

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:

75131-1

Date of Issuance:

DEC 21 2005

Term of Issuance: Conditional

Name of Pesticide Product:

SWIFTACK Miticide Tags for Poultry

NOTICE OF PESTICIDE:

 Registration Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Notable Solutions, LLC
363 Highway 32
Fair Play, MO 65649

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A), provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. **Make the following labeling changes:**
 - a) Revise the EPA Registration Number to read "EPA Reg. No.75131-1"
 - b) Revise Precautionary Statement to read as follows:

"Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse."
 - c) Under Environmental Hazards revise the first sentence to read: "This product is toxic to fish and other aquatic organisms".

Signature of Approving Official:

George T. LaRocca
George T. LaRocca, Product Manager (13), IB/RD (7505C)

Date:

Dec 21, 2005

- d) Move "Use this product only as specified on this label" to Directions for Use.
 - e) Add "Wear chemical resistant gloves when applying tags" to the Directions for Use section.
3. We have completed a occupational exposure risk assessment (copy enclosed) and conclude that risk concerns for handlers exposed during application are negligible. However to confirm that dermal post application exposure is also negligible we are requesting that you submit as a condition of registration efficacy data to confirm that residues have dissipated by week 53. Please indicate when this data will be submitted.
4. Please submit two (2) copies of your final printed label for before your release the product for shipment. Please refer to the A-79 enclosure for a further description of final printed labeling. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing amended labeling constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

If you have any questions regarding this action, please contact BeWanda Alexander of my team at (703) 305-7460.

SWIFTACK Miticide Tags for Poultry

**This box contains tags and fasteners for use
with the patented SWIFTACK Applicator Tool**

For use on all classes of poultry including commercial layers, layer and broiler breeders, and turkeys to control Northern Fowl Mites.

Active Ingredient:

Permethrin: ((3-phenoxyphenyl)methyl
(+)cis-trans-3(2,2-dichloroethenyl)-2,
2-dimethylcyclopropane carboxylate)*..... 25%

Other Ingredients:.....75%

Total 100%

*Cis/trans isomer ratio: Max. 35% (+) cis; min. 65% (+) trans

**ACCEPTED
with COMMENTS
In EPA Letter Dated
DEC 21 2005**
Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under EPA Reg. No.
75131-1

KEEP OUT OF REACH OF CHILDREN CAUTION

FIRST AID	
IF SWALLOWED:	
<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have a person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person. 	
IF IN EYES:	
<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice. 	
IF ON SKIN OR CLOTHING:	
<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice. 	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating or smoking. Wear non-permeable gloves when applying tags.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not apply directly to water. Do not contaminate water by disposal of used tags. Use this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Control of heavy infestations of Northern Fowl Mites may require treating the birds and/or facility by traditional methods (e.g., spraying, dusting, or dipping) before attaching SWIFTACK Miticide Tags to birds. Remove tags before processing birds.

Method of Attachment

Attach the insecticide tag to the bird with the patented SWIFTACK Applicator Tool as follows: (1) slide the tag onto the applicator needle; (2) insert the needle through the wing web directly below the arm bone; (3) squeeze the applicator two times sending two fasteners through the tag and the wing web, and (4) remove the needle. This will result in the attachment of the insecticide tag to the wing web with two fasteners for excellent retention.

Chicken Breeders: At time of bird placement attach one tag, using two fasteners to each wing web of the **ROOSTERS ONLY**. Each rooster should receive a total of two tags, one in each wing web. Do not apply insecticide tags to the hens, as they will receive treatment from contact with the roosters.

Caged Layers: At time of bird placement attach one tag, using two fasteners, to one wing web of every fifth bird in the same cage (1:5 ratio).

Turkey Breeders: At time of bird placement attach one tag, using two fasteners, to the wing web, directly under the arm bone, of each tom and/or hen turkey.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE DISPOSAL: Remove tags before processing birds. Securely wrap used tags in a plastic bag or several layers of newspaper and discard in trash for disposal in a sanitary landfill.

CONTAINER DISPOSAL: Dispose of empty container(s) in a sanitary landfill or by incineration, or, if allowed by State and Local authorities, by burning. If burned, stay out of smoke.

5/5

NET CONTENTS: 1000 Tags and 2000 Fasteners
NET WEIGHT: 0.06 oz per tag (1.7 grams per tag)
