Directions For Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use outdoors in semi-confined areas such as porches, patios and similar area where there is little or no breeze. The coils' effectiveness and duration are affected by airflow. Separate coils by gently pulling them apart. Insert coil onto stand. Light the outer end of coil and let it flame approximately 1/8 inch. Blow out the flame and allow coil to smolder until extinguished. For shorter periods of use, break coil into desired length. Place on non-combustible surface and keep lighted coils away from flammable materials, surfaces or objects. For best results evenly space coils approximately 8-10 feet apart around perimeter of area to be protected. Cover exposed food to avoid contamination. Save the holder for future use.

Gently flex and separate interlocked coils.	Open holder put the single piece coil on it.	Ignite coil then blow out flame.

Storage: Store in a cool, dry (preferably locked) area inaccessible to children and pets and away from sources of heat or ignition. **Disposal:** If empty: Do not reuse this packaging. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain. **Used coils:** Put ashes in trash.
