OFFICE OF
PREVENTION, PESTICIDES
AND TOXIC SUBSTANCES

Black Flag Brands, LLC
c/o Ms. Kathleen Young
The Homax Group, Inc.
26901 Cannon Road, Suite 190
Bedford Heights, OH 44146

OCT 26 2009

Dear Ms. Young:

Subject: Amendment: Comply with Agency pyrethroid labeling letter dated June 4, 2009
BLACK FLAG Home Insect Control
EPA Reg. No. 79529-30
Your submission dated August 27, 2009

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) section 3(c)(7)(a), is acceptable provided that you:

1. Submit and/or cite all data or other material required for registration/reregistration of your product under FIFRA section 3(c)(5) or FIFRA section 4 when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling change indicated below within 6 months:
 - a. On page 5 under the heading "DIRECTIONS FOR USE", add as the fourth paragraph (following the paragraph beginning "Other than applications ...") "Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application."

A stamped copy of the label is enclosed for your records. Please submit three copies of the amended labeling bearing the above revisions when it becomes available.

Sincerely,

Dana R. Pelitt

for

Richard Gebken
Product Manager 10
Insecticide Branch

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not water the treated area to the point of run-off. Do not make applications during rain. All outdoor applications must be limited to spot or crack and crevice treatments only, except for the following permitted uses: (1) Treatment to soil or vegetation around structures; (2) Applications to lawns, turf, and other vegetation; (3) Applications to building foundations, up to a maximum height of 3 feet.

Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.

{Note to Reviewer: The following statement will be used when the label includes indoor residential uses only}

For Indoor Residential [Home] Use Only.

Note to Reviewer: The following statement will be used when the label includes indoor and outdoor residential uses}

For Indoor and Outdoor Residential [Home] Use Only.

Shake Well Before Using

{Use instructions – 1.5 Gal size}

1. CUT (Illustration) – Carefully cut the two white zip ties securing the hose and pump handle with scissors. Use caution not to cut the white hose.
2. CONNECT (Illustration) – Unwind hose. Firmly push the connector at the end of the hose onto the spout on the pump, until it locks into place.
3. EXTEND WAND (Illustration) – Lift sprayer wand off bottle. Push yellow [red] [black] [white] [orange] [silver] button while pulling out the wand nozzle tip. Fully extend wand until yellow [red] [black] [white] [orange] [silver] button snaps into SPRAY position. NOTE: White trigger will not function until wand is fully extended and yellow [red] [black] [white] [orange] [silver] button is visible in the SPRAY position.
4. PUMP (Illustration) – Pump container 10-20 times to pressurize bottle. A full bottle requires fewer pumps than an empty bottle. Pumping to the higher range will provide longer spray duration. After pumping, push pump down and turn handle clockwise to lock into carrying position. NOTE: This bottle is designed to expand under pressure and cannot be over-pressurized.
5. SPRAY (Illustration) – Aim wand. Spray by pushing down white trigger with thumb. Adjust spray pattern by rotating white nozzle tip up to one half rotation. Spray cracks and crevices and other areas where insects live and hide until slightly moist, but not to the point of runoff.
6. STORE (Illustration) – When finished spraying, press the yellow [red] [black] [white] [orange] [silver] button and push wand back to the original storage position until the yellow [red] [black] [white] [orange] [silver] button snaps into place. Place wand back onto the bottle with nozzle facing down.
7. DEPRESSURIZE (Illustration) – Push pump handle all the way down and turn pump handle and cap counter-clockwise to relieve pressure, then retighten prior to storing.

Note: If sprayer does not function properly, remove nozzle cover and check nozzle and holes in rubber component for obstructions. Replace nozzle cover and use as instructed above.

{Use instructions – 1.33 Gal size}

1. (Illustration) – Carefully cut the zip ties securing the pump handle with scissors. Use caution not to cut the hose.
2. (Illustration) – Unwind hose.
3. (Illustration) – Lift sprayer wand off bottle.
4. (Illustration) – Pump container 10-20 times to pressurize bottle. A full bottle requires fewer pumps than an empty bottle. Pumping to the higher range will provide longer spray duration. After pumping, push pump down and turn handle counter-clockwise to lock into carrying position. NOTE: This bottle is designed to expand under pressure and cannot be over-pressurized.

5. (Illustration) – Aim wand. Spray by pushing trigger with thumb. Adjust spray pattern by rotating nozzle tip. Spray cracks and crevices and other areas where insects live and hide until slightly moist, but not to the point of runoff.
6. (Illustration) – When finished spraying, place wand back onto the bottle.
7. (Illustration) – Push pump handle all the way down and turn pump handle and cap counter-clockwise to relieve pressure, then retighten prior to storing.

Note: If sprayer does not function properly, remove nozzle cover and check nozzle and holes in rubber component for obstructions. Replace nozzle cover and use as instructed above.

{Alternate Use Instructions – For use with new 1.33 Gal size Pump'N Spray™}

Pump'N Spray™ Instructions:

1. To Use: [Remove pump lock strip from pump handle]. Remove wand from holster [clip] and pull the hose from the storage compartment. Turn the pump handle clockwise to make sure the pump is tight and push the pop-up pressure indicator completely down before pumping.
2. To Pump: Turn the pump handle counterclockwise one-quarter turn to release the handle. (Illustration). Pump the sprayer until the pressure indicator pops up about an inch. That's your signal you are ready to spray. Turn the pump handle clockwise one-quarter turn to secure the handle for carrying.
3. To Spray: Begin spraying by pushing the lever on the spray handle down. Rotate the [white] [gray] nozzle at the tip of the wand to adjust spray from a stream to gentle mist. For continuous spraying, push the spray lever down and slide forward to lock. Pull back to release. (Illustration).
4. To Store: Slowly turn the pump handle counterclockwise to untighten and release pressure, then turn back clockwise to retighten the handle. Push the hose back into the storage compartment and put the wand back in holster [clip].
5. To Refill: When empty, refill with Black Flag® Home Insect Control® Concentrate [product name]. (Illustration). Turn the pump handle counterclockwise to untighten and remove the pump. (Illustration). Follow the Black Flag® Home Insect Control® Concentrate [product name] label directions to refill. Put the pump back into the sprayer and turn the pump handle clockwise to retighten.

{Use instructions – 1.0 Gal size or 1.3 Gal. size – sprayer in a bag}

How to Prime and Care For Your Sprayer

1. Remove cap from container and replace with sprayer hose and cap assembly. Tighten securely.
2. Turn sprayer nozzle one-half turn counterclockwise. (Illustration) Hold sprayer below the level of container and prime by pumping trigger 10-15 times until

10/14

product is dispensed. (Illustration) Adjust nozzle to fine spray or jet stream as needed.

3. After each use, thoroughly flush sprayer and hose with water. (Illustration) Return hose and cap assembly to container, tighten securely. Turn nozzle to "OFF" position and store above level of liquid in container to prevent leakage.

Note: If sprayer does not function properly, remove nozzle cover and check nozzle and holes in rubber component for obstructions. Check to make sure nozzle is not in "OFF" position. Replace nozzle cover, return sprayer assembly to container and use as instructed above.

{Note to Reviewer: A concentrate refill will not be offered for the 16 Fl oz, 24 Fl oz or 32 Fl oz RTU sizes.}

{Use Instructions – 16 Fl oz, 24 Fl oz, 32 Fl oz – RTU}

Adjust sprayer to desired pattern and spray insects directly or treat areas where insects live and hide.

HOW TO USE:

Hold container upright. Do not spray up into air. Use only for spot treatment. Adjust sprayer to mist or spray. [Adjust sprayer to begin.] [Adjust sprayer to desired pattern.] [Adjust sprayer to On [position].] *{Note to Reviewer: Sprayer adjustment instruction will be dependent on sprayer unit used in finished product.}* Hold sprayer 12 inches from the insect or surface to be sprayed. Spray until the surface is slightly moist but not to the point of runoff. Repeat treatment as necessary but do not apply more than once per week. Children and pets may re-enter treated areas after the spray has dried. Cover all food handling surfaces and cover or remove all food and cooking utensils or wash thoroughly after treatment. Exposed food should be covered or removed.

INDOORS:

To Kill Cockroaches [Roaches], Ants (including Carpenter Ants), Box Elder Bugs, Carpet Beetles, Centipedes, Crickets, Firebrats, Gnats, Ground Beetles, Houseflies, Mosquitos, Palmetto Bugs, Silverfish, Small Flying Moths, Sowbugs, Spiders, and Waterbugs:

Spray directly on insects or indoor areas where these insects may live and hide including in kitchens and bathrooms; behind baseboards; along cracks and crevices; behind and under refrigerators, sinks, stoves, storage areas, and cabinets; around doors and windows; around plumbing; in attics, basements, and crawl spaces; garbage cans; edges of floor coverings and under rugs. Flying insects resting on treated surfaces will be killed.

To Kill Fleas & Ticks:

Remove pet bedding and destroy or clean thoroughly. Spray pet resting quarters until moist. Put fresh bedding down once spray has dried. Do not spray animals directly. For best results, pets should be treated with an appropriate flea and/or tick control product registered for use on pets before allowing them to return to the treated area. Also treat rugs and carpets that may be infested.

11/13

Horse Stables: To Kill stable flies, horn flies, houseflies, face flies, horse flies, deer flies, mosquitos and gnats:

Apply thoroughly to surfaces until wet. Insects coming to rest on treated surfaces will be killed or repelled. Do not treat more than once per week. Do not spray animals or humans, or apply to animal feed or watering equipment. Controls stable flies for up to 4 months.

To Kill Pantry Pests including Rusty, Merchant and Saw-Toothed Grain Beetles, Red and Confused Flour Beetles, Chocolate Moths, Cigarette Beetles, Clover Mites, Cluster Flies, Drugstore Beetles, Elm Leaf Beetles, Rice Weevils, Lesser Grain Borers, Spider Beetles, and Tobacco Moths:

Treat exposed stages. Remove all foodstuffs, utensils and shelf paper from area to be treated. Apply spray to shelves and in cracks and crevices behind and under pantry. Allow to dry prior to replacement of shelf paper, food, and utensils. Wash any exposed food handling surfaces and utensils before use.

Webbing Clothes Moth: Apply as a crack and crevice treatment in closets and other storage areas where these pests are found. This treatment will not control moth larvae already on clothes. Do not apply to clothing.

To Kill Bedbugs:

Apply to cracks and crevices where evidence of bedbugs occurs. This includes bed frames, box springs, inside empty dressers and clothes closets and carpet edges, high and low wall moldings and wallpaper edges. Do not use this product on mattresses, pillows, bed linens, or clothes. Remove all clothes and other articles from dressers or clothes closets before application. Allow all treated areas to dry thoroughly before use. Not recommended for use as sole protection against bedbugs. If evidence of bedbugs is found in/on mattresses use products approved for this use.

OUTDOORS:

Spray with wind if breeze is blowing. Do not contaminate fish ponds or apply directly to water. Remove all exposed food and cooking utensils. Cover all food handling surfaces or wash thoroughly after treatment and before use. Do not use on edible crops.

To Kill Ants, Crickets, Sowbugs (Pillbugs), Cockroaches [Roaches] including Asian Cockroaches, Centipedes, Dog Ticks, Fleas, Gnats, Houseflies, Lone Star Ticks, Mole Crickets, Mosquitos, Silverfish, and Waterbugs:

Spray directly on insects or outdoor areas where insects live and hide including the perimeter of foundations around homes and residential storage buildings; doors and windows; window screens and frames; light fixtures; eaves; porches; patios, decks;

garages; and infested bushes, grass, and weeds. Spray ant trails and hills. Spray ant nests until wet.

To Kill Carpenter Ants or Carpenter Bees:

Apply to voids or channels of damaged wood. Treat cracks and crevices of wooden sections between the wood and foundation of the home or outdoor storage structures.

To Kill Wasps, Hornets, Yellow Jackets and Bees:

Spray directly at nest openings. Applications should be made late in the evening when insects are at rest.

Houseplants: To Kill Aphids, Japanese Beetles, Lace Bugs, Leafminers, Mealybugs, Mites, and Spider Mites. Remove plants from living and eating areas prior to spraying. Plants can be returned after the leaves are dry. If plants cannot be moved, cover or remove exposed food and food handling surfaces.

Spray both leaf surfaces. Avoid wetting blossoms if possible. Do not apply more than once per week.

Ornamental Garden Insects: To Kill Japanese Beetles, Whiteflies, Aphids, Armyworms, Lace Bugs, Mealybugs, Exposed Thrips, Pavement Ants, Spiders, Spider and Red Mites, Clover Mites and Leafminers.

Spray directly to insects on African Violets, Asters, Azaleas, Begonias, Camellias, Carnations, Chrysanthemums[Mums], Dahlias, Delphiniums, Dogwoods, English Ivy, Euonymus, Fushia, Geraniums, Crassula, Grape Vine, Kentia Palm, Laurel, Marigolds, Rhododendrons, Roses, Rubber Plants, Snapdragons, Stocks, Wandering Jew, Zinnias, and other ornamentals.

Apply spray at least 18 inches from plants. Cover both leaf surfaces thoroughly, but not to the point to runoff. Tender foliage, young plants, and new growth may be damaged if temperatures exceed 90° F. Do not apply to vegetable plants or other plants used for food. Not for use on plants grown for sale or other commercial use.

STORAGE AND DISPOSAL

{Note to Reviewer: The following Storage Statement will be used with the 1 Gal, 1.3 Gal, 1.33 Gal, and 1.5 Gal Containers}

STORAGE: Store in a cool, dry area away from [inaccessible to] children. [Do not transport or store below 32° F (0 ° C).] [Protect from freezing.] [Store above 32° F.] If freezing occurs, allow product to thaw and shake well before using [use]. [Some product separation may occur on freezing which is reversible on shaking]. Freezing does not adversely affect [this product] [performance]. This container can be refilled and reused

only with Black Flag Home Insect Control Concentrate [or product name] in accordance with directions for use. However, when ready to dispose of container follow disposal directions below.

{Note to Reviewer: The following Storage Statement will be used with the 16 Fl oz, 24 Fl oz and 32 Fl oz Containers.}

STORAGE: Store in a cool, dry area away from [inaccessible to] children. [Do not transport or store below 32° F (0 ° C).] [Protect from freezing.] [Store above 32° F.] If freezing occurs, allow product to thaw and shake well before using [use]. [Some product separation may occur on freezing which is reversible on shaking]. Freezing does not adversely affect [this product][performance].

DISPOSAL:

{Note to Reviewer: The following Disposal Statement will be used with the 1 Gal, 1.33 Gal, and 1.5 Gal Containers.}

Nonrefillable container. Do not reuse or refill this container unless the directions for use allow a different (concentrated) product to be diluted in the container. If empty: Place in trash or offer for recycling, if available. If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

{Note to Reviewer: The following Disposal Statement will be used with the 16 Fl oz, 24 Fl oz and 32 Fl oz Nonrefillable containers.}

Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling, if available. If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

Have the product container or label with you when calling a poison control center or doctor or going for treatment. In case of medical emergencies or health and safety inquiries or in case of fire, leaking or damaged containers, information may be obtained by calling 1-866-767-5047.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to fish and aquatic invertebrates. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

14/14

{Note to Reviewer: The following Environmental Hazards Statement will be used with the 1 Gal, 1.3 Gal, 1.33 Gal and 1.5 Gal Containers}

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

{Note to Reviewer: The following Environmental Hazards Statement will be used with the 16 Fl oz, 24 Fl oz and 32 Fl oz Containers}

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

PHYSICAL OR CHEMICAL HAZARDS

Do not apply this product in or on electrical equipment due to possibility of shock hazard.

Notice: To the extent consistent with applicable law, the buyer assumes all responsibility for safety and use not in accordance with directions.
