APR 17 2003

NOTICE OF PESTICIDE:
 X Registration
 Re-registration

Term of Issuance:
CONDITIONAL

Name of Pesticide Product:
AquaSorb LS 0.05 Ag

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP code):

Jacobi Carbons, Inc.
1518 Walnut Street Suite 1100
Philadelphia, PA 19102

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA Section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA Section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA Section 4, or as required by registration review under FIFRA Section 3(g).
2. Make the following labeling changes:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 75456-1".

AquaSorb® LS 0.05 Ag

Directions for use

Use with cold water only.

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Prior to using AquaSorb LS 0.05 Ag, the material requires an initial rinse to remove carbon dust and fines and to properly wet the material. The rinse should be accomplished by ensuring that one unit volume of material is fully submerged in three unit volumes of tap water for a period of no less than 15 minutes and no more than 20 minutes, following which the material should be left to drain.
