SUBJECT: Notification per PR Notice 2007-7, PR Notice 1998-10 and EPA H1N1 Guidance

Accel Tb Wipes
EPA Reg. No. 74559-3

Dear Mr. Swindell:

On behalf of our client, Virox Technologies, Inc., enclosed is a notification revising the storage and disposal section to clarify the rinsing and disposal instructions and to add H1N1 claims allowed by the recent EPA guidance. This is a Notification per PR Notice 1998-10; therefore, no PRIA fee is required.

The new text is highlighted in yellow in the enclosed label. Also attached are two "clean" copies of the labeling with all new H1N1 claims and storage and disposal updates included.

Accel Tb Wipes is a 100% repackage of a registered end-use product. The product is identical in formulation to Oxivir Wipes (EPA Reg. No. 70627-60). The registrant of Oxivir Wipes, JohnsonDiversey, Inc., has already submitted these changes to federal EPA for review.

This notification, as stipulated by the guidance, is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to wilfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action, and penalties under sections 12 and 14 of FIFRA.

We look forward to a timely review of this submission. If you need any clarification or issues arise during the review of this information, please contact me immediately at 260-244-6270 for resolution.

Sincerely,

David Swain
