Subject: PRIA Label Amendment – Adding New Organisms and Alternate Brand Names
Product Name: Oxy-1 RTU
EPA Registration Number: 74559-9
Application Date: August 21, 2015
Decision Number: 508950

Dear Mr. Swain:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

The following alternate brand names have been added to the product record:

- REScue
- REScue Ready to Use One Step Disinfectant Cleaner & Deodorizer
- INTERVention Farm Animal Care Disinfectant Cleaner & Deodorizer
- INTERVention Animal Husbandry Disinfectant Cleaner & Deodorizer

If you have any questions, please contact Terria Northern by phone at 703-347-0265, or via email at northern.terria@epa.gov.

Sincerely,

Julie Chao, Product Manager 33
Regulatory Management Branch 1
Antimicrobials Division (7510P)
Office of Pesticide Programs

Acute Oral Toxicity [LD50>5,000 mg/kg][Category IV]
Acute Inhalation Toxicity [LC50>2.08 mg/L][Category IV]
Acute Dermal Toxicity [LD50>5,050 mg/kg][Category IV]
An effective One-step sanitizer-cleaner for use on hard non-food contact surfaces
[A disinfectant and cleaner that] cleans, disinfects and deodorizes in one labor saving step
Broad-spectrum [multipurpose] [Multi-surface] [Bactericidal] [*Virucidal] [Tuberculocidal]
[Fungicidal][sanitizer] [Disinfectant] [activity]
Chlorine free [No] [chlorine] [bleach]
Contains No VOC-emitting ingredients
Cleans [and disinfects] [hard, non-porous surfaces] [kitchens[†] and bathrooms]
Cleans [fast] [in kitchen[†]] [and bathrooms]
Cleans [removes] [eliminates] [destroys] baked-on food
Cleans [removes] [eliminates] [destroys] burnt-on food
Cleans [tough] grease and grime
Cuts [cleans] kitchen[†] [and] [bathroom] [and] household grime and soils [fast]
Cleans [and disinfects] hard, non-porous surfaces {or *insert any hard non-porous surface from table 7 and 11*}
[found] [in] [hospitals] [health care facilities] [offices] [colleges] {or *insert any institutional use site from
table 8or household use site from table 12*}

Clean you expect.
Cleans [fast]
Cleans [removes] [eliminates] [destroys] stains
Cleans [tough] grease and grime [and][institutional][soils][fast]
Cleans [tough] soap scum
Cleans without bleaching
Cleans and disinfects non-food contact hard nonporous surfaces (kitchens[†] and) (bathrooms) (restrooms)
Controls (Eliminates) (kitchen[†]) odor-causing bacteria
Contains no [abrasives] [bleach]
Compatible with [equipment] and [hard] [non-porous] surfaces
Compatible with microfiber [cloths]
Contains no phosphates
Contains no (abrasives) (bleach) (or harsh acids)
Compatible with [Suitable for][Will not harm] most hard non-porous [house hold] surfaces, [no bleach (or
chlorine) stains]
Disinfects (Deodorizes) (and Sanitizes) as it cleans
Disinfects (Deodorizes) hard, non-porous surfaces
Disinfects as it cleans
Disinfects - kills germs for a deep down clean
Destroys bacteria, *viruses, fungi, mycobacteria and mildew on hard non-porous surfaces found in swine,
poultry, dairy, equine farms and animal holding and research facilities
Deodorizes odor-causing bacteria
Dual action formulation providing broad spectrum activity against; fungi, mycobacteria, *viruses, and bacteria
Easy to use – just spray [and][walk away]
Effective – Cleans soap scum

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

Eliminates bacteria from (kitchen[‡]) (bathroom) (washroom) (restroom) surfaces
Eliminates (kills) odor-causing bacteria
Eliminates odors [caused by bacteria], [mold], [mildew]
Fast / Easy / Effective: Use [in] [on] [the] *{insert any institutional use sites from table 8} {OR} {insert any residential use sites from table 12}*
For multiple cleaning tasks
For use [in] [Hospitals], [Health Care], [Daycare] settings [as a multi-purpose disinfectant cleaner].
Formulated with patented hydrogen peroxide technology
For everyday use [in institutional and (industrial) (institutional) facilities]
For a cleaner, fresher office (school) (college)
For any non-food contact hard, non-porous surface where germs are a concern.
For use [in] [on] [the] *{insert any institutional use site from table 8} {insert any residential use sites from table 12}* [as a multi-purpose disinfectant cleaner]
For non-scratch cleaning of showers and tubs, shower doors and curtains^f, fixtures and toilet bowls
For multiple cleaning tasks
For use [in] [Household], [Homecare], [Daycare] settings [as a multi-purpose disinfectant cleaner].
For everyday use [in kitchens[‡] and] [bathrooms] [restrooms]
For a cleaner, fresher household
For everyday use
For use[in] [on] [the] *{insert any residential/household use site from table 12}* [as a multi-purpose disinfectant cleaner]
Good for most indoor cleaning tasks
Help make your *{insert any use site from table 8 or table 12}* Accel Clean
Intense cleaning action
Keeps day care centers clean
Kills Bacteria in 1 minute
Kills *Viruses in 30 seconds
Kills [99.99% of] germs [in 1 minute]
Kills [99.9% of] [the] [cold and flu viruses] in 30 seconds
Kills antibiotic resistant bacteria**
Kills bacteria
Kills bacteria commonly found in the (kitchen[‡]) (and) (bathroom)
Kills [Effective against] cold and flu virus [on hard, nonporous surfaces]
Kills germs
Kills germs while it cleans
Kills household bacteria
Kills (household) bacteria (and sanitizes)
Kills kitchen[‡] and bathroom bacteria
Kills odor-causing bacteria
Kills odor-causing (household) bacteria
Kills (Destroys) (Eliminates) germs
Kills (Destroys) (Eliminates) germs while it cleans
Kills (Eliminates) odor-causing bacteria in the (kitchen[‡]) (bathroom) (restroom) (all around the house)
Kills (kitchen[‡]) (bathroom) (household) germs
Kills bacteria commonly found in kitchens[‡] (in 1 minute)

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Kills bacteria and *viruses on hard, non-porous (kitchen[‡]) (bathroom) (restroom) (household) surfaces in 1 minute

Leaves [a fresh, clean scent] [no [dull] [sticky] residue].

Leaves [office] [washroom] [restroom] smelling clean with a clean fresh scent

Leaves surfaces virtually streak-free

Leaves your [home] [house] [washroom] [restroom] smelling clean with a clean fresh scent

Leaves your kitchen[‡] and bathroom with a fresh, clean scent

Lowest EPA toxicity category in all 6 toxicity studies

No Fragrance added {*only for non-fragranced CSFs*}

No harsh [chemical] fumes

No streaking [filming] [sticky residue]

Non-tainting, leaves no unsightly residues

[No rinse required]. No streaking [or filming] formula

Non-corrosive [to eyes] [and] [skin]

No mixing, measuring or rinsing required

Not a skin [Dermal] sensitizer [non-sensitizer]

*Parvocidal

Powerful cleaning

Powers away tough stains [stuck on dirt]

Powerful bubbles blast away [dried] [stuck on] dirt [grime] [food] [spills] [grease] [greasy messes]

Powerful odor control [odor neutralizer] [deodorizer] [odor-counteractant] formula [on hard non-porous surfaces]

Phenol free [No phenols]

Primary Skin Irritation Category IV

Primary Eye Irritation Category IV

Quaternary Ammonium Compound Free [No Quaternary Ammonium Compounds]

Quickly [eliminates] [removes] [food] odors

Removes [the most common] [household] allergens [around your home] [around your kitchen[‡]] [around your bathroom] [on your floors]⁺⁺

{Note: the sentence above will be used with this claim qualifier}: ⁺⁺This product removes the following [non-living] allergens: [cat dander], [cockroach matter], [cockroach debris], [cockroach particles], [dog dander], [dust mite debris], [pet dander], [pollen particles]

Specially designed to dissolve [penetrate] the toughest [stubborn] soils

Suitable for everyday use

Surface cleaner (with antibacterial formula)

Suitable for use on floors, equipment, cages and kennels, when used as directed

Step-saving, Labor-saving, Time-saving, Cost-saving formula

Smell of clean

To be used in sanitizing and disinfecting of hard, non-porous non-food surfaces and non-critical equipment which may harbor or spread germs

Tough on germs.

Use only one product to get a streak-free shine plus antimicrobial action

Use this product throughout your home to clean [beverage stains] [dirt] [food stains] [grime] [pet stains] [soap scum]

[Uses] [harnesses] the cleaning power of hydrogen peroxide

Use only one product to get a streak-free shine plus antimicrobial action

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. (FEATURES, CLAIMS & USES:)

(For General Uses – Medical and Dental)

For Use in Health Care, [Dental], [Medical] [Facilities] and [Hospitals][Nursing Homes][clinics]{or insert any of the Medical/Dental Institutional Use sites from table 8}

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

This product is a one-step (hospital-use) germicidal (disinfectant) cleaner and deodorant (odor-counteractant) (odor neutralizer) designed for general cleaning, (and) disinfecting, (deodorizing) (of) hard, non-porous environmental surfaces.

It cleans quickly by removing *{insert any soil from table 5}* found in *{insert any of the Medical/Dental Institutional Use sites from table 8}*.

This product [or product name] is designed for use on hard, non-porous environmental surfaces: *{insert any surface material from table 6}* associated with [high] hand touch environmental surfaces [floors], [walls], [ceilings] – *{or insert any Medical/Dental hard non-porous surface from table 7}* – or – any hard non-porous washable (non-food contact) surface where disinfection is required. (This product's non-dulling formula eliminates the time and labor normally required for rinsing). (It also) reduces odor-causing bacteria leaving surfaces smelling clean and fresh).

(For Veterinary Use)

For Use in Veterinary clinics,[Animal] [Premise] [facilities] [such] [as] [Pet shops], and [Animal [Life Science] Laboratories][Animal Housing][Animal Quarters & Kennels]*{or insert any of the Veterinary Institutional Use sites from table 8}*

This product is a one-step germicidal (disinfectant) cleaner and deodorant (odor-counteractant) (odor neutralizer) designed for general cleaning, (and) disinfecting, (deodorizing) (of) hard, non-porous environmental surfaces.

It cleans quickly by removing *{use any soil from table 5}* found in [Animal] [Premise] [facilities] [such] [as] *{insert any of the Veterinary Institutional Use sites from table 8}*.

This product [or product name] is designed for use on hard, non-porous environmental surfaces: *{insert any surface material from table 6}* associated with hand touch environmental surfaces, [floors], [walls], [ceilings] – *{or insert any Veterinary hard non-porous surface from table 7}* – or – any hard non-porous washable (non-food contact) surface where disinfection is required. (This product's non-dulling formula eliminates the time and labor normally required for rinsing). (It also) reduces odor-causing bacteria leaving surfaces smelling clean and fresh).

(For Miscellaneous Use)

For Use [in] [on] [at] [Public areas], [Retail Businesses], [Office Buildings], [Educational Institutions], [Public Transportation System], [Transportation Terminals], [Lodging Establishments], [Athlete/Recreational Facilities], [Non-food handling areas of Food Services Establishments/Restaurants] and [Manufacturing facilities] [such as] *{or insert any of the Miscellaneous Institutional Use site from table 8}*

This product is a one-step germicidal (disinfectant) cleaner and deodorant (odor-counteractant) (odor neutralizer) designed for general cleaning, (and) disinfecting, (deodorizing) (of) hard, non-porous environmental surfaces.

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

It cleans quickly by removing *{insert any soil from table 5}* found in *{insert any of the Miscellaneous Institutional Use site from table 8}*.

This product [or product name] is designed for use on hard, non-porous environmental surfaces: *{insert any surface material from table 6}* associated with hand touch environmental surfaces, [floors], [walls], [ceilings] – *{or insert any Miscellaneous hard non-porous surface from table 7}* – or – any hard non-porous washable (non-food contact) surface where disinfection is required. (This product’s non-dulling formula eliminates the time and labor normally required for rinsing). (It also) reduces odor-causing bacteria leaving surfaces smelling clean and fresh).

(Footbaths (pedicure foot spa equipment) in Health clubs, spas, tanning salons, tanning spas, hair/nail/pedicure salons, barber/beauty shops, salons, tattoo parlors:)

This product is a one-step (hospital-use) (germicidal) disinfectant cleaner, (*virucide) (and) (deodorant) (odor-counteractant) (odor neutralizer) designed for cleaning, (and) disinfecting, (and) (deodorizing) (on) (of) hard, non-porous footbath surfaces. It cleans quickly by removing body oils, dead tissue, soil and all other buildups or organic matter (found) on (hard nonporous (inanimate) (environmental)) footbath surfaces.

It is designed for use on (Use daily on) (hard, non-porous environmental (inanimate) surfaces) (of) footbaths (pedicure foot spa equipment).

[For Use on] [Disinfection of] Surfaces in Pharmaceutical and Cosmetic Processing Facilities:

This product {or product name} is recommended for use on hard, non-porous environmental surfaces such as floors, walls and processing equipment in pharmaceutical and cosmetic processing facilities.

[For Use in] Mold Remediation:

This product {or product name} kills the growth of mold and mildew and the odors caused by [associated to] them on hard, non-porous surfaces such as sealed [concrete] floors, sealed walls; sealed drywall and gypsum board, tabletops, bench-tops, drain troughs, drip pans, desks, locker room benches, and hard non-porous bath mats (e.g., rubber or plastic).

[For] [Residential Use][Home][Household]

This product [or product name] is an effective [cleaner] [disinfectant] [sanitizer] on non-food contact surfaces in [around] [Residential], [Household], [Homecare], [Daycare centers], [Nursing homes] [settings].

This product [or product name] is a[n] [Antibacterial][Multi-Purpose][Bathroom][Floor][Glass & Surface] [Kitchen[†]] [Restroom] [Cleaner] [Cleaning] [Disinfectant] [Disinfecting] [Sanitizer]. This product is for use [in] [on] [the] *{insert any residential/household use sites from table 12}* [common hard nonporous household surfaces].

For everyday cleaning [and disinfecting] [use daily to clean [and disinfect]] [on] hard, non-porous surfaces [where germs are a concern] [made from] *{insert any surface material from table 10}* associated with kitchen[†] surfaces, hand-touch surfaces, *{or – insert any of the hard non-porous surfaces listed in table 11}* and other hard [non-food contact] surfaces around the house [hold] [home]. [Not recommended for use on brass], [polished wood], [granite], [marble], [and] [leather].

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

{Soft Surface Sanitization claims}

For use on [hard to launder] soft surfaces[†] {-or- insert any soft surfaces from table 13} found in [Hospitals], [nursing homes], [healthcare facilities], [Dental offices], [medical offices], [and] [household].

{Soft Surface Sanitization short claims}

- A proven sanitizer on soft surfaces[†]
- An effective soft surface[†] sanitizer
- Cost effective solution laundering -or- dry cleaning hospital curtains
- Great for use on soft surfaces[†] such as {insert soft surfaces from table 13}
- Kills microorganisms on [hospital] soft surfaces[†] -or- fabric[†] -or-{insert soft surfaces from table 13}
- [‡]Kills 99.9% of [*Enterobacter aerogenes* [ATCC 13408]] [and][*Staphylococcus aureus* [ATCC 6538]] on (insert usage surface)
- One-step cleaner sanitizer on soft surfaces[†]
- Removes –and/or- Eliminates odors by killing odor-causing bacteria on [soft surfaces[†]] [fabrics[†]] {-or- insert soft surfaces from table 13}
- Sanitizes by killing *Enterobacter aerogenes* and *Staphylococcus aureus* on soft surfaces[†] in 1 minute
- Sanitizes fabric[†] -or- soft surfaces[†] -or- {insert soft surfaces from table 13}
- Sanitizes soft surfaces[†] in one step
- Sanitizes soft surfaces[†] [in 1 minute]
- Soft surface[†] -or- fabric[†] sanitizer
- Use on [insert soft surfaces from table 13] [and other soft surfaces[†]]

{Soft surface qualifier}:

[†] composed of cotton or polyester

Claims [See Reference sheet for a complete list of [pathogenic]organisms][this product {or product name} is effective against] [A powerful disinfectant effective against]:

- Canine Distemper Virus [ATCC VR-128]

*{Note to reviewer: if viruses are NOT listed under the *virucidal or *virus heading then each individual virus will be qualified by an *}*

{Note to reviewer: We will choose one or more of these statements depending on available space on the product label.}

- Respiratory illnesses attributable to Pandemic 2009 H1N1 are caused by Influenza A virus. (This product or product name) is a broad-spectrum hard surface disinfectant that has been shown to be effective against Influenza Type A2 (Hong Kong), (VR-544), and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 (formerly called swine flu).
- This product has demonstrated effectiveness against Influenza A virus and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 Influenza A virus.
- This product has demonstrated effectiveness against Influenza Type A2 (Hong Kong), (VR-544), and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 (formerly called swine flu).
- Kills Pandemic 2009 H1N1 Influenza A virus (formerly called swine flu).
- Kills Pandemic 2009 H1N1 Influenza A virus.

{Table 3 – Sanitization Claims}

[BROAD-SPECTRUM] NON-FOOD CONTACT SANITIZER [in 10 seconds] against:

- *Staphylococcus aureus* [ATCC 6538]

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

- *Enterobacter aerogenes* [ATCC 13048]
- *Acinetobacter baumannii* [ATCC 19606]
- *Listeria monocytogenes* [ATCC 19117]
- *Campylobacter jejuni* [ATCC 29428]
- *Salmonella enterica* (~~formally~~ formerly known as *Salmonella choleraesuis*) [ATCC 10708]
- *Pseudomonas aeruginosa* [ATCC 15442]
- *Escherichia coli* O157:H7 [ATCC 35150]
- Vancomycin Resistant *Enterococcus Faecalis* (VRE)[ATCC 51575]
- *Klebsiella pneumoniae* [ATCC 4352]
- Methicillin Resistant *Staphylococcus aureus* (MRSA) [ATCC 33592]

{Table 4 – Fungi Claims}

FUNGICIDAL [Kills] [Effective Against] [FUNGI] [in 30 seconds, unless otherwise noted] [against]:

- *Trichophyton mentagrophytes* [(athlete’s foot fungus)][ATCC 9533]
- *Candida albicans* [ATCC 10231] – **1 minute**
- *Microsporum canis* [ATCC 10214] – **1 minute**

{Table 5 – Soft Surface Sanitization Claims}

♠SOFT SURFACE SANITIZATION [against the following organisms] in 30 seconds:

- *Staphylococcus aureus* [ATCC 6538]
- *Enterobacter aerogenes* [ATCC 13048]
- Methicillin Resistant *Staphylococcus aureus* (MRSA) [ATCC 33592]
- *Vancomycin Resistant Enterococcus Faecalis* (VRE)[ATCC 51575]

Mold/Mildew (Mildewcidal Activity) - kills the growth of mold and mildew: (at a 4 minutes contact time): *Aspergillus brasiliensis* (formerly known as *Aspergillus niger*) (ATCC 16404) (and the odors caused by them) when applied to hard, non-porous environmental surfaces.

Mold/Mildew (Mildewstatic Activity) - controls and prevents the growth of mold and mildew: (at a 4 minutes contact time): *Aspergillus brasiliensis* (formerly known as *Aspergillus niger*) (and the odors caused by them) when applied to hard, non-porous environmental surfaces.

{OR}

[CLAIMS] [ORGANISMS]:

[Bacteria] [Bactericidal]:

Kills {insert one or more bacteria from table 1} on hard, non-porous [kitchen[‡]] [bathroom] [restroom] [household] surfaces in 1 minute.

***[Viruses] [*Virucidal]:**

*Kills {insert one or more virus from table 2} when used as directed on hard, non-porous inanimate [kitchen[‡]] [bathroom] [restroom] [household] surfaces in 30 seconds, unless otherwise noted.

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

[Tuberculocidal] in the presence of 5% serum load and 1 minute contact time at 20°C on hard, non-porous environmental surfaces

Mycobacterium bovis (BCG) (OT 451C150)

Tuberculocidal activity was determined by the AOAC Tuberculocidal Activity of Disinfectant spray Products

Malodor[s] [Activity] [Counteractancy] – eliminates [destroys] odors and odor-causing bacteria on hard, non-porous surfaces in restroom areas, behind and under sinks and counters, and storage areas [and other places where bacterial growth can cause malodors].

[Fungicidal]:

Kills *{insert one or more fungi from table 4}* on hard, non-porous [kitchen[†]] [bathroom] [restroom] [household] surfaces in 30 seconds, unless otherwise noted.

Non-Food Contact Surface Sanitizer for hard non-porous surfaces – [in the presence of 5% serum load] [and] [in] 10 seconds [contact time] [on hard, non-porous environmental surfaces]: *{insert one or more organism from table 3}*

Soft surface sanitizer: Kills *{insert one or more organisms from table 5}* on [household] surfaces in 30 seconds

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

{Note to reviewer: The following paragraph will be used on labels that list medical devices as defined by the FDA.}

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the blood stream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

{Packaging Related Statement – Appropriate language will be selected from this list, depending on packaging.}

{For bottles with induction seal}

Unscrew cap, remove induction seal and place the [trigger] [sprayer] on the bottle.

{For bottles with sprayer}

{Operating Trigger}

To Operate:

Open hinged cover of sprayer and snap into opening on top. -or- Turn nozzle [counterclockwise] to "spray" -or- "stream" [setting], -or- Adjust [nozzle] to desired pattern.

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

{For containers with top pump dispensing mechanism}

To Open: [To Operate:] [To Unlock:] Twist [rotate][top][pump][head][counter] clockwise.

To Close: [To Lock:] [Twist][rotate][pump][head][counter][clockwise]

{Optional Directions for Product Supplied in Refill and Refillable Bottles :}

Refill only with this product.

To Refill [Spray Bottles]:

[Remove:]

Remove trigger sprayer from empty bottle.

[Pour :]

Unscrew cap [and remove induction seal] on refill and pour contents directly into empty bottle. Use a funnel to minimize product spills –or- waste. Pour product into spray bottle over sink or tub basin.

[Use:]

Replace trigger sprayer and use as you normally would.

-or- Unscrew cap and transfer your trigger to this bottle,

-or- Replace cap and use as you normally would.

{Refill}

[To Transfer This Product (or product name) Into Smaller Containers:] {32 oz. or less}:

[This product (or product name) may be transferred into clean, properly labeled containers for use elsewhere within your facility.] The small container and transfer items (funnels or hand pumps) must be clean and dry.

Pour (or pump) product directly into a properly labeled smaller container being careful not to spill any product.

Place sprayer back on the bottle. Refill in a well ventilated area.

For Use as a Cleaner:

General [Kitchen[†]/Bathroom/Household] Cleaning:

[Remove cooking ingredients and cooked food from areas to be cleaned.] Spray product directly onto soils and wipe clean. [Rinse food contact surfaces with potable water].

{-or-}

Directly spray [this product] [-or- product name] to completely wet surface and wipe clean. No rinsing needed. [Rinse food contact surfaces with potable water]. Repeat for heavily soiled areas. For stubborn stains or heavily soiled areas or tougher jobs, allow product to penetrate [dirt] before wiping.

{-or- for containers with top pump dispensing mechanism}

Apply [product] on wipe [dish rag][sponge][paper towel] by pumping [pushing][dabbing][tapping]down on top of the unit once [twice][three] [a few] [several][times]. Wipe surface [clean]. [Rinse food contact surfaces with potable water].

To Clean/Remove Soap Scum: Spray product onto soils and wipe clean [with a dry paper towel or lint-free cloth or sponge]. *{-or-}* [Just] spray on and wipe off [with a dry paper towel or lint-free cloth or microfiber cloth or sponge]. No rinsing necessary. [For best results, use a dry paper towel or lint-free cloth or microfiber cloth or sponge]. Repeat for heavily soiled areas. For stubborn stains or heavily soiled areas or tougher jobs, allow

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

product to penetrate [dirt -and/or- soap scum] before wiping. [For best results, use regularly to prevent dirt and soap scum build up].

To Clean [Nonporous] Surfaces [and] [or] [small areas of] [Floors]: Spray soiled area, then wipe clean.

For spot cleaning: Spray and wipe clean with damp sponge –or- mop or cloth.

For carpet spot cleaning: [From a distance of 6-8 inches] Spray a light even coating on soiled area of the carpet until damp. Gently blot area with a clean, damp, color-safe cloth. Repeat as needed (for stubborn stains). Let air dry. Vacuum.

{Deodorization}

To Clean and Deodorize Toilets: To clean and deodorize toilet bowl, spray on toilet sides and upper toilet bowl rim. Swab *{-or-}* brush all surfaces and flush.

{or}

To Deodorize: Spray product directly onto [non-porous surfaces] *{or}* {Spray 6-8 inches from the surface} until completely wet. Let stand for [1 minutes] [contact time listed [below] [or] [on label]] [to kill odor causing [bacteria] [microorganisms] [organisms]]. Allow to air dry [or rinse]. For heavily soiled areas, a pre-cleaning is required. [If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel].]

{Allergen Destruction}

To [clean and] destroy specified allergens: [Set trigger to SPRAY.] Spray, wait 1 minute, and wipe excess. [Rinse.] Allow to air dry. [If streaking is observed, wipe with a clean, damp [cloth or] paper towel.]

Allergens:

- Cockroach matter -or- particles
- Dust mite matter -or- particles
- Pet dander -or- dog and cat dander

{General Antimicrobial Uses}

For Use as a One-Step Cleaner/Disinfectant [Product]:

1. Pre-clean heavily soiled areas.
2. Spray 6-8 inches from surface [until surface is thoroughly wet].
3. Allow surface(s) [Allow this product to penetrate and] [to] remain wet for 1 minute.
4. [Wipe] [surfaces dry] [or rinse]. [If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]]. [Allow to air dry]. [Let air dry].

For Use To Clean and Disinfect Life Science Laboratory Surfaces, Instruments, and Glassware:

1. Pre-clean heavily soiled areas.
2. Spray 6-8 inches from surface [until surface is thoroughly wet].
3. Allow surface(s) [Allow this product to penetrate and] [to] remain wet for 1 minute.

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

4. For glassware/instrument: Rinse surface thoroughly and let air dry before reuse. For surfaces: Wipe [surfaces dry] [or rinse]. [If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]].

For Use as a Cleaner/Disinfectant in non-food handling areas of Food Establishments [Food Processing Plants]:

1. Pre-clean heavily soiled areas.
2. Spray 6-8 inches from surface [until surface is thoroughly wet].
3. Allow surface(s) [Allow this product to penetrate and] [to] remain wet for 1 minutes.
4. Wipe [surfaces dry] [or rinse]. [If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]].

For Use as (Daily) Bathroom (Restroom) (One-Step) Cleaner/Disinfectant:

1. Pre-clean heavily soiled areas.
2. Spray 6-8 inches from surface [until surface is thoroughly wet].
3. Allow surface(s) [Allow this product to penetrate and] [to] remain wet for 1 minute.
4. Wipe [surfaces dry] [or rinse]. [If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]].

{Note: Next sentence is optional language }

(Note - Floors will be slippery when wet or contaminated with foreign materials.)

For Use as a Bowl Cleaner/Disinfectant in Toilet Bowls:

1. Pre-clean heavily soiled areas.
2. Empty toilet bowls by forcing water through the trap. Spray 6-8 inches from exposed surfaces in toilet bowls.
3. Swab entire surface area especially under the rim.
4. Allow entire surface to remain wet for one (1) minutes.
5. Flush toilet and rinse swab applicator thoroughly.

For Use To Clean and Disinfect [Bathtub], [shower stalls] [and] [Other] Large, Open Areas with Floor Drains:

1. Pre-clean heavily soiled areas.
2. Spray 6-8 inches from surfaces of floors, walls and ceilings making sure not to over spray. To disinfect, all surfaces must remain wet for one (1) minute.
3. [Scrub using a deck brush or other coarse material as necessary].
4. Rinse surfaces thoroughly and let air dry.

{Note: Next sentence is optional language }

(NOTE: Floors will be slippery when wet or contaminated with foreign materials.)

For Use to Clean and Disinfect Manikins Used in CPR Training:

Manikins should be cleaned as soon as possible at the end of each class to avoid drying of contaminants on surfaces. Disassemble the manikin as directed by manufacturer's instructions. Spray all surfaces (of manikins) with this product {or product name} until thoroughly wet. Let stand for 1 minute and rinse with potable water.

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

To Disinfect Surfaces in Pharmaceutical and Cosmetic Processing Facilities:

1. Pre-clean heavily soiled areas.
2. Spray 6-8 inches from surface [until surface is thoroughly wet].
3. Allow surface(s) [Allow this product to penetrate and] [to] remain wet for 1 minute.
4. Rinse with sterile water.
5. Wipe with a dry, clean cloth and let air dry.

***KILLS HIV, HCV and HBV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings (Hospitals, Nursing Homes) and other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood / body fluids, and in which the surfaces / objects likely to be soiled with blood / body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis C Virus (HCV) or Hepatitis B Virus (HBV).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (AIDS Virus), HCV OR HBV OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

Personal Protection: Disposable latex or vinyl gloves, gowns, face masks, and eye coverings (as appropriate), must be worn during all cleaning of body fluids, blood, and decontamination procedures.

Cleaning Procedures: Blood / body fluids must be thoroughly cleaned from surfaces / objects before application of this product [or product name].

Contact Time: Allow surface to remain wet for 30 seconds [to kill HIV-1, HCV and HBV] [use a 1 (one) minute contact time to kill all other organisms cited on label]

Disposal of Infectious Material: Blood / body fluids must be autoclaved and disposed of according to Federal, State, and local regulations for infectious waste disposal.

Animal Housing Facilities [in] [Veterinary] [Clinics] [Hospitals], [Farm Premise] [Including], [Equine production] [Farm], [Bovine production] [Farm]:

For cleaning and disinfecting the following hard nonporous surfaces: feeding and watering equipment, utensils, instruments, cages, kennels, stables, catteries, etc.

1. Remove all animals and feeds from premises, animal transportation vehicles, crates, etc.
2. Remove all litter, droppings and manure from floors, walls and surfaces of facilities (including barns, pens, stalls and chutes) occupied or traversed by animals.
3. Empty (or cover) all troughs, racks, and other feeding and watering appliances.
4. Thoroughly clean all surfaces with soap or detergent and rinse with potable water.
5. Saturate all surfaces [floors, walls, cages and other washable hard, non-porous environmental surfaces] by spraying with solution until (thoroughly) wet. To disinfect, all surfaces must remain wet for one (1) minute.
6. Immerse all halters, ropes, and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers used for removing litter and manure.
7. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried.
8. For disinfection of feed racks, troughs, automatic feeders, fountains and water appliances [waterers] spray with solution [until completely wet] and let stand for one (1) minute. Then thoroughly scrub all treated surfaces with soap or detergent, and rinse with potable water before reuse.

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

Poultry Houses and Poultry Hatcheries:

For cleaning and disinfecting the following hard nonporous surfaces: feeding and watering equipment, utensils, instruments, cages, kennels, stables, catteries, etc.

1. Remove all poultry and feeds from premises, trucks, coops, and crates.
2. Remove all litter and droppings from floors, walls and surfaces of facilities occupied or traversed by poultry.
3. Empty all troughs, racks, and other feeding and watering appliances.
4. Thoroughly clean all surfaces with soap or detergent and rinse with water.
5. Saturate all surfaces [floors, walls, cages and other washable hard, non-porous environmental surfaces] by spraying with solution until (thoroughly) wet. To disinfect, all surfaces must remain wet for one (1) minute.
6. Ventilate buildings, coops, and other closed spaces. Do not house poultry or employ equipment until treatment has been absorbed, set, or dried.
7. Thoroughly scrub treated feed racks, troughs, automatic feeders, fountains, and waterers with soap or detergent, and rinse with potable water before reuse.

[NOTE: Not for use on handling and restraining equipment such as leashes, muzzles, halters or ropes, as well as forks, shovels, and scrapers used for removing litter and manure.]

To Pre-clean Instruments Prior to Terminal Sterilization/High Level Disinfection [As a pre-cleaning spray]:

1. Place instruments into a suitable container
2. Spray this product onto instruments to thoroughly wet all surfaces
3. Let stand for up to 1 minute
4. Rinse instruments
5. Follow with an appropriate disinfection process

Note: Cleaning of critical and semi-critical devices must be followed by an appropriate terminal sterilization/high-level disinfection process.

To Disinfect Non-Critical[¥], Pre-cleaned Instruments:

1. Instruments must be thoroughly pre-cleaned to remove excess organic debris, rinsed, and rough dried.
2. (Clean and rinse lumens of hollow instruments before spraying with this product).
3. Spray all surfaces of instruments with this product {or product name} until thoroughly wet.
4. Let stand for 1 minute [at room temperature].
5. Wipe with a clean, damp cloth or paper towel and allow to air dry.

[¥]Non-Critical medical devices are items that come in contact only with intact skin.

Note: Cleaning of critical and semi-critical devices must be followed by an appropriate terminal sterilization/high-level disinfection process.

To Clean and Disinfect Barber and Beauty/Manicure Instruments and Tools:

1. Pre-clean heavily soiled items.
2. Spray all surfaces of pre-cleaned combs, brushes, scissors, clipper blades, razors, manicure implements and other non-porous instruments with this product {or product name} until thoroughly wet.

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

3. Let stand for 1 minute.
4. Rinse the surfaces thoroughly with water.
5. Let air dry before reuse.

For Use To Disinfect inanimate environmental surfaces associated with Aquaculture including vehicles, nets, boots, waders, dive suits, hoses, brushes and other similar equipment:

1. Remove all feeds from premises or vehicles.
2. Remove excess debris
3. Saturate all surfaces [of washable hard, non-porous environmental surfaces] by spraying with solution until (thoroughly) wet. To disinfect, all surfaces must remain wet for one (1) minute.
4. Rinse the surfaces thoroughly with water.
5. Let air dry.

For use as a disinfectant, (*virucide) on hard, non-porous (inanimate) (environmental) surfaces of non-circulating footbaths (pedicure foot spa equipment):

- 1- **Drain:** Drain the water (from) (the unit) (foot spa) (basin) (bowl) and remove any visible debris.
- 2- **Clean:** Thoroughly clean all (hard, no-porous (inanimate) (environmental)) surfaces with this product [or product name] (soap) (detergent), then rinse with water and drain.
- 3- **Apply:** Spray (of this product) (or product name) 6-8 inches from surfaces [of footbath].
- 4- **Scrub:** Brush or swab thoroughly and allow solution to stand for 1 minute.
- 5- Rinse all [(cleaned) (treated)] surfaces with fresh water and drain [the rinse water].

{For containers with top pump dispensing mechanism}

To Disinfect: Pre-clean surface. Apply to surface until thoroughly wet. [Thoroughly wet surface.] Allow [surface] to remain wet for 1 minute

For use as a [Non-Food Contact Sanitizer] [Broad spectrum Non-Food Contact Sanitizer]:

For use as a Non-Food Contact Sanitizer: Pre-clean heavily soiled areas. Spray product directly onto [non-porous surfaces] *{or}* [Spray 6-8 inches from the surface] until completely wet. *{-or-}* [Directly] apply [solution] [this product] [-or- product name] with trigger sprayer to completely wet [hard] [non-porous] surface. Allow the surface to remain [visibly] wet for 10 seconds. Wipe surfaces dry [or rinse] [or allow to air dry].

For Use as a Cleaner and/or Deodorizer:

Spray 6-8 inches from [hard], [non-porous] [environmental] surfaces [until surface is thoroughly wet]. Allow to air dry [or rinse].

For use as sanitizer on Soft Surfaces[†] [Fabrics[†]]:

- 1- Hold bottle upright 6"-8" from surfaces.
- 2- Spray until fabric is wet. Do not saturate.
- 3- Let stand for 30 seconds. Allow to air dry
- 4- [For difficult odors or heavy fabrics, repeat application.][Reapply as necessary].

To Kill Fungi:

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

Pre-clean heavily soiled areas. Spray product directly onto [non-porous] surfaces *{OR}* [Spray 6-8 inches from the surface] until completely wet. Allow surface to remain wet for thirty (30) seconds. Wipe surfaces (and let air dry).

To Kill Mold and Mildew:

Pre-clean surfaces. Spray product directly onto [non-porous] surfaces *{OR}* [Spray 6-8 inches from the surface] until completely wet. Allow the surface to remain [visibly] wet for 4 (four) minutes. Allow [Let] to air dry [or wipe surface dry] [or rinse]. [If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]].

To Control Mold and Mildew:

Spray product directly onto [non-porous surfaces] *{OR}* [Spray 6-8 inches from the surface] until completely wet. Allow [Let] to air dry [or wipe surface dry] [or rinse]. [If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]]. Repeat application weekly or when growth reappears.

Mold Remediation:

1. Repair the source of moisture (stop leaks, etc) to eliminate conditions favorable to mold growth such as moisture ingress and high relative humidity and to prevent further mold growth and/or re-growth.
2. Wipe the wall with a clean cloth wetted with clean water or with this product *{or product name}*. Dispose of the cleaning cloth in a well-sealed plastic bag.
3. Spray this product *{or product name}* to contaminated hard, non-porous surfaces sufficient to maintain wet for 4 minutes.

STORAGE AND DISPOSAL *{For Residential use}*

{Note to reviewer: Sizes for Residential use will be 1 gallon or less}

PESTICIDE STORAGE: Store in original container in areas inaccessible to small children. Keep securely closed.

CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. Wrap [container] and put in trash or offer for recycling [if available].

{For bottles intended to be refilled by the consumer-i.e. not for re-sale}

STORAGE AND DISPOSAL:

PESTICIDE STORAGE: Store this product in areas inaccessible to small children. Keep securely closed.

CONTAINER HANDLING: Do not reuse or refill this container except as described in the directions for use. Refill only with this product [-or-product name]. Offer empty container for recycling. If recycling is not available, discard in trash.

STORAGE AND DISPOSAL *{For Institutional use}*

{For sizes 1 gallon or less}

PESTICIDE STORAGE: Store in original container in areas inaccessible to small children. Keep securely closed.

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill empty container. Wrap [container] and put in trash or offer for recycling [if available].

{For bottles (1 gallon or less) intended to be refilled by the consumer-i.e. not for re-sale}

STORAGE AND DISPOSAL:

PESTICIDE STORAGE: Store this product in areas inaccessible to small children. Keep securely closed.

CONTAINER HANDLING: Do not reuse or refill this container except as described in the directions for use. Refill only with this product [-or-product name]. Offer empty container for recycling. If recycling is not available, discard in trash.

{For sizes over 1 gallon}

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in securely [tightly] closed container in areas inaccessible to small children. [Store away from direct sunlight and heat [extreme temperatures]]. [Do not mix with other cleaning or disinfecting products].

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. [For more information on the disposal of unused, unwanted product and the cleanup of spills, contact the EPA Regional Office or the Manufacturer for guidance].

CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. Offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill; or incinerate, or, if allowed by state and local authorities, burn. If burned, stay out of smoke.

{For labels with veterinary use patterns}

ENVIRONMENTAL HAZARDS: This product is toxic to birds, fish and aquatic invertebrates. Caution should be used when applying indoors because pets may be at risk.

[using approved ASTM test methods] [under Good Laboratory Practices, [GLP's]], [in the presence of 5% serum load] [and] [in] 1 minute [contact time].

(Note to reviewer: We will choose one or more of these statements depending on available space on the product label.)

- Respiratory illnesses attributable to Pandemic 2009 H1N1 are caused by Influenza A virus. (This product or product name) is a broad-spectrum hard surface disinfectant that has been shown to be effective against Influenza Type A2 (Hong Kong), (VR-544), and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 (formerly called swine flu).
- This product has demonstrated effectiveness against Influenza A virus and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 Influenza A virus.
- This product has demonstrated effectiveness against Influenza Type A2 (Hong Kong), (VR-544), and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1 (formerly called swine flu).
- Kills Pandemic 2009 H1N1 Influenza A virus (formerly called swine flu).
- Kills Pandemic 2009 H1N1 Influenza A virus.

Virucidal activity was determined by the efficacy test methods for virucidal agents intended for inanimate environmental surfaces; ASTM E 1053 Standard Test Method for Efficacy of Virucidal Agents Intended for Inanimate Environmental Surfaces and EPA protocols for surrogate viral testing.

{Bacteria Claims}

HOSPITAL DISINFECTANT: BACTERICIDAL [Kills] [Effective Against] [Bacteria] [in 1 minute][against]: in the presence of 5% serum load and 1 minute contact time at 20°C on hard, non-porous environmental surfaces against

- *Pseudomonas aeruginosa* [ATCC 15442]

- *Serratia marcescens* [ATCC 14756]
- *Pasteurella multocida* [ATCC 12947]
- *Shigella dysenteriae* [ATCC 11835]
- *Pseudomonas aeruginosa*-Metallo-beta lactamase (MBL) positive (CDC 2012059)

Bactericidal Activity was determined using the AOAC Germicidal Spray Test Method

^ (Ampicillin, Cefazolin, Cefepime, Gentamicin, Ertapenem, and Trimethoprim/Sulfa)

TUBERCULOCIDAL [Kills][Effective Against][Mycobacteria][in 1 minute] [against]: in the presence of 5% serum load and 1 minute contact time at 20°C on hard, non-porous environmental surfaces

- † *Mycobacterium bovis* (BCG)

Tested using the AOAC Tuberculocidal Activity of Disinfectant Spray Products

{Sanitization Claims}

[BROAD-SPECTRUM] NON-FOOD CONTACT SANITIZER [in 10 seconds] against:

- *Staphylococcus aureus* [ATCC 6538]
- *Enterobacter aerogenes* [ATCC 13048]
- *Acinetobacter baumannii* [ATCC 19606]
- *Listeria monocytogenes* [ATCC 19117]
- *Campylobacter jejuni* [ATCC 29428]
- *Salmonella enterica* (formally known as *Salmonella choleraesuis*) [ATCC 10708]
- *Pseudomonas aeruginosa* [ATCC 15442]
- *Escherichia coli* O157:H7 [ATCC 35150]
- *Vancomycin Resistant Enterococcus Faecalis* (VRE)[ATCC 51575]
- *Klebsiella pneumoniae* [ATCC 4352]
- Methicillin Resistant *Staphylococcus aureus* (MRSA) [ATCC 33592]

Sanitizing activity was determined by the EPA Sanitizer Test for Inanimate, Non-Food Contact Surfaces and ASTM E1153 Standard Test Method for Efficacy of Sanitizers Recommended for Inanimate Non-Food Contact Surfaces.

SOFT SURFACE SANITIZATION [against the following organisms] in 30 seconds:

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

- *Staphylococcus aureus* [ATCC 6538]
- *Enterobacter aerogenes* [ATCC 13048]
- Methicillin Resistant *Staphylococcus aureus* (MRSA) [ATCC 33592]
- *Vancomycin Resistant Enterococcus Faecalis* (VRE)[ATCC 51575]

{Fungi Claims}

FUNGICIDAL [Kills] [Effective Against] [FUNGI] [in 30 seconds, unless otherwise noted] [against]:

- *Trichophyton mentagrophytes* [ATCC 9533]
- *Candida albicans* [ATCC 10231] -**1 minute**
- *Microsporum canis* [ATCC 10214] – **1 minute**

Mold/Mildew (Mildewcidal Activity) - kills the growth of mold and mildew: (at a 4 minutes contact time): *Aspergillus brasiliensis* (formerly known as *Aspergillus niger*) (ATCC 16404) (and the odors caused by them) when applied to hard, non-porous environmental surfaces.

Mold/Mildew (Mildewstatic Activity) - controls and prevents the growth of mold and mildew: (at a 4 minutes contact time): *Aspergillus brasiliensis* (formerly known as *Aspergillus niger*) (and the odors caused by them) when applied to hard, non-porous environmental surfaces.
