Registration Division (H7505C)
401 M St., S.W.
Washington, D.C. 20460

**NOTICE OF PESTICIDE
Registration**

(under FIFRA, as amended)

EPA Reg. Number:

73766-1

Date of Issuance:

NOV - 8 2001

Term of Issuance:

UnConditional Registration

Name of Pesticide Product:

GOURMET ANT BAIT GEL

Name and Address of Registrant (include ZIP Code):

**Alan S. Bernard
Innovative Pest Control Products
P.O. Box 880216
Boca Raton, FL 33488**

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec. 3(c)(5). Once a pesticide is registered, however, it is not regarded as permanently acceptable. Registration does not eliminate the need for continual reassessment of pesticides. If the Agency determines that, at any time, additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under FIFRA section (3)(c)(2)(B).

1. Make the following label changes:

a. Revise the EPA Registration Number to read. EPA Reg. No.73766-1

2. Submit four copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed "Accepted with Comments" for your records.

PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS
KEEP OUT OF REACH OF CHILDREN

CAUTION

Harmful if swallowed. Causes eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling

FIRST AID

If inhaled	-Move person to fresh air. -If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible -Call a poison control center or doctor for further advice.
If on skin or clothing	-Rinse skin with plenty of water for 15-20 minutes. -Take off contaminated clothing. -Call poison control center or doctor for additional treatment advice.
If in eyes	-Hold eye open and rinse slowly and gently with water for 15-20 minutes. -Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. -Call a poison control center or doctor for treatment advice.
If swallowed	-Call poison control center or doctor immediately for treatment advice. -Have person sip a glass of water if able to swallow. -Do not induce vomiting unless told to do so by the poison control center or doctor. -Do not give anything by mouth to an unconscious person.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-877-483-4997 for emergency medical treatment information

ENVIRONMENTAL HAZARDS

Do not apply directly to water.

Gourmet Ant Bait Gel

Honeydew Formula With

UNI-TRACT™

UNI-TRACT™ is a patented insect attractant proven to enhance bait acceptance by a variety of ants & roaches

Active Ingredient:

Disodium Octaborate Tetrahydrate	6%
Inert Ingredients	94%
Total	100%

CONTENTS: 1.1 FLUID OZ

MANUFACTURED BY:

INNOVATIVE PEST CONTROL PRODUCTS
 Boca Raton, Florida 33488 USA

EPA Reg. No. xxxxxx-x
 EPA Est. No. 41680-FL-001
 U.S. Patent No. 5,939,061

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal of this product.

Storage: Store product in original container in a cool dry place out of reach of children. Do not allow product to freeze.

Disposal: Do not reuse empty container. Wrap container in several layers of newspaper and discard in trash.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Notice: Buyer and user assume all the risk and liability of use, storage and/or handling of this product not in accordance with terms of this label.

Do not contaminate feed or foodstuffs.

Place baits in areas inaccessible to children and pets.

Remove as many competing food sources as practical.

For use in and near homes, apartments, condominiums, schools, hospitals, restaurants, grocery stores, food processing plants, boats, cruise ships, institutional and commercial buildings, nursing homes, hotels and warehouses.

To use Gourmet Ant Bait for the control of ants or roaches, make small pea-sized placements and/or thin lines in areas where ants are a problem. Long thin lines allow room for many ants to feed on the bait. Use 1-3 lines for each placement. Place baits where ants are trailing or have been seen. Place bait under food cabinets, sinks, stoves, refrigerators, food storage areas, attics, garages, basements, storage areas, closets, etc. Place on exterior windowsills and in doorways to help prevent entry of ants.

Bait may be in "Ant Café", "Ant Café RTU" (Ready To Use) "Ant & Roach Buffet" or other similar bait stations. Wash hands thoroughly before handling to remove any odors that may be repellent to ants, i.e. tobacco, garlic, strong chemicals/cleaners etc.

Ants are attracted to and will feed on Gourmet Ant Bait until they die. The ants will return to their nests after consuming the bait and will feed their young and the queen destroying the colony. Repeat placement of the bait until satisfactory control has been achieved.

Do not use sprays, foggers or any strong chemicals or cleaners near the bait containers or placements. This may contaminate the bait and cause the insects to cease feeding
