Dear Mr. Pearson,
Subject: Gourmet Liquid Ant Bait
EPA Reg. No. 73766-2
Submission dated 9/14/06

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. One copy of the finished labeling must be submitted prior to releasing the product for shipment.

The Precautionary statements may be modified in accordance with the attached efficacy review as follows:

Hazards to Humans and Domestic Animals:

Applicators must wear long-sleeved shirt and long pants, socks, shoes and gloves.

A general cockroach claim may be added to the label in accordance with the attached efficacy review.

Modify all ant claims as follows:

Kills all common household ants except carpenter, fire and harvester ants.

...control of sweet and protein feeding ants (except carpenter, fire and harvester ants)...

To control ants (except Carpenter, Fire and Harvester ants)...

Revise claim about use of other chemicals to read:

Do not use sprays, foggers or any chemicals or cleaners...

Delete the graphic showing food as it contradicts precautionary statements that state do not contaminate food or foodstuffs.

The proposed basic confidential statement of formula (CSF) dated 3/8/2006 is acceptable. A copy has been placed in the file for this registration and supercedes all previous basic CSFs.

If you have questions, please call Ann Sibold at 703 305-6502.

Sincerely,

Richard Gebken
Product Manager 10
Insecticide Branch
Registration Division (7505P)

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed. Causes eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

FIRST AID	
If inhaled	-Move person to fresh air. -If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. -Call a poison control center or doctor for further advice.
If on skin or clothing	-Rinse skin with plenty of water for 15-20 minutes. -Take off contaminated clothing. -Call poison control center or doctor for additional treatment advice.
If in eyes	-Hold eye open and rinse slowly and gently with water for 15-20 minutes. -Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. -Call a poison control center or doctor for treatment advice.
If swallowed	-Call poison control center or doctor immediately for treatment advice. -Have person sip a glass of water if able to swallow. -Do not induce vomiting unless told to do so by the poison control center or doctor. -Do not give anything by mouth to an unconscious person.
HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-877-483-4997 for emergency medical treatment information.	

ENVIRONMENTAL HAZARDS

Do not apply directly to water.

ACCEPTED
with COMMENTS
In EPA Letter Dated:
FEB 14 2007

Under the FIFRA Act, as amended, for the pesticide registered under EPA Reg. No.

 Ant Café RTU Prefilled, Refillable, Locking
Bait Stations

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Notice: Buyer and user assume all the risk and liability of use, storage and/or handling of this product not in accordance with terms of this label.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal of this product. Storage: Store product in original container in a cool dry place out of reach of children. Do not allow product to freeze.

Disposal: If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

Do not contaminate feed or foodstuffs. Place baits in areas inaccessible to children and pets.

To control ants and roaches use indoors and outdoors near: homes, apartments, condominiums, schools, hospitals, restaurants, grocery stores, food processing plants, boats, cruise ships, institutional and commercial buildings, nursing homes, hotels and warehouses.

Gourmet Ant Bait may be used at full strength, diluted with distilled water or other food grade liquid 1:1 to make bait containing .5% active ingredient. Bait may be used in "Ant Café", "Ant & Roach Buffer", "KM AntPro", "Ant Café RTU" (Ready To Use) or other similar bait stations.

To activate Ant Café RTU bait station: place station on a horizontal surface, deflect cone to the left, right, forward and back to break the seal on the inner ring allowing bait to flow into inner cone, snip off top of cone exposing 1/8" inch entry port, apply a small amount of pressure to outer ring of bait station, so that a small amount of liquid bait will flow out of the cone and into the valley created by the cone and outer ring. Place the bait station on a horizontal surface near ant activity. Place stations under food cabinets, sinks, stoves, refrigerators, food storage areas, attics, garages, basements, storage areas, closets, etc. Place on exterior windowsills and in doorways to help prevent entry of ants. Some bait stations may be designed to affixed to a wall, hung on pipes or branches, or placed on a flat surface.

When using bait stations, wash hands thoroughly before handling to remove any odors that may be repellent to ants, i.e. tobacco, garlic, strong chemicals/cleaners etc.

(OPEN PLACEMENT METHOD NOT TO BE USED IN CALIFORNIA)

Gourmet Ant Bait can also be used to make small, pea sized placements and/or long thin lines in areas where ants are a problem.

Ants are attracted to and will feed on Gourmet Ant Bait until they die. The bait is designed to work slowly and sufficient bait should be made available for at least 14 days of continuous feeding. The ants will return to their nests after consuming the bait and will feed their young and the queen destroying the colony. Repeat placement of the bait until satisfactory control has been achieved.

Do not use sprays, foggers or any strong chemicals or cleaners near the bait containers or placements. This may contaminate the bait and cause the insects to cease feeding.

3/4

Ant Café RTU Bait Station Instructions:

1. To activate Ant Café RTU, position vial so that red plug faces upwards.
2. To lock vial, thread serrated plastic string up through large square hole and then down through two smaller square holes.
3. Serrations on thread will engage and lock station closed.
4. Remove red plug and place bait station according to directions for use.
5. To refill bait station, disengage lock, open vial, and add additional bait. If bait has dried out, add additional water to rehydrate the bait. Alternatively, you may discard the old bait and add fresh bait. Follow disposal guidelines for proper disposal of used material.
6. Reengage lock and repeat steps 1-5 as necessary.

See pictures for additional guidance.
