DESCRIPTION

COP-R-PLASTIC™ II is designed for remedial treatment of in-service poles, piling, posts, and other timber members. It may be applied by brush, trowel or pump.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

EXTERNAL TREATMENT: Apply to a thickness of 1/16" on poles or timber. Typical pole application is from 3" above to 18" below groundline and lower where deeper decay is suspected. Application on poles to be restored should extend the length of wrap-around type repair systems. Wrap the treated area with water-proof bandage, OSMOSHIELD.

INTERNAL TREATMENT: For control of internal decay in poles and other timbers, holes may be drilled in areas of the poles or timber where protection is required. Fill drilled holes, decay pockets, and voids using a grease gun or other pressurized applicator. Plug application holes with secure-fitting dowels.

Application of this product may produce a strong, lingering unpleasant odor.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food or feed by storage or disposal.
CONTAINER DISPOSAL: Triple rinse (or equivalent). Puncture and dispose of in sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
 If product is in metal container, do not attempt to burn or incinerate. Triple rinse (or equivalent). Puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes can not be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
