**ACCEPTED**  
 JAN 17 2001  
 Under The Federal Insecticide, Fungicide and  
 Rodenticide Act, as amended, for the  
 registration under  
 No. 73601-5

# Dichlor 56

bactericide □ algaecide □ disinfectant

KEEP OUT OF REACH OF CHILDREN

**DANGER** SEE PRECAUTIONARY STATEMENTS ON SIDE PANEL. (FIRST AID)

ACTIVE INGREDIENT:  
 Sodium Dichloro-s-triazinetriene  
 Dihydrate ..... 99.0%  
 OTHER INGREDIENTS ..... 1.0%  
 TOTAL 100.0%  
 Available Chlorine... 56.0%

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Further questions, call 973-473-1222.

**MADE ESPECIALLY FOR POOL SPECIALISTS**

Net Weight: 2 lbs. (907.2 grams)

#### PHYSICAL AND CHEMICAL HAZARDS

**STRONG OXIDIZING AGENT.** Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

#### ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and other aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

#### STORAGE AND DISPOSAL

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame. In case of decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding this container. Do not reuse empty container, but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment. Pesticide Wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the Nearest EPA Regional office for guidance.

Manufactured by:  
**CADILLAC CHEMICAL CORP.**  
601 Lehigh Avenue / Union, NJ 07083

#### CHEMICAL PROPERTIES

Contains 56% Available Chlorine  
Contains 50.4% 2,4,6 Trihydroxy-s-triazinetriene  
Easily Soluble In All Pool Water / No Cloudy Buildup  
Long Lasting Chlorine Residual / Keeps Water Sparkling Clear

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Reentry into treated swimming pools/spas is prohibited above levels of 3.0 ppm. Dichlor 56 is to be used as a disinfectant and algae control in pool water. For initial treatment of swim pools free of visible algae, use 2 ounces of Stabilized Chlorinating Granules per 1,000 gallons of pool water. This dosage will provide about 8.75 ppm (parts per million) of chlorine to help satisfy the water's chlorine demand. Do not use the pool until the chlorine residual drops below 2.0 ppm. For subsequent use add 1/8 to 1/4 oz. per 1,000 gallons of water daily or as needed as determined by a chlorine test kit to maintain a 1.0 to 1.5 ppm residual chlorine. Check water for chlorine content at regular intervals. During extreme heat or heavy bather loads, water should be checked every 2 hours. Maintain a pH level of 7.2 to 7.6 for best results. Always distribute granules over an extensive area of pool water surface. For use in wader or splasher pools, the recommended daily dosage is at the rate of 1/2 ounce per 750 gallons of water.

#### PRECAUTIONARY STATEMENTS

##### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER: KEEP OUT OF REACH OF CHILDREN. CORROSIVE.** Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.
