UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Biopesticides and Pollution Prevention Division
(7511C)
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number:
75771-1

Date of Issuance:
FEB 15 2008

Term of Issuance: Conditional

Name of Pesticide Product:
Biter Fighter™ Biting Insect
Attractant

NOTICE OF PESTICIDE:
x Registration
Reregistration
(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Ticks or Mosquitoes, LLC
905 S. Kingshighway
Sikeston, MO 63801

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This registration does not eliminate the need for continual reassessment of the pesticide. If EPA determines at any time, that additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under section 3(c)(2)(B) of FIFRA.

This product is registered in accordance with FIFRA section 3(c)(7)(C) and is subject to the following conditions:

- 1) This registration is limited to the end-product, Biter Fighter™ Biting Insect Attractant which contains the active ingredient, calcium lactate.
2) Change "EPA Registration Number 75771-R" to "EPA Registration Number 75771-1" on the final printed label.
3) A protocol must be submitted to the Agency for review and approval within 30 days of the date of this registration for condition # 4 of this registration prior to submitting the actual study.
4) Conduct a new efficacy study (Evaluation of the Efficacy of TOM Trap Biter Fighter Compared to Competitive Mosquito Traps in Balanced Outdoor Locations) containing the following elements:

CONCURRENCES

Date:

Table with columns for SYMBOL, SURNAME, and DATE. Includes handwritten entries: 7511P, 7511P, COLE, Halls, 2/15/08, 2/15/09.

- a) The study must include a negative control.
- b) You must describe and explain your choice of statistical analysis for the study.
- c) You must analyze data for the determination of normality
- d) In conclusion, interpretation of the results of the study must take into consideration the variability associated with a central measurement (such as the mean). Data collected over time from the same traps must be subject to an analysis of repetitive measurements. You must demonstrate that there is a statistically significant difference in the performance of both traps over time. Failure to submit the study within one year of the registration notice date will cause this product registration to expire on February 15, 2009.

5) A protocol must be submitted to the Agency for review and approval within 30 days of the date of this registration for gnats.

The study entitled (Evaluation of the Attraction Distance and Area Coverage of TOM Trap Biter Fighter Trap in Field Locations Specific to *Aedes aegypti* Mosquitoes) lacks clarity. Within 30 days of the date of this registration you must explain how the percentages of mosquitoes in the submitted study were calculated. It must be clearly demonstrated that the data are normally distributed, and you must provide in this explanation a specific and significant difference between treatments.

Sincerely,

W. Michael McDavit, Associate Director
 Biopesticides and Pollution
 Prevention Division (7511C)

Enclosure

BITER FIGHTER™
BITING INSECT ATTRACTANT

Optional claims:

- Can be used indoors or out of doors
- Reduces biting insect populations where people gather
- Easy to use
- Is not hot to touch
- Small, lightweight and portable trap

KEEP OUT OF REACH OF CHILDREN
CAUTION

Trap reload contains:

Active ingredients:	
Sodium bicarbonate	63.61
Urea	11.20
Calcium lactate	25.19
Total	100.00

Manufactured for:

Ticks or Mosquitoes, LLC
 905 S. Kingshighway
 Sikeston, MO 63801

EPA Reg. No. 75771-
 EPA Est. No.

Net Weight 1.73 lb.

ACCEPTED

FEB 15 2008

Under the Federal Insecticide, Fungicide,
 and Rodenticide Act, as amended, for
 the pesticide registered under
 EPA Reg. No. 75771-1

FIRST AID	
If in Eyes	Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.
If Swallowed	Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.
If Inhaled	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
If on Skin	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
	Have the product container or label with you when calling a poison control center or doctor or going for treatment.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals
Caution. Causes moderate eye irritation. Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with eyes, skin or clothing. Avoid breathing dust. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

Environmental Hazards

Do not apply directly to water. Do not contaminate water when disposing of spent attractant mixture.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Assemble the trap as described in the assembly instructions. Place the *Biter Fighter*™ attractant mixture bag into the blue cup and cut the top off the bag. Add 1 teaspoon of water directly into the bag to charge the attractant mixture. Place the red water cup on top of the blue cup and twist to lock into place. Fill red water cup to within one-half inch (½ in.) of the top of the cup. Insert wick and ensure that one end lies on the bottom of the water cup.

Out of Doors: Place the assembled *Biter Fighter*™ trap with activated attractant in the yard where crawling or flying insect pests are a problem. Move the trap 10 feet every 7 days for optimum coverage. For optimal results, hang the *Biter Fighter*™ trap 1 to 3 feet off the ground in areas where flying insect pests are a nuisance. Important. Follow assembly instructions carefully when using trap on the ground. Do not use the red adhesive strips on the bottom hood, as small animals may be captured.

Indoors: Place the assembled *Biter Fighter*™ trap with activated attractant indoors to capture insect pests inside the home. As in outdoor use, move the trap 10 feet every 7 days for optimal coverage. The trap may be used on the floor, or hung 1 to 3 feet off the floor to capture flying insect pests.
For both indoor and outdoor use: Replace the trap adhesive disks every two weeks, as shown in the trap assembly instructions.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.
Pesticide Storage: Store in a dry area, out of direct sunlight.

Disposal: Dispose of used attractant by closing bag, wrapping in newspaper and placing in the trash.
