<b>FIRST AID</b>	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-265-0761.	
<b>If on skin or clothing</b>	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
<b>If in eyes</b>	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS (AND DOMESTIC ANIMALS)  
CAUTION!**

Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wear long-sleeved shirt and long pants, socks and shoes, and chemical resistant gloves (such as rubber or waterproof gloves). Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

**Environmental Hazards:** This product is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Do not apply when weather conditions favor drift from target areas.

Optional Marketing Statements

**WHY AMDRO INSECTICIDE ANT BAIT IS SO EFFECTIVE:**

1. AMDRO Insecticide Ant Bait is highly attractive to many ant species, including acrobat ants, Argentine ants, bigheaded ants, some species of carpenter ants, cornfield ants, crazy ants, field ants, fire ants, ghost ants, harvester ants, odorous house ants, pavement ants, Pharaoh ants, thief ants and the Texas leafcutting ant. AMDRO Insecticide Ant Bait granules are carried directly into the mound by workers as food for the colony.
2. Inside the mound, AMDRO Insecticide Ant Bait is passed to the queen, as well as to other ants. By the end or one to four weeks, the queen and most of the ants in the mound will have eaten this product and died.
3. When the queen is dead, no new worker ants can be produced, so the mound dies.

**General Information:** AMDRO® Insecticide Ant Bait is attractive to many ant species, and the delayed action of hydramethylnon allows foraging ants to bring the bait back to the nest so that the entire colony, including the queen(s), is destroyed. You should see fewer ants within a week of treatment. Some species may require additional applications to achieve maximum control.

Ant species that are controlled by AMDRO® Insecticide Ant Bait include: acrobat ants, the Argentine ant, bigheaded ants, some species of carpenter ants, the cornfield ant, the crazy ant, field ants, fire ants (imported and native), the ghost ant, harvester ants, the odorous house ant, the pavement ant, the Pharaoh ant, the thief ant, and the Texas leafcutting ant.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact any person or pet, either directly or through drift.  
Keep people and pets out of area during application.

AMDRO Insecticide Ant Bait is for use ~~ONLY~~ on lawns, golf courses, grounds, parks, ornamental gardens, ~~rangeland, pasture~~, and other noncropland for control of acrobat ants, Argentine ants, bigheaded ants, some species of carpenter ants, cornfield ants, crazy ants, field ants, fire ants (imported and native), ghost ants, harvester ants, odorous house ants, pavement ants, Pharaoh ants, thief ants and the Texas leafcutting ant.

This product is not for use on crops, timber, plants or turf grown for sale or other commercial use, or for commercial seed production or for research purposes. Do not use AMDRO Insecticide Ant Bait on vegetable or other food crops.

### Outdoor Use

AMDRO Insecticide Ant Bait controls acrobat ants, Argentine ants, bigheaded ants, some species of carpenter ants, cornfield ants, crazy ants, field ants, fire ants, ghost ants, harvester ants, odorous house ants, pavement ants, Pharaoh ants, thief ants and the Texas leafcutting ant. AMDRO Insecticide Ant Bait is for use on lawns, landscaped areas, golf courses, ornamental gardens and other noncropland areas such as airports, roadsides, cemeteries, commercial grounds, parks, school grounds, picnic grounds, athletic fields and other recreational areas, as well as on grounds surrounding poultry houses (excluding runs and ranges) or corrals and other animal holding areas. Avoid direct exposure of animals to AMDRO granules. Refer to the Use Rate Table for directions. Do not graze or feed treated lawn or sod clippings to livestock.

**Use Rate Table**

**Use Precautions:** Applications can be made any time that ants are active. However, AMDRO Insecticide Ant Bait should not be applied to wet ground or grass, or if rain is expected within 24 hours, or when temperatures are below 50°F. Avoid leaving the bait exposed to direct sunlight for prolonged periods. During hot weather, application is best performed in the early morning or early evening when temperatures are cooler and ants are active. Check treated colonies/mounds for ant activity 30-40 days after treatment. Repeat applications as needed.

Treatment	Rate	Comments
<p><u>Individual mounds:</u></p> <p>Texas leafcutting ant</p>	<p>¾ lb./colony</p>	<p>Locate the central concentration of mounds, indicating the location of the colony. Apply AMDRO bait directly onto and around mounds using a disposable spoon or measuring cup. Do not contaminate kitchen utensils by use or storage. Do not apply more than 2.0 lb. per acre.</p>
<p>acrobat ants, Argentine ants, bigheaded ants, some species of carpenter ants, cornfield ants, crazy ants, field ants, fire ants (imported and native), ghost ants, harvester ants, odorous house ants, pavement ants, Pharaoh ants, thief ants</p>	<p>1 to 2½ oz. per mound</p>	<p>Sprinkle AMDRO bait directly onto and around mounds using a disposable spoon or measuring cup. Do not contaminate kitchen utensils by use or storage. Do not apply more than 2.0 lb. per acre.</p>
<p><u>Broadcast treatment:</u></p> <p>Texas leafcutting ant, acrobat ants, Argentine ants, bigheaded ants, some species of carpenter ants, cornfield ants, crazy ants, field ants, fire ants (imported and native), ghost ants, harvester ants, odorous house ants, pavement ants, Pharaoh ants, thief ants</p>	<p>1½ to 2½ lb./acre [3 to 4 1/16 oz./5,000 square feet]</p>	<p>Bait can be broadcast using spreader/seedler equipment.</p>

<p><u>Around structures:</u>          acrobat ants, Argentine ants,          bigheaded ants, some species of          carpenter ants, cornfield ants,          crazy ants, field ants, fire ants          (imported and native), ghost          ants, harvester ants,          odorous house ants, pavement          ants, Pharaoh ants, thief ants</p>	<p>4 to 8 oz. per          average building</p>	<p>Apply around the outside perimeter of the building. Treat areas such as porches, patios, driveways, sidewalks, flower gardens, and around trees, wood piles, dumpsites, and loading docks where ants are trailing, feeding or nesting. Concentrate treatment at visible ant trails as well as cracks or crevices where ants may enter the structure.</p>
---	---	---

~~**Grass Forage (Pasture and Rangeland Use):** AMDRO® Insecticide Ant Bait controls the Texas leafcutting ant. Refer to the Use Rate Table for directions. AMDRO® Insecticide Ant Bait may only be applied to grass forage (pasture and rangeland) for the control of ants in Texas and Louisiana. Use of AMDRO® Insecticide Ant Bait on grass forage in states other than those listed is unlawful. Applications of AMDRO® Insecticide Ant Bait to grass forage may not exceed a maximum rate of 8.0 pounds per acre per year, and AMDRO® may not be applied more than 4 times per year with minimum application intervals of 90 days. Do not cut and bale hay from pastures and rangeland treated with AMDRO® Insecticide Ant Bait until 7 days after the bait application is made. The restrictions on the use of AMDRO® on cutting and baling hay do not apply when the treated pasture and rangeland is used solely to support companion animals (e.g., horses, llamas). These companion animals cannot be used for food or feed.~~

**STORAGE AND DISPOSAL**

[non-residential use packaging]

- Prohibitions:** Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.
- Storage:** Store in cool, dry, secure place and keep container tightly closed. Store container away from pets. This product is formulated in an oil bait. Prolonged exposure to air may turn oil rancid and reduce the attractiveness of the bait. Use within 3 months after opening.
- Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
- Container Disposal:** Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.
- General:** Consult Federal, State, or local disposal authorities for approved alternative procedures.

**STORAGE & DISPOSAL**

[residential use packaging only]

- Storage:** Store product in original container in a locked storage area.
- Disposal:** *If empty* — Do not reuse this container. Do not rinse unless required for recycling. Place in trash. *If partially filled* — Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Unless otherwise instructed, place in trash. Never pour unused product down the drain or on the ground.
