Subject: Super Chlor  
EPA Registration No. 74831-20005  
Application Dated: August 12, 2011  
Receipt Dated: August 12, 2011

Dear Mr. Pastore:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3(c)9.

**Proposed Notification:**

Update the Container Disposal language to comply with PR Notice 2007-4.

**Comments:**

1. This application did not provide directions for pressure rinsing. Therefore, the pressure rinse claim has been removed from the label, until directions are provided.
2. Remove the question mark and add "¼" in its place.

[For rigid nonrefillable container greater than 5 gallons]  
**Container Handling: Nonrefillable rigid container/drum. Do not re-use or refill this container.** Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip containers on its end and tip it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for the later use or disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay of smoke.

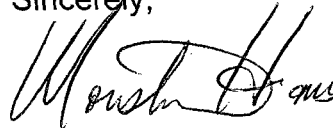

**General Comments:**

Based on a review of the material submitted, the following comment applies:

The notification application is accepted with comments and a copy has been inserted in your file for future reference.

Should you have any questions or comments concerning this letter, please contact Wanda Henson via email at [Henson.Wanda@epa.gov](mailto:Henson.Wanda@epa.gov) or call (703) 308-6345.

Sincerely,

Monisha Harris  
 Product Manager (32)  
 Regulatory Management Branch II

Re: EPA Reg. #74831-200

Ms. Henson:

I am sending you this notification because we are replacing our existing label with our new label. There are no major changes in the new label, except the word "SINOPEC" is added to the logo. We will have 100 lbs, 50 lbs, 88 lbs, 99.09 lbs, and 25 lbs plastic child-proof containers under the new label.

Thank you for reviewing.

# SUPER CHLOR

**Granular Calcium Hypochlorite**

**Active Ingredient:**

Calcium Hypochlorite (CAS No.7778-54-3)..... 65%

**Other Ingredients**..... 35%

Total..... 100%

Net Wt. 50lbs.(22.7kg.)

EPA Reg. No.74831-20005

EPA Est. 74831-CHN-1

Made by Jiangnan Salt & Chemical Complex,  
Qianjiang, Hubei, P.R.China

UN NO.2880

Keep Out of Reach of Children

**DANGER**

**First Aid**

**If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If on Skin or Clothing:** Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If Swallowed:** Immediately call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.

**Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage.

See additional precautions.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### Swimming Pool Water Disinfection

For a new pool or spring start-up, superchlorinate with 10 to 20 oz. of this product for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Check the level of available chlorine with a test kit. Adjust and maintain pool water pH to between 7.2 to 7.6. Adjust and maintain the alkalinity of the pool to between 50 to 100 ppm.

To maintain the pool, add manually or by a feeder device, 2 oz. Of this product for each 10,000 gallons of water to yield an available chlorine residual between 0.6 to 1.0 ppm by weight. In stabilized pools maintain a residual of 1.0 to 1.5 ppm available chlorine. Test the pH, available chlorine residual and alkalinity of the water frequently with appropriate test kits. Frequency of water treatment will depend upon temperature and number of swimmers.

Every 7 days, or as necessary, superchlorinate the pool with 10 to 20 oz. of this product for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Check the level of available chlorine with a test kit. Do not reenter pool until the chlorine residual is between 1.0 to 3.0 ppm.

At the end of the swimming pool season or when water is to be drained from the pool, chlorine must be allowed to dissipate from treated pool water before discharge. Do not chlorinate the pool within 24 hours prior to Discharge.

### Winterizing Pools

While water is still clear and clean, apply 0.6 oz. Of this product per 1,000 gallons, while filter is running to obtain a 3.0 ppm available chlorine residual, as determined by a suitable test kit. Cover pool, prepare heater, filter and heater components for winter by following manufacturers' instructions.

### Other Calcium Hypochlorite Uses

Calcium Hypochlorite is also used for industrial purposes such as:

- Sanitation of drinking water systems (algae and bacteria control) (Except in New York State)
- Treatment of waste water effluents (textile and paper mills, tanneries, petrochemical plants, etc.)
- Sanitation in the food industries
- Algae control in commercial and industrial cooling systems
- Others

For further information on industrial uses refer to the *Directions for Use* booklet

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:** Keep this product in a tightly closed container, when not in use. Store in cool, dry, and well-ventilated area away from heat and open flame. Retie polyethylene liner after each use and keep container tightly closed. In case of decomposition or spill isolate container in open area if possible and flood with large amounts of water to dissolve all material before discarding this container in trash.

**Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the EPA Regional Office for guidance. The disposal methods are incinerations or chemical treatment in accordance with Federal, State and Local regulations. DO NOT put product, spilled products, or filled or partially filled containers into the trash or waste compactor. Contact with incompatible materials could cause a reaction and fire. Neutralize material to a non-oxidizing state for safe disposal.

**Container Handling and Disposal**

**Container Handling:** Nonrefillable rigid container. Do not re-use or refill this container. Triple rinse or pressure rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container  $\frac{1}{4}$  full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

## PRECAUTIONARY STATEMENTS

### Hazards to Humans & Domestic Animals

**DANGER:** Highly corrosive Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

### Environmental Hazards

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA

### Physical or Chemical Hazards

**STRONG OXIDIZING AGENT.** Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, chlorine gas (and possible fire and explosion). In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood area with large volumes of water, if necessary.
