It is violation of federal law to use this product in a manner inconsistent with its labeling. It can be used post-harvest on cereal grains (barley, corn, oat, sorghum and wheat). Treated grain may subsequently be used as an animal feed ingredient.

SUGGESTED APPLICATION RATES:

8-10	1
10-12	2

Higher application rates may be recommended due to moisture, temperature, and length of storage. Consult Lucfa USA Inc. for other recommendations.
