Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Pretreatment Directions

Read entire label before each use. Use only on dogs or cats to kill ear mites. Do not use on animals under 12 weeks.

SPECIAL ANIMALS: Do not use this product on debilitated, aged, pregnant, nursing or medicated pets.

ADVERSE REACTION INFORMATION: Sensitivities may occur after using any pesticide product for pets. If signs of sensitivity occur, consult a veterinarian immediately.

DIAGNOSIS FOR EAR MITES: Ear mites usually include the formation of a dry, dark brown, waxy exudate with crusts in the ears of dogs or cats. Ear mites may be detected by placing some of the ear exudate on a dark surface and carefully watching for the movement of tiny white specs away from the exudate. Inflamed, watery or blocked ear canals indicate a more serious condition, which requires the services of a veterinarian.

APPLICATION DIRECTIONS:

While holding pet firmly, fill each ear canal half full with Ear Mite Remedy and massage base of ear to insure that insecticidal action penetrates ear wax.

REAPPLICATION DIRECTIONS:

Do not reapply this product for one day. Improvement is usually noted after two applications.
