- d. Under ULV NON-THERMAL AEROSOL (COLD FOG), correct the mass median diameter of droplets to read "15 to 20 microns". The corrected sentence should read as follows: "To control Mosquitoes, Midges and Black flies apply SynPer® 30-30 ULV using any standard U.L.V. ground applicator capable of producing a non-thermal aerosol fog with droplets ranging in size from 5 to 30 microns in diameter and a mass median diameter (MMD) of <u>15</u> to 20 microns."
- 3. Submit or cite all product performance data in your files to satisfy the performance standard for adult mosquito control. The public literature data you cited in support of this registration are considered supplemental and do not completely satisfy this requirement. The Agency intends to issue a general letter or Data Call-In Notice requiring product performance data of all registrants of similar products. Data submitted in response to the this letter or Notice which are determined to be acceptable may be compensable; and registrants who do not submit or cite their own acceptable data may be required to make appropriate offers to pay to the data submitters.
- 4. Please submit two (2) copies of your final printed label before you release the product for shipment. Please refer to the A-79 enclosure for a further description of final printed labeling. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing amended labeling constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.
