New Market, MD 21774

Dear Mr. Jacoby:

Subject: Label Revisions
EPA Registration No. 79628-1
Product Name: DISODIUM OCTABORATE TETRAHYDRATE
Application Date: May 25, 2005

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended is acceptable, and stamped copy is enclosed for your records.

Sincerely,

A handwritten signature in cursive script, appearing to read "Richard M. Gebken".

Richard Gebken
Product Manager 10
Insecticide Branch
Registration Division 7505

**This product is for sale only to
Professional Wood Treaters**

**DISODIUM OCTABORATE
TETRAHYDRATE**

A preservative for Protection and Treatment of Wood
and Wood-Foam Composite Structural Components
Against Decay Fungi and Wood-Destroying Insects.

ACTIVE INGREDIENT:

Disodium Octaborate Tetrahydrate..... 99.98%

OTHER INGREDIENTS..... 0.02%

TOTAL..... 100.00%

**KEEP OUT OF REACH
OF CHILDREN**

CAUTION

NET WEIGHT: 50 POUNDS

RIGHT PANEL

DIRECTIONS FOR USE: IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

DISODIUM OCTABORATE TETRAHYDRATE IS A WATER SOLUBLE INORGANIC BORATE SALT FOR THE PROTECTION AND TREATMENT OF LUMBER AND WOOD-FOAM COMPOSITE STRUCTURAL COMPONENTS AGAINST DECAY FUNGI AND WOOD BORING BEETLES INCLUDING Powder Post Beetles (Lyctidae), Furniture Beetles and Old House Borers (Anodidae), Longhorn Beetles (Gerambycidae). This treatment is not effective against wood staining fungi and may require mixing with compatible products. Wood pressure treated with DISODIUM OCTABORATE TETRAHYDRATE resists attack of Subterranean Termites (Reticulitermes, Coptotermes, Heterotermes), Dampwood Termites (Zootermopsis), Drywood Termites (Kaloterms, Incisitermes), and Carpenter Ants (Camponotus) in treated wood.

Pressure treatment with only DISODIUM OCTABORATE TETRAHYDRATE, is recommended for all interior wood and wood-foam composite structural components, which will be protected from rain and not in direct contact with soil. Wood and wood-foam composite structural components that are pressure treated with DISODIUM OCTABORATE TETRAHYDRATE, can be used in exterior applications, unprotected from liquid water, including rain and not in direct contact with soil, when treated with a waterproof sealant following treatment with DISODIUM OCTABORATE TETRAHYDRATE. When end cuts are performed following the waterproofing treatment, it is recommended that the ends be resealed. This includes but is not limited to, the manufacturer's proprietary polymer binder. The manufacturer's instructions must be followed when treating with the proprietary polymer binder.

NOTICE TO WOOD TREATER

PRESSURE TREATMENT: Pressure treatment of wood and wood-foam composite structural components must rigidly adhere to the current specifications of DISODIUM OCTABORATE TETRAHYDRATE established by the American Wood Preservers' Association (AWPA).

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal

PESTICIDE STORAGE: Store in a dry place. Do not store where children or animals may gain access.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

NOTICE: Because of many varying conditions affecting use and application, manufacturers warns buyer that these may impair or vary the results of the use of this product. In any event, complete prevention of decay by fungi or other organisms is not guaranteed. Neither manufacturer nor seller shall be liable in respect to any injury or damage suffered by reason of the use of this product for purpose not indicated by the label or when used contrary to the directions or instructions hereon nor with respect to breach of any warranty not expressly specified herein. Buyer accepts this material subject to these terms, assumes all risk of usage and handling except when used or handled in accordance with this label. Neither manufacturer nor seller, makers, and their employees and agents are permitted to make, any representations or warranties, express or implied by law, not specifically set forth herein.

PRECAUTIONARY STATEMENT

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

"CAUTION": Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Avoid contamination of food and feed. Do not have container where children or animals may gain access.

Personal protective clothing, normal work clothes (i.e., long pants, shoes plus socks, a long sleeved shirt) plus waterproof gloves for all handlers and a NIOSH/MSHA certified respirator during mixing and loading.

FIRST AID

If swallowed:

- Call poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If in eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If on skin or in clothing:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-345-8102 for emergency medical treatment information.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lake, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
