Under the Federal Insecticide,  
Fungicide, and Rodenticide Act,  
as amended, for the pesticide  
registered under  
EPA Reg. No. 73340-1

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

- Do not contaminate feed or food stuffs. Do not apply in serving areas while food is exposed.
- Place bait only in areas that are inaccessible to children and pets.

Ants are attracted to and will feed on Uncle Albert's Super Smart Ant Bait until they die. The ants return to their nests after consuming the bait and feed their young and queen. When all of the members of the colony have consumed the bait, the entire colony will die.

Uncle Albert's™ Super Smart Ant Bait may be placed around and under areas where ants are trailing or have been seen crawling, including food cabinets, sinks, stoves, refrigerators, food storage areas, window sills and frames (as well as exterior window sills and doorways to help prevent entry of ants), openings around pipes, baseboards, attics, garages, basements, storage areas, closets, and other similar areas.

• **FOR USE WITH BAIT CONTAINERS AND BAIT STATIONS:** Wash hands thoroughly before handling bait containers and bait stations to remove any odors that may repel ants (i.e. tobacco, garlic, strong chemicals or cleaners, etc.). Fill bait containers with 0.25 oz. of Uncle Albert's Super Smart Ant Bait and place on the floor or on a flat surface in areas where ants may crawl. Long thin lines allow many ants to feed on the bait.

• **FOR DIRECT PLACEMENT:** (Not for use in California) Make small, pea sized placements and/or thin lines of Uncle Albert's Super Smart Ant Bait in areas where ants may crawl. Long thin lines allow many ants to feed on the bait.

Repeat placement of the bait as necessary until satisfactory results have been obtained. Do not use sprays, foggers or any strong chemicals or cleaners near the bait containers or placements. This may contaminate the bait and cause ants to cease feeding. Place bait stations and other placements on a flat surface only in areas inaccessible to children and pets.

**FIRST AID**

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

**If swallowed:**

- Call a Poison Control Center or doctor for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by Poison Control Center or doctor.
- Do not give anything by mouth to an unconscious person.

**If in eyes:**

- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a Poison Control Center or doctor for treatment advice.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.  
**Pesticide Storage:** Store product in original container in a cool dry place out of reach of children. Do not allow product to freeze.  
**Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.  
**Container Disposal: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or (1-800-CLEANUP) for disposal instructions. Never place unused product down any indoor or outdoor drain.

**NOTICE:** Buyer and user assume all risk and liability of use, storage and/or handling of this product not in accordance with the terms of this label.
