The spreader settings listed [above] [below] [at right] [at left] are approximate. It is important to check calibration of spreader frequently to ensure spreader is functioning properly and applying product evenly. To check calibration accurately weigh a few pounds into your spreader and apply to a measured area. Then adjust spreader setting if necessary, in order to ensure correct rate of application.

Optional Iron and Fertilization Program Statement

This product contains iron that aids in the greening process but WILL stain sidewalks and driveways. Sweep off any product that may have drifted onto these areas.

[Typically, a lawn will utilize 1 to 4 lbs. of nitrogen per 1,000 sq. ft. per growing season. When used as directed, this product will supplement your regular fertilizer program by providing xx lbs. of nitrogen per 1,000 sq. ft. Consult your local County Extension office for questions regarding a fertilizer program suitable for your geographic region.]

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store in a clean, dry place. Reseal opened bag [by folding top down and securing].

PESTICIDE AND CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container.

If empty: Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

What It Does

Controls Weeds

Contains an active ingredient that works fast and kills unsightly and [nutrient stealing] [harmful] weeds [and provides the essential nutrients your lawn needs to grow thick and green.]

Also, prevents germination of many common spring and fall germinating annual weeds. It will provide post emergence control of many winter and summer weeds.

Fertilizes and Replenishes

Dual feeding formula provides both quick greening and extended feeding, resulting in a thicker, stronger, greener lawn.

This product controls [or suppresses] the following list of growing weeds.

Annual Bluegrass (<i>Poa annua</i>)	Dichondra	Ragweed
Annual Sowthistle	Dollarweed	Red Sorrel
Black Medic	Florida Betony	Rescuegrass
Blue Toadflax	Florida Pusley	Shepherd's-purse
Buckhorn Plantain	Fragrant Cudweed (Rabbit Tobacco)	Spotted Spurge
Burclover		Spurweed (lawn burweed)
Carolina Geranium	Henbit	Stinging Nettle
Chickweed, Common	Knotweed	Venus Looking Glass
Chickweed, Mouseear	Lambsquarters	Wild Mustard
Clover/hopclover	Lespedeza	
Common Dandelion	Lippia (matchweed)	
Crabgrass	Narrowleaf Vetch	
Cudweed	Oxalis (woodsorrel)	
Cutleaf Evening Primrose	Parsley-Piert	
Corn Speedwell	Pigweed	
Carpetweed	Pepperweed	
Chamber-bitter (<i>niruri</i>)	Purslane

- Feeds 2x longer than [insert product name] [insert brand name] – **Complete registered Swiss Farms product name will be inserted**
- Greens quickly and Feeds Up to (X) months
- Greens in 72 hours
- Improves deficient St. Augustine Lawns
- Quick Greening & Extended Feeding for up to 8 weeks
- Timed-release Feeding for up to 8 Weeks
- Timed-Release Nitrogen for Extended Feeding
- Timed-release is your Guarantee that a QUICK and LONG LASTING FEEDING will be systematically delivered to your lawn.
- Builds thick green lawns

[3[Three] Simple Steps to a Lush, Green Lawn] [ICON]

1. Select the right fertilizer – **insert brand name** products are formulated to provide both a quick and long-lasting feeding. One application provides the lawn [with] nutrients needed to grow thick and green. They're formulated with X% Iron [or appropriate nutrient] for deep greening and coated [slow-release] nitrogen for an extended, even feeding up to X months.
2. Use a quality spreader – Spreaders can be calibrated to accurately apply all granular lawn care products.
3. Sweep off hard surfaces – **insert brand name** products are formulated with extra iron [or appropriate nutrient] for deep greening. They may stain concrete surfaces, so it is important to sweep off any product spilled on hard surfaces before watering in.

Fertilizer note for use with phosphorus-free fertilizer products

- **insert product name** is formulated to compliment the phosphorus already present in the soil and give your turf the additional primary nutrients needed for a good turf feeding. A soil test can help you determine if your soil has an adequate supply of phosphorus and if this is the best product for your soil type. Proper watering and mowing practices along with regular feedings will help promote a beautiful green lawn.

[Turf Note]

- CENTIPEDE GRASS IS DIFFERENT FROM OTHER TURFGRASSES. It requires very little fertilizer. In fact, turf experts say that too much fertilizer can hurt centipede. With this in mind, we have formulated Swiss Farms St. Augustine Weed & Feed to give your Centipede grass the light feeding it needs to grow thick, lush and sturdy. Our timed-release nitrogen provides a slow, gradual feeding that keeps your grass greener longer and helps build a stronger, hardier root system. Extra iron helps keep the grass green without too much nitrogen.
- Swiss Farms St. Augustine Weed & Feed products with timed-release nitrogen works differently than other slow-release products. Timed-release nitrogen releases in response to soil temperature rather than moisture level. Other slow release products release according to the amount of moisture present in the soil... the more moisture the quicker the nutrients release, putting your grass at risk from burning. Because Swiss Farms St. Augustine Weed & Feed products contain timed-release nitrogen, your grass is fed for up to 2 months.
- Swiss Farms St. Augustine Weed & Feed timed-release nitrogen is formulated to give your grass the primary nutrients it needs to grow thick, lush and sturdy GREEN grass. Our timed-release nitrogen provides a slow, gradual feeding that keeps your grass greener longer and helps build a stronger, hardier root system.
- Why does your lawn need Swiss Farms St. Augustine Weed & Feed? Swiss Farms St. Augustine Weed & Feed is formulated to kill lawn weeds and give your grass the nutrients it needs for thick growth. Our timed-release formula keeps your grass greener longer and helps build strong, hardy root systems.
- Swiss Farms St. Augustine Weed & Feed products with timed release nitrogen feed as the ground temperature warms in the Spring and Summer, and slows down as the soil cools in the Fall, thus supplying nitrogen according to the requirements of your grass.

Language for the Standard Vigoro Product Line

Why fertilize the/your lawn?

While it is easy to see that/a satisfying deep green/greening when you fertilize, regular feedings [can] actually do much more...

- Promote a deep and dense root system that is better able to reach water and find nutrients during tough heat & drought, so lawn stays greener, longer and bounces back faster
- Thicken lawn with new/additional blades of grass, making it more resistant to bare spots and thinning
- Help prevent weeds by making it difficult for weed[s] [seeds in the air] to find soil to root, [as well as]/[and] crowd out existing weed[s] [seeds in the soil]

Feed every 8 weeks for optimal results

[Recommended] Next Feeding

[ICON: bag] Vigoro® Southern/St. Augustine Weed & Feed – Apply anytime weeds are actively growing*

*maximum of 2 applications per year

or [use]

[ICON: bag] Vigoro® Lawn Fertilizer – Apply anytime during the growing season
