Dear Mr. Weatherston:

Subject: Label Amendment- retain stable fly claim/tick repellency  
claim/precautionary label changes  
SHP-2002  
EPA Registration Number 75844-2  
Your submission dated July 17 and September 24, 2003

The amendment referred to above, submitted in connection with registration under FIFRA section 3(c)(7)(a), is acceptable provided that you:

1. Submit and/or cite all data or other material required for registration/reregistration of your product under FIFRA section 3(c)(5) or FIFRA section 4 when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

a) Revise the precautionary statements as follows: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. Avoid contact with eyes or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

b) Move the statements about sensitivities to animals under Precautionary Statements to the Directions for Use Section of the label.

c) Based on the Toxicity Category Classification IV for acute oral exposure you may delete the If Swallowed first aid statement.

We will accept the stable fly claim provided Andrew M. Martin agrees to submit further testing to verify the kill and repel claims for stable flies with this product. We note in your September 24, 2003 letter that this data will be submitted.

3. Submit three (3) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

George T. LaRocca
