OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

SEP 18 2014

Ms. Cathy Rieff
Director of Quality & Food Safety
Ridley US Holdings, Inc.
424 North Riverfront Drive
Mankato, MN 56001

Subject: Label Notification per PRN 98-10 – Addition of an Alternate Name
Product Name: Sweetlix Rabon Molasses Pressed Block
EPA Registration Number: 73600-1
Application Date: August 25, 2014
Decision Number: 494984

Dear Ms. Rieff:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The alternate brand name **Stockade Rabon Molasses Pressed Block** has been added to the product record.

If you have any questions, you may contact Dani Daniel at 703 305-5409 or via email at daniel.dani@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard J. Gebken".

Richard J. Gebken, Product Manager 10
Insecticide Branch
Registration Division (7505P)
Office of Pesticide Programs

Directions for Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
USE RESTRICTIONS: Not to be used on horses destined for slaughter.
PRECAUTIONS FOR HORSE USE: This product contains tetrahydrophosphos, which is a cholinesterase inhibitor. The most frequently reported clinical signs of cholinesterase inhibition in the horse are abdominal pain, lethargy, sweating, tearing and excessive salivation. If these signs are seen in horses, consult your veterinarian immediately. Do not use this product simultaneously or within a week before or after treatment with cholinesterase inhibiting drugs, pesticides or chemicals. Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals. This product has not been tested in breeding horses.

GENERAL INSTRUCTIONS

1. Feed 1 block per 5 head of cattle or horses. This allows all animals equal access to blocks. Feed blocks at the rate of 0.5 oz. per 100 lb. of bodyweight per day. This intake will supply 0.07 g of larvicide per 100 lb. of bodyweight per day (2.1 grams per 100 lbs. bodyweight per month).
2. Place blocks where animals congregate. Locate blocks throughout pasture, placing them near water and feeding areas. Maintain adequate distance between blocks (10 ft. minimum).
3. Do not allow animals to run out of blocks. When a block is half-consumed place a new block near it. Place very small pieces in troughs or feed pans.
4. Animals should consume about 5 oz. per head daily. When animals consume the block at the recommended rate, it will supply 3 mg of selenium.
5. Blocks can be fed to animals in confinement. Exact location of blocks to obtain desired consumption will vary between confinement feeding programs.
6. Feed as the only FREE CHOICE source of salt, other minerals and vitamins. Development of fecal flies in the manure of treated cattle and horses; but it is not effective against existing adult flies. It may be necessary to use other control measures to reduce the population of existing adult flies. Supplemental fly control measures may be needed in and around buildings to control adult house flies and stable flies which can breed not only in animal manure but also in other decaying matter on the premises. In order to achieve optimum fly control, STOCKADE® Rabon® Molasses Pressed Block should be used in conjunction with other good management and sanitation practices. Start feeding STOCKADE® Rabon® Molasses Pressed Block early in the spring before flies begin to appear and continue feeding throughout the summer until the fall. STOCKADE® Rabon® Molasses Pressed Block may be fed to cattle up to slaughter.
8. Follow feeding directions. Consumption of selenium should not exceed 3 mg per head daily.

NET WEIGHT: 40 LB. (18.14 KG)

First Aid	
IF SWALLOWED	-Call a poison control center or doctor immediately for treatment advice. -Have person sip a glass of water if able to swallow. -Do not induce vomiting unless told to by a poison control center or doctor.
IF ON SKIN	-Take off contaminated clothing. -Rinse skin with plenty of water for 15-20 minutes. -Call poison control center or doctor for treatment advice.
IF IN EYES	-Hold eyes open and rinse slowly and gently with water for 15-20 minutes. -Remove contact lenses, if present, after the first 5 minutes; then continue rinsing. -Call a poison control center or physician for treatment advice.
Hot Line Number: In case of emergency, contact 800-325-1486.	
NOTE TO PHYSICIANS AND VETERINARIANS: Symptomatology: Signs of organophosphate toxicity are those of cholinergic over stimulation, hyper salivation, excessive urination, diarrhea and dyspnea (respiratory distress, collapse and death from respiratory muscle paralysis). Treatment: Withdraw product immediately. Clinical includes 3 categories: muscarinic blocking agents (atropine sulfate), (2) cholinesterase reactivators (atropine and 2-PAM, pralidoxime chloride) and (3) emetics (i.e. syrup of ipecac), cathartics (i.e. vegetable oil) and absorbents (i.e. charcoal slurry).	
PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals: CAUTION Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reaction to some individuals.	
USER SAFETY RECOMMENDATIONS: Personal Protective Equipment (PPE): Long-sleeved shirt and long pants, shoes and socks, chemical resistant gloves. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible wash thoroughly and change into clean clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.	
Environmental Hazards: This compound is toxic to fish. Storage and Disposal: Do not contaminate water, food, or feed by storage or disposal. Nonrefillable container. Do not reuse or refill. Offer for recycling, if available. Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or if allowed by State or Local Authorities, by burning. If burned, stay out of smoke. Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.
