Subject: Label Amendment – Changes Required by the Methyldithiocarbamate Salts (Metam) Interim Registration Review Decision
Product Name: WoodFume
EPA Registration Number: 75341-2
Received Date: 11/3/2021
Decision Number: 587900

Dear Mechelle Walsh:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the Methyldithiocarbamate Salts (Metam) Interim Registration Review Decision, and has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised

labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Megan Snyderman by phone at 202-566-0639 or via email at snyderman.megan@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read 'J. Gayoso', is centered on the page.

Enclosure:

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

CORROSIVE. Causes irreversible eye damage and skin burns. May be fatal if absorbed through the skin. Harmful if swallowed or inhaled. Prolong or frequent skin contact may cause allergic reactions in some individuals. Do not get in eyes, on skin or on clothing. Do not breathe the vapor or spray mist. Wear waterproof or chemical resistant gloves, (such as nitrile rubber, butyl rubber or neoprene rubber), safety goggles or face shield, and protective clothing when handling. Wash hands, arms and face thoroughly with soap and water after handling, and before eating, smoking or using the toilet. Remove contaminating clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to mammals, birds, fish, and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of waste. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Discharge Elimination system (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. Apply this product only as specified on the label. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.
PESTICIDE STORAGE: Store away from food or feed in a secure, well ventilated area from extreme temperatures. DO NOT STORE BELOW 0 degrees Fahrenheit. Product crystallizes at lower temperatures. Warm or store at higher temperature and mix to redissolve crystals and assure uniformity before use. Do not store in unmarked containers. Keep container closed when not in use.
PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to the label instructions, contact your State Pesticide or environmental control agency, or the Hazardous Waste Representative at the nearest EPA regional office for guidance.
CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse as follows: Fill container ¼ full with water and recap. Shake for 10 seconds. Follow Pesticide Disposal instructions for rinsate disposal. Drain for 10 seconds after flow begins to drip. Repeat procedures two more times. Then offer for recycling if available or reconditioning if appropriate or puncture and dispose of in a sanitary landfill, or by other procedure approved by state and local authorities.

USE PRECAUTIONS

READ ALL DIRECTIONS BEFORE USING. Apply this product only as specified on this label. Keep children and pets away from treated wood. Do not store near feed or food. Keep container tightly closed when not in use. This product is toxic to fish. Apply only as specified on this label.

Batch Number: _____

WoodFume®

A Fumigant for Controlling Decay and Insects in Wood Poles

ACTIVE INGREDIENT: Sodium methylthiocarbamate (Anhydrous).....33.0%
 INERT INGREDIENT:..... 67.0%
 *Contains 3.18 lbs. active ingredient per gallon TOTAL 100.0%

**KEEP OUT OF REACH OF CHILDREN
DANGER
READ ENTIRE LABEL FOR PRECAUTIONARY STATEMENTS**

PRODUCT INFORMATION

WoodFume is a fumigant solution. When used as directed, it will arrest internal decay present in poles, piling and similar large timber members. During sterilization of the treated area, a fungitoxic residue is deposited in the cells of the wood. This residue is effective for an indefinite period. Timber known to have internal decay should be scheduled for treatment before they have decayed to the point where replacement is necessary.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For remedial treatment of wooden poles/timbers:

1. Plug the pre-drilled holes immediately after application;
2. Do not treat structures/beams indoors;
3. Do not drill an application hole through seasoning checks to apply product. If the hole intersects a check, plug the hole and drill another. If more than 2 treatment holes intersect an internal void or rot pocket, redrill the holes farther up the pole into relatively solid wood.

WoodFume may be applied to any section of a pole or timber where internal decay is suspected. Large structural timbers have so many different end uses that the groundline area of a 36" circumference standing pole is taken as a guide and example for application of this product.

For interior decay, drill four 7/8" diameter holes at a 45° angle downward to a depth of 15". The first hole should be at or below the groundline and succeeding holes approximately 6- 12" higher and rotated 90° from the next lower hole. Using a mustard cap (twist cap), pour ¼ pint of the fumigant into all holes.

For interior decay in other size poles, drill an adequate number of holes at a 45° angle downward, sufficiently spaced and of sufficient dimensions to allow for the application of the amount of fumigant in accordance with the table below. Using a mustard cap (twist Cap), pour equal amounts of the fumigant into all holes. Plug holes with treated wood or plastic plugs, using the precaution of wearing safety goggles or a face shield to avoid splashing any of the liquid into the eyes.

Circumference: less than 40"	WoodFume: 1 pint
Circumference: 40" – 50"	WoodFume: 1.5 pints
Circumference: over 50"	WoodFume: 2 pints

For other types of structural members drill an adequate number of holes, sufficiently spaced and of sufficient dimensions to allow for proper distribution of product. Plug holes with treated wood or plastic plugs, using the precaution of wearing safety goggles or face shield to avoid splashing any of the liquid into the eyes.

NET CONTENTS: 1 Gallon

FIRST AID	
If on skin or clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice
If in eyes	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.
If inhaled	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth, if possible. Call a poison control center or doctor for further treatment advice.
If swallowed	Call poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact (24 hours) (800) 424-9300 CHEMTREC for emergency medical treatment information.	
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.	

NOTICE - READ CAREFULLY

CONDITIONS OF SALE: Osmose offer(s) this product for sale subject to, and buyer and all users are deemed to have accepted, the following conditions of sale and warranty which may only be varied by written agreement of a duly authorized representative of Osmose.
WARRANTY LIMITATION: Osmose warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the directions for use on the label subject to the inherent risks referred to below. Osmose makes no other express warranties; THERE IS NO IMPLIED WARRANTY OF MERCHANTABILITY and there are no warranties which extend beyond the description on the label hereof.
INHERENT RISKS: The directions for use on this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks associated with use. Buyer assumes all risks associated with use or application of this product contrary to label instructions or resulting from extraordinary weather conditions.
LIMITATION OF LIABILITY: In no case shall Osmose be liable for special, indirect, or consequential damages resulting from the use or handling of this product and no claim of any kind shall be greater in amount than the purchase price of the product in respect of which such damages are claimed.
