Benefect is the first botanical disinfectant cleaner. \*The patented technology is proven to kill over 99.99% of bacteria specifically *Salmonella choleraesuis*, *Staphylococcus aureus*, *Pseudomonas aeruginosa* & *Mycobacterium bovis* (TB), fungi specifically *Trichophyton mentagrophytes* (the Athlete's Foot fungus) & HIV-1 (the AIDS virus) on hard, non-porous, inanimate surfaces. Effectively controls odors produced by these microorganisms on non-porous surfaces. Made from botanically pure plant extracts with pleasant aromatherapeutic vapors. No synthetic fragrances, dyes, ammonia or chlorine.

SUITABLE FOR use in residential, commercial or medical applications, including health care & food preparation facilities: hospitals, nursing homes, medical, veterinary & dental offices, health professional, chiropractic & physiotherapy clinics, day cares, nurseries, restaurants & bars, kitchens, cafeterias, food storage areas, fitness gyms, spas, schools, hotels & motels, zoos & kennels on hard, non-porous surfaces.

SUITABLE FOR use on countertops, sinks, food preparation surfaces, toilet seats, pet habitats, garbage cans, children's toys, highchairs, changing tables, prostheses & orthotics, sports equipment such as jock cups & helmets, non-porous construction materials such as water damaged sheet metal, walls, floors, boat surfaces & cavities & any other non-porous surface where bacteria or unpleasant odors are a concern.

SUITABLE FOR control and inhibition of odors caused by bacteria, fungi & other odor-causing organisms.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labelling.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

**\*KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1)(associated with AIDS).

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.**

**Personal Protection:** Specific barrier protection items to be used when handling items soiled with blood or body fluids, are disposable latex gloves, gowns, masks or eye coverings.

**Cleaning Procedure:** Blood & other body fluids must be thoroughly cleaned from surfaces & objects before application of the disinfectant.

**Disposal of Infectious Material:** Blood & other body fluids should be autoclaved & disposed of according to federal, state & local regulations for infectious waste disposal.

**Contact Time:** Leave surface wet for 10 minutes.

Pre-clean surfaces to remove soil prior to disinfection.

TO CLEAN: 1. Shake, apply product & wipe away.

TO DISINFECT: 1. Shake well and wet the surface with the spray (test for surface compatibility on inconspicuous area first). 2. Leave for 10 minutes at room temperature; allow to air-dry, no rinsing or wiping is required except on direct oral, skin or food contact surfaces which require a potable water rinse after treatment (e.g. baby toys, prostheses' liners & food contact surfaces).

Storage / Disposal: Store airtight at room temperature. Recycle empty container.
