AMDRO®

Insecticide Ant Bait

[Alternate Brand Names: AMDRO® Texas Leafcutting Ant Bait; AMDRO® Total Ant Kill; AMDRO® Ant Guard; AMDRO® Ant Block]

[Optional Marketing Statements]

For Control of the Texas Leafcutting Ant by Direct Application to Ant Nests and Mounds Attracts and kills many ant species, including acrobat ants, Argentine ants, bigheaded ants, carpenter ants, cornfield ants, crazy ants, field ants, fire ants (imported and native), ghost ants, harvester ants, odorous house ants, pavement ants, Pharaoh ants, thief ants and the Texas leafcutting ant. Use on lawns, landscaped areas, golf courses and other noncropland areas. Kills the queen Destroys the mound Use outdoors Helps prevent ants from entering the home Easy and effective way to control ants in your yard and garden Kills 15 species of ants

ANTS DO THE WORK

Granules are carried directly into the mound by workers as food for the colony. When the Queen is dead, the mound dies.

Kills Carpenter Ants. Fire Ants. Argentine Ants. Texas Leafcutting Ants. Helps Prevent Ants From Entering the Home **Kills Problem Ants** Kills Carpenter Ants and 14 other ant species Kills Texas Leafcutting Ants and 14 other species Kills ants outside so they can't come inside Protects your home from invading ants Multi-species ant bait **Home Perimeter Ant Bait** Apply around the perimeter of your home Kills problem ants including carpenter ants 24 oz. covers 1,080 linear feet [Note: size/area to be adjusted equivalently based on alternative size containers] 24 oz, covers a 1,080 foot band around the home [Note: size/area to be adjusted equivalently based on alternative size containers] Home perimeter treatment. 24 oz. treats 1,080 linear feet as a 1 ft. band around the outside perimeter. Kills Carpenter Ants, Texas Leafcutting Ants, Argentine Ants, and more as listed.

[Note to EPA: Front/side panels of label may feature graphics representing product use; e.g., listed ants with use sites such as flower gardens, wood piles, porches/patios, lawns/landscaping, etc., see pg. 6 for examples]

Active Ingredient:	<u>By wt.</u>
Hydramethylnon (CAS No. 67485-29-4)	0.88%
Other Ingredients:	<u>99.12%</u>
Total	100.00%

(1.0 lb. contains 0.14 oz. of active ingredient)

KEEP OUT OF REACH OF CHILDREN CAUTION!/;PRECAUCION!

Si usted no entiende la etiqueta, busque a alguien para que se la explique usted en detalle. (If you do not understand this label, find someone to explain it to you in detail.)

PRECAUTIONARY STATEMENTS ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Do not apply when weather conditions favor drift from target areas.

Optional Marketing Statements

WHY AMDRO INSECTICIDE ANT BAIT IS SO EFFECTIVE:

- 1. AMDRO Insecticide Ant Bait is highly attractive to many ant species, including acrobat ants, Argentine ants, bigheaded ants, carpenter ants, cornfield ants, crazy ants, field ants, fire ants, ghost ants, harvester ants, odorous house ants, pavement ants, Pharaoh ants, thief ants and the Texas leafcutting ant. AMDRO Insecticide Ant Bait granules are carried directly into the mound by workers as food for the colony.
- 2. Inside the mound, AMDRO Insecticide Ant Bait is passed to the queen, as well as to other ants. By the end or one to four weeks, the queen and most of the ants in the mound will have eaten this product and died.
- 3. When the queen is dead, no new worker ants can be produced, so the mound dies.
- General Information: AMDRO® Insecticide Ant Bait is attractive to many ant species, and the delayed action of hydramethylnon allows foraging ants to bring the bait back to the nest so that the entire colony, including the queen(s), is destroyed. You should see fewer ants within a week of treatment. Some species may require additional applications to achieve maximum control.
- Ant species that are controlled by AMDRO® Insecticide Ant Bait include: acrobat ants, the Argentine ant, bigheaded ants, carpenter ants, the cornfield ant, the crazy ant, field ants, fire ants (imported and native), the ghost ant, harvester ants, the odorous house ant, the pavement ant, the Pharaoh ant, the thief ant, and the Texas leafcutting ant.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of area during application.

AMDRO Insecticide Ant Bait is for use on lawns. golf courses, grounds, parks, ornamental gardens, and other noncropland for control of acrobat ants, Argentine ants, bigheaded ants, carpenter ants, cornfield ants, crazy ants, field ants, fire ants (imported and native), ghost ants, harvester ants, odorous house ants, pavement ants, Pharaoh ants, thief ants and the Texas leafcutting ant.

This product is not for use on crops, timber, plants or turf grown for sale or other commercial use, or for commercial seed production or for research purposes. Do not use AMDRO Insecticide Ant Bait on vegetable or other food crops. This product will retain its effectiveness for up to 3 months after the package has been opened.

Outdoor Use

AMDRO Insecticide Ant Bait controls acrobat ants, Argentine ants, bigheaded ants, carpenter ants, cornfield ants, crazy ants, field ants, fire ants, ghost ants, harvester ants, odorous house ants, pavement ants, Pharaoh ants, thief ants and the Texas leafcutting ant. AMDRO Insecticide Ant Bait is for use on lawns, landscaped areas, golf courses, ornamental gardens, forested areas and other noncropland areas such as airports, roadsides, cemeteries, commercial grounds, parks, school grounds, picnic grounds, athletic fields and other recreational areas, as well as on grounds surrounding poultry houses (excluding runs and ranges) or corrals and other animal holding areas. Avoid direct exposure of animals to AMDRO granules. Refer to the Use Rate Table for directions. Do not graze or feed treated lawn or sod clippings to livestock.

EPA Reg. No. 73342-2 4/10/06 - notification EPA Est. No. _____ Page 2 of 5 Pages

4/3

Use Rate Table

Use Precautions: Applications can be made any time that ants are active. However, AMDRO Insecticide Ant Bait should not be applied to wet ground or grass, or if rain is expected within 24 hours, or when temperatures are below 50°F. Avoid leaving the bait exposed to direct sunlight for prolonged periods. During hot weather, application is best performed in the early morning or early evening when temperatures are cooler and ants are active.

Check treated colonies/mounds for ant activity 30-40 days after treatment. Repeat applications as needed.

Treatment	Rate	Comments
Individual mounds:		
Texas leafcutting ant	¾ lb./colony	Locate the central concentration of mounds, indicating the location of the colony. Apply AMDRO bait directly onto and around mounds using a disposable spoon or measuring cup. Do not contaminate kitchen utensils by use or storage. Do not apply more than 2.0 lb. per acre.
acrobat ants, Argentine ants, bigheaded ants, carpenter ants, cornfield ants, crazy ants, field ants, fire ants (imported and native), ghost ants, harvester ants, odorous house ants, pavement ants, Pharaoh ants, thief ants	1 to 2 1/8 oz. per mound	For Fire Ants, sprinkle AMDRO bait around the mound, taking care to not disturb the mound. For all other listed ant species, sprinkle AMDRO bait directly onto and around mounds using a disposable spoon or measuring cup. Do not contaminate kitchen utensils by use or storage. Do not apply more than 2.0 lb. per acre.
Broadcast treatment: Texas leafcutting ant, acrobat ants, Argentine ants, bigheaded ants, carpenter ants, cornfield ants, crazy ants, field ants, fire ants (imported and native), ghost ants, harvester ants, odorous house ants, pavement ants, Pharaoh ants, thief ants	11/2 to 2 1/8 lb./acre [3 to 4 1/16 oz./5,000 square feet]	Bait can be broadcast using spreader/seeder equipment.
Around structures: acrobat ants, Argentine ants, bigheaded ants, carpenter ants, cornfield ants, crazy ants, field ants, fire ants (imported and native), ghost ants, harvester ants, odorous house ants, pavement ants, Pharaoh ants, thief ants	4 to 8 oz. per average building (2,000 sq. ft. bldg.; 40'x50') - or - 4 oz. per 180 linear ft. - or - 24 oz. per 1,080 linear ft.	Apply in a band 1 ft. wide around the outside perimeter of the building. Treat areas such as porches, patios, driveways, sidewalks, flower gardens, and around trees, wood piles, dumpsites, and loading docks where ants are trailing, reeding or nesting. Concentrate treatment at visible ant trails as well as crocks or crevices where ants may enter the structure.

STORAGE AND DISPOSAL

[non-residential use packaging]

- **Prohibitions:** Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.
- **Storage:** Store in cool, dry, secure place and keep container tightly closed. Store container away from pets. This product is formulated in an oil bait. Prolonged exposure to air may turn oil rancid and reduce the attractiveness of the bait. Use within 3 months after opening.
- **Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
- **Container Disposal:** Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

General: Consult Federal, State, or local disposal authorities for approved alternative procedures.

STORAGE & DISPOSAL

[residential use packaging only]

Storage: Store product in original container in a locked storage area. Use within 3 months after opening. Disposal: If empty — Do not reuse this container. Place in trash or offer for recycling if available. If partially filled — Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

DISCLAIMER

The label instructions for the use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the use or application of the product contrary to label instructions, all of which are beyond the control of Ambrands. All such risks shall be assumed by the user. Ambrands warrants only that the material contained herein conforms to the chemical description on the label and is reasonably fit for the use therein described when used in accordance with the directions for use, subject to the risks referred to above.

Any damages arising from a breach of this warranty shall be limited to direct damages and shall not include consequential commercial damages such as loss of profits or values or any other special or indirect damages.

Ambrands makes no other express or implied warranty, including any other express or implied warranty of FITNESS or of MERCHANTABILITY.

[Optional Disclaimer]

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

In case of an emergency involving this product, call (collect), day or night, (phone number).

Re: <u>EPA Reg. No. 73342-2, AMDRO® Insecticide Ant Bait</u> Submission of Notification

Attn: Richard Gebken (PM 10)

On behalf of Ambrands of Atlanta, Georgia, the enclosed *notification* is submitted for the following minor revisions to the above pesticide label:

- 1) Remove redundant text (highlighted on Page 2 of 5). This information is repeated under the Outdoor Use section of same page.
- 2) Clarify use in forested areas, as currently allowed under approved use in "other noncropland areas".

The following documents are provided:

- 1) EPA Form 8570-1, Application for Pesticide Notification
- 2) Copy of the label with all areas of revision highlighted
- 3) Copy of the current EPA-approved label (Jan. 23, 2006)

Best regards,

Rebucca U. Horton
