EPA Reg. Number: 74849-1 Term of Issuance: Conditional Name of Pesticide Product: Ultima SOS
Conditional Name of Pesticide Product:
registration must be submitted to and bondence on this product always refer to the
by registered/reregistered under the Federal
roduct by the Agency. In order to protect cancel the registration of a pesticide in of a product under this Act is not to be been covered by others.
FIFRA sec 3(c)(7)(A) provided
our product under FIFRA sec. s to submit such data; and submit under FIFRA section 4.
tive Ingredients.
Keep out of Reach of Children".
Date:
SEP 1 2. 2006

c. Under the "Directions for Use" capitalize and bold the heading "For Pools".

3. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Shock Oxidizer Sanitizer

Quick dissolving, shock, oxidizer, buffer and clarifier Boosts chlorine residual Multi-functional shock treatment

	Sodium dichloro-s-triazinetrione 15%
INERT INGREDIENTS:	
TOTAL	
Available Chlorine 9.53%	

KEEP OUT OF REACH OF CHILDREN DANGER See other precautions and first aid on back panel. NET WT. 1 LB. (454 g) ACCEPTED with COMMENTS EPA Letter Dated:

SEP 1 2 2006

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide, registered under EPA Reg. No. $\gamma + \zeta + \gamma - 1$

Ultima S.O.S. is a proprietary blend of DuPont Oxone®, a powerful oxygen based oxidizer, and a chlorinating agent, combined with a pH buffer and a dry clarifier. This unique formulation provides the benefits of oxygen-based oxidation, while boosting free chlorine concentrations. This one-two punch keeps water sparkling clear, by oxidizing and eliminating organic contaminants. Since Ultima S.O.S. is buffered, it will not affect water balance; therefore pH and total alkalinity will remain unchanged. The addition of dry clarifier aids the oxidation/filtration process so water contaminants are more readily removed by routine filtration. Ultima S.O.S. is specially formulated to prevent dull, hazy water. Add Ultima S.O.S. to pool water every week to oxidize contaminants introduced by bathers, and to maintain sparkling clear pool water

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HOW TO APPLY:

For Pools: Always add with pump and filter running to ensure complete mixing and good circulation. Ultima S.O.S. is completely soluble and dissolves quickly, so no mixing is required. Broadcast Ultima S.O.S. uniformly over the surface of the water, adding about two thirds of the total dose into the deep end of the pool. Apply product when swimming pool is not in use. Swimming may resume as soon as 15 minutes after product application, provided the chlorine residual concentration in the pool is between 1 and 3 ppm.

For pools with moderate daily use, add Ultima S.O.S. weekly at a dose of 1 pound per 10,000 gallons of pool water. Each pound of Ultima S.O.S. will raise the free chlorine concentration by 1 ppm (part per million) in 10,000 gallons of pool water. More frequent and/or heavier doses may be required during periods of heavy use or following heavy rains or high winds.

For pool opening and pool closing applications, add Ultima S.O.S. at a dose of 2 pounds per 10,000 gallons of pool water. This dose will provide sufficient oxidizer to eliminate most of the contaminants that accumulate in pool water, and will immediately raise the free chlorine concentration by 2 ppm (parts per million) in 10,000 gallons of pool water.

Reentry is prohibited above levels of 3 ppm chlorine due to risk of bodily injury.

STORAGE AND DISPOSAL: Keep this product dry, in its original unopened bag until use. Store in a cool, dry, well-ventilated area, away from combustible materials, incompatible chemicals and sources of heat. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate bag in open area if possible and flood area with large amounts of water to dissolve all material before discarding this bag. Do not contaminate food or feed by storage or disposal.

CONTAINER DISPOSAL: Rinse empty bag thoroughly. Do not reuse bag. Discard in trash.

ENVIRONMENTAL HAZARD: This product is toxic to fish and aquatic organisms.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

DANGER: Corrosive. Causes irreversible eye damage. Causes skin irritation. Do not get in eyes, on skin or on clothing. Wear chemical resistant gloves and protective eyewear. May be fatal if inhaled. Do not breathe dust or spray mists. Harmful if swallowed or absorbed through skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS: Contains oxidizing agents. Do not mix with other chemicals or any other substance. Do not pre-dissolve or add water to this product. Always apply product directly into the pool or spa. Contamination of this product with moisture or small amounts of water, other chemicals, organic matter or other substances, can lead to product decomposition with generation of heat, liberation of hazardous gases, and potentially fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container outdoors in open air, and flood with large amounts of water.

FIRST AID

Have product container or label with you when calling a poison control center or doctor, or going for treatment.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present after 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for further treatment advice.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for further treatment advice. If Swallowed: Call Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person If Inhaled: Move person to fresh air If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for further treatment advice

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage. You may also contact 1-800-222-1222 for emergency medical treatment information.
