PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals

Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. Do not get in eyes, on skin, or on clothing. Wear full-face shield, NIOSH/MSHA cartridge respirator if airborne test exceeds 2 mg/m³ for 8-hr exposure. If airborne test is below the value, wear safety goggles and dust mask. Wear full protective clothing and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

Environmental Hazards: Do not discharge effluent containing this product to lakes, streams ponds, estuaries, oceans or other waters unless in accordance with requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact State Water Agency or Regional Office of the USEPA.

Physical and Chemical Hazards: Cold-Ster reacts with water and may generate heat. If confined in containers, the heat generated could ignite combustible materials.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

Cold-Ster is designed for use only in the PIWS-3000 Treatment System as described in the Operations Manual. The hopper containing Cold-Ster is opened by workers wearing the appropriate personal protective equipment described above and is replenished on an as needed basis. The amount of Cold-Ster used is equivalent to 7.5% of the weight of the material to be treated and is added automatically at the beginning of the treatment process, by the equipment. At the same time the Cold-Ster is being added, a water spray is also automatically introduced into the system. The treated waste exits the waste chute and is directly deposited into enclosed general commercial trash containers located at each facility. The waste is disposed in a sanitary landfill.

COLD-STER™

For treatment of Medical Waste
Using the PIWS-3000 Treatment System

Active Ingredient:	86.8%
CALCIUM OXIDE	13.2%
Inert Ingredients	100.0%

For Commercial Use Only
KEEP OUT OF REACH OF CHILDREN

DANGER

First Aid

Have product label with you when calling poison control center, doctor, or going for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present after the first 5 minutes then continue rinsing.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably, mouth-to-mouth. Call poison control center or doctor for further treatment advice.

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

Note to physician: Probable mucosal damage may contraindicate the use of **ACCEPTED**

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in a dry place. Keep away from moisture.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Completely empty bag into Cold-Ster Hopper. Then dispose of empty bag in the PIWS 3000 system or in a sanitary landfill.
