U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Antimicrobials Division (7510C) 1200 Pennsylvania Avenue, NW Washington, D.C. 20460-0001 EPA Reg. Number:

Date of Issuance:

75101-1

November 22, 2002

Terms of Issuance:

Conditional

Name of Pesticide Product:

VACSOL® AZURE

NOTICE OF PESTICIDE:

X Registration
Reregistration

(Under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

KOPPERS ARCH WOOD PROTECTION (NZ) LTD

265 James Fletcher Drive

Post Office Box 22-148

Glenfield, Auckland 9, NZ

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above-named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

- 1. Submit and/or cite all data required for registration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
 - 2. Make the labeling changes listed below before you release the product for shipment:
 - a. Revise the EPA Registration Number to read "EPA Registration Number 75101-1"

Adam Heyward Product Manager 34 Regulatory Management Branch II

Antimicrobials Division (7510C)

Date:

November 22, 2002

EPA Form 8570-6

b. Revise the precautionary statement to read as follows:

"May be fatal if swallowed, absorbed through the skin, or inhaled," "May cause irreversible eye damage and skin burns," and "May cause allergic skin reaction "Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals."

- c. In accordance with § 40 CFR 156.10(h)(1)(i)(A), add the word "Poison" in red, with the skull and crossbones in immediate proximity to the ingredient statements on the label front panel.
- d. In the "First Aid" section, the proposed labeling differs from Pesticide Registration (PR) Notice 2001-1 in that it omits the "unless" phrase of the statement, "Do not induce vomiting unless told to do so by a poison control center or doctor." This is appropriate, as the product is predominantly mineral spirits, for which vomiting is contraindicated.
- e. The "First Aid" section of the proposed label also omits the statement (which is indicated in PR Notice 2001-1), "Have person sip a glass of water if able to swallow."

You must submit a rationale for the omission of the statements, otherwise the first aid statement must read in accordance with PR Notice 2001.1.

Submit three (3) copies of the revised final printed label bearing the revisions prior to releasing this product for sale.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Adam Heyward

Product Manager (34)

Regulatory Management Branch II Antimicrobials Division (7510C)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

VACSOL® AZURE is for use only to treat machined lumber and manufactured wood products made from Pinus radiata wood, such as door jambs, sills and window joinery. It is intended for use to control wood decay fungi and termites. Do not use before obtaining technical advice from Koppers Arch Wood Protection NZ Ltd.

Wood preparation: Perform all needed machining, cutting, and glueing of wood before treating. Wood must be clean and dry before treatment and must have been kiln dried to permit adequate penetration of preservative during treatment.

Treatment: VACSOL® AZURE is a ready-to-use solution that does not require dilution before use. Apply by pressure treatment (double vacuum process). Use a vacuum impregnation rate of 30 liters of VACSOL® AZURE solution per cubic meter. A minimum retention level of 0.36 kg of total azole and 0.08 kg of permethrin per cubic metre is recommended.

Post-treatment: After treatment, wood must be held on the drip pad until dripping has stopped, and then conditioned in a ventilated area to remove excess solvent until the wood is completely dry and odor free. Thereafter, the wood should receive a coat of primer (Benjamin Moore PE901 acrylic primer or equivalent).

Treated wood must not be used or placed where it may contact food or animal feed.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store product in original container in a secure area. Keep container closed except when in use.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Disposal: Before disposal of empty containers, triple rinse and drain them. Then offer containers for recycling or reconditioning, or puncture and dispose of them in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If disposal is by burning, stay out of smoke.
